Funding Proposals and Applications

The Board is to be kept informed of the development of proposals and applications for possible sources of state, federal, and other funds outside the regular District budget, for support of the schools and/or for enhancement of educational opportunities in the District. The Superintendent is to apprise the Board of eligibility for general or program funds, make recommendations for Board action, and submit proposals for special grants for approval by the Board, before any action is taken which commits the District in any way.
