Citizens and Governing Board
Paradise Valley Unified School District No. 69
15002 North 32nd Street
Phoenix, Arizona 85032-4441

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Paradise Valley Unified School District No. 69 (District) for the fiscal year ended June 30, 2019.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to not only report on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona. The Paradise Valley Unified School District offers a premiere education to students in kindergarten through grade 12. The District has 29 elementary schools offering free, full-day kindergarten through grade 6; one kindergarten through grade 8 school, seven middle schools with grades 7 and 8; five high schools, grades 9 through 12; two alternative schools and one comprehensive online school serving kindergarten through grade 12. The district offers a variety of education programs including Kindergarten through grade 12 International Baccalaureate; Advancement Via Individual Determination, Core Knowledge®; Science, Technology, Engineering, Math (STEM), gifted and special education, foreign language immersion (Mandarin and Spanish), fine arts including the North Valley Arts Academies (5 through 12) at Desert Cove Elementary, Shea Middle and Shadow Mountain High School, career and technical education, before- after-school programs, sports and extracurricular activities, and pre-K programs.

The District is located in 98 square miles of northeast metropolitan Phoenix and a portion of north Scottsdale. With more than 31,000 students, the District is the seventh-largest school district in the state of Arizona. The District employs 104 administrators, over 2,100 certified classroom teachers and other instructional personnel, 111 student support workers and 952 support personnel.

Vision:

Our students will be the leaders of tomorrow with the skills, knowledge and confidence to realize their dreams in an ever-changing world.

Mission:

To cultivate world-class thinkers.

Goals:

1. To work collaboratively to engage students in individualized, rigorous, and authentic learning opportunities so that they may reach their highest potentials.
2. To create a culturally proficient climate that ensures equity and access for all in PVSchools.

We believe:

- Every member of our community plays a valuable role in the success of our students by supporting a positive, student-focused learning environment.
- It is vital to ensure equity and access to a high quality educational experience for all.
- The essential skills for success are collaboration, creativity, communication and critical thinking.
- A collaborative and inclusive culture is critical to reach our goals.
- Lifelong learning is essential.

PVSchools' faculty and staff received numerous awards during the 2018-19 school year, including 2019 Air Force Association (AF) Teacher of the Year Award, 2019 Maricopa County Exemplary Principals Award, and 2019 Administrator/Regional Leader of the Year Award from the Arizona Community Education Association.

PVSchools students also received numerous awards during the 2018-19 school year, including four National Merit Finalists (2019 Scholarship Program), five National Hispanic Scholars, several athletic State Championships, including 5A Bous Baseball State Championship, Division II Girls Track & Field State Championship, Division III Girls Track & Field State Championship, 6A Boys Basketball State Championship, 4A Girls Basketball State Championship, 4A Boys Basketball State Championship, 5A Northeast Valley Girls 135 lbs. State Wrestling Championship, and Division II State Wrestling Championship 160 lbs.

Our schools were recognized both locally and nationally for achieving high academic standards. According to the College Board's 2018 ACT scores, PVSchools' high school students continue to outperform state averages. Additionally, Horizon High School was recognized on the 2019 *U.S. News and World Report Best High School List*.

PVSchools' graduating class of 2019 submitted more than 2,260 scholarship applications to post-secondary institutions, and these recent graduates were awarded scholarships worth more than \$58.7 million collectively.

Scholarships awarded by schools:

- Horizon High School: \$14.9 million
- Pinnacle High School: \$21.8 million
- North Canyon High School: \$5.1 million
- Paradise Valley High School: \$11.6 million
- Shadow Mountain High School: \$4.9 million
- PVOnline: \$102,000

PVSchools graduates have been accepted into hundreds of colleges and universities throughout the United States, including Arizona State University – Barrett Honors College, Brigham Young University, Cornell University, Duke University, Fordham University, New York University, Northern Arizona University, Pepperdine University, Seton Hall University, University of Arizona, University of California, University of Hawaii at Monoa, University of Miami, and Yale University.

The 2018-19 school year included the fifth administration of AzMERIT, Arizona's statewide achievement assessment for English Language Arts (ELA) and Mathematics. AzMERIT assessments are administered to all students in grades three through eight, and to those students completing the first three years of high school English and Math courses (English 9, 10 and 11; and Algebra 1; Geometry and Algebra 2). In 2018-19, 6 grade levels increased their passing rate on AzMERIT math, and 6 grade levels increased their passing rate on AzMERIT ELA. All grade levels (3rd-8th) in PVUSD surpassed the state average passing rate in ELA and 5 grade levels in PVUSD surpassed the state average passing rate in math.

In reference to school letter grades, 9 of 36 Elementary/Middle schools received an A on Arizona's A-F Letter Grades, 14 of 36 Elementary/Middle schools received a B on Arizona's A-F Letter Grades, 2 of 5 High Schools received an A and 2 High Schools received a B on Arizona's A-F Letter grades, and no schools received an F. The passing rates for PVUSD high school EOC test (ELA 9, ELA 10, ELA 11, Algebra I, Geometry, Algebra II) were above the state average.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses. The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, community education, and athletic functions.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have over expenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy. The Phoenix economy is based on several major industries and commercial activity. Manufacturing and tourism have traditionally been the basis of the economy of Phoenix, the rest of Maricopa County, and continue to be important. Major industrial products manufactured by companies include aircraft parts, electronic equipment, agricultural chemicals and Native American crafts. Tourism is an especially vital part of the Phoenix economy. The economy relies on a combination of warm climate, a substantial well educated labor pool, a wide range of support industries, and a governmental climate that is supportive of economic growth and investment.

A few of the major financial and banking firms represented in the Phoenix metropolitan area include American Express, Chase Bank, Bank of America, Discover Card Services and Wells Fargo Bank. Many Fortune 500 companies operate within the Phoenix area such as Boeing, Bank of America, Time Warner Telecom, IBM and Intel. In addition, the metropolitan area provides excellent educational and training opportunities through seven community colleges, 11 private colleges and graduate schools, and one state university.

Maricopa County is located in the south-central portion of Arizona and encompasses an area of approximately 9,226 square miles. Its boundaries encompass the cities of Phoenix, Scottsdale, Mesa, Tempe, Glendale, Chandler, and such towns as Gilbert, Paradise Valley and Fountain Hills. Maricopa County is currently the nation's fourth largest county in terms of population. The County's population is estimated at over 4.2 million people and makes up more than half of Arizona's population. Maricopa County is the fastest-growing county in the United States, with more than 81,000 people added between July 2017-2018.

Tourism and business services in particular now account for nearly 77 percent of the area's total employment. The County has excellent accommodations, diverse cultural and recreational activities, and a favorable climate attracting millions to the area annually. Wholesale and retail trade is the second largest employment category, employing over a quarter million people.

Manufacturing consisting of high technology companies continues to be the third largest employer in Phoenix. Other factors aiding economic growth include continued major expansions of the Sky Harbor International, a favorable business climate and the presence of a well-developed and expanding transportation infrastructure including interstate highways, a large quantity of companies that provide motor freight service, rail service and wide-body freight service through American Airlines and US Airways.

The District's financial condition reflected that of the local economy. While assessed values in the District (as well as state and county-wide) fell from highs in fiscal year 2009-2010 through fiscal year 2013-2014 following the Great Recession, values have subsequently risen. For net limited assessed value in the District (i.e., the restricted value used for both primary and secondary taxes after fiscal year 2014-2015 per Proposition 117 approved by voters in 2012), values have risen since fiscal year 2013-14 by approximately 22.8% to \$3.38 billion after falling approximately 32% from the \$4.1 billion high in fiscal year 2009-10. For net full cash value (i.e., the unrestricted value used for determining debt capacity and for secondary property taxes through fiscal year 2014-15), values have risen since fiscal year 2013-14 by approximately 52.8% to \$4.23 billion after falling approximately 42% from \$4.8 billion high in fiscal year 2009-10.

Long-term Financial Planning. Data from demographic studies projecting future student enrollment as well as assessments of current building conditions are used to develop future budget plans and facility needs. With the construction of new residential development being limited and the competition from neighboring charter schools, student enrollment in the District is predicted to decline slightly until development within the northern part of the District resumes. Inflationary increases to funding provided through the basic funding formulas which were withheld during the economic downturn have been granted during the last several budgetary cycles and are expected to continue. The average age of classroom buildings is 28 years.

In addition to state funding, planning is heavily impacted by voter-approved portions of its budget, which includes budget overrides and bonds for construction and renovation. Budget overrides are for both capital and operations. Bonds are strictly for capital items. Bond funds provide the ability for the District to plan for the renovation of existing facilities and the construction of new schools in the growth areas of the District.

During early 2019, the District involved stakeholders in a capital planning process which developed a four year capital plan as well as recommending that the Governing Board call for a bond and override elections. In November 2019, the District voters renewed a capital override for an additional seven years which provides significant funding for instructional materials that the District is unable to obtain from state funding. In the same election, District voters authorized the issuance of up to \$236 million in bonds of which approximately \$153 million is for facilities and the balance being for land, technology, furniture and equipment.

An operational override used to sustain lower class sizes, as well as programs in kindergarten through third grade, including all day kindergarten, was renewed at an increased level in November 2018 generating approximately \$27.5 million in total additional operating funds. This override will begin a 3-year phase down in 2023-24 if not renewed by voters prior to then.

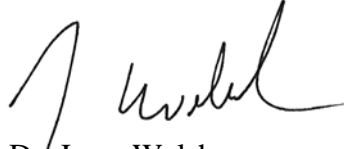

AWARDS AND ACKNOWLEDGMENTS

Awards. The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2018. This was the 30th consecutive year that the District has received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2018. In order to be awarded these certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

Acknowledgments. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business services office. Each member of the office has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

INDEPENDENT AUDITOR'S REPORT

Governing Board
Paradise Valley Unified School District No. 69

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Paradise Valley Unified School District No. 69 (District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Paradise Valley Unified School District No. 69, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, net pension liability information, and other postemployment benefit plan information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section, Combining and Individual Fund Financial Statements and Schedules, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Financial Statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2019, on our consideration of Paradise Valley Unified School District No. 69's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Paradise Valley Unified School District No. 69's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Paradise Valley Unified School District No. 69's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
(Required Supplementary Information)

(This page intentionally left blank)

PARADISE VALLEY UNIFIED SCHOOL DISTRICT NO. 69
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019

As management of the Paradise Valley Unified School District No. 69 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2019. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$34.1 million which represents a 22 percent increase from the prior fiscal year as a result of a net decrease in the pension liability, deferred outflows of resources, and deferred inflows of resources and overall revenues exceeding expenses.
- General revenues accounted for \$295.4 million in revenue, or 86 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$47.3 million or 14 percent of total current fiscal year revenues.
- The District had approximately \$308.6 million in expenses related to governmental activities, an increase of five percent from the prior fiscal year.
- Among major funds, the General Fund had \$218.2 million current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$215.0 million in expenditures. The General Fund's fund balance increase from \$59.6 million at the prior fiscal year end to \$65.0 million at the end of the current fiscal year was primarily due to a planned budget surplus.
- Net position for the Internal Service Funds increased \$5.4 million from the prior fiscal year. Operating revenues of \$6.4 million exceeded operating expenses of \$1.1 at the end of the current fiscal year.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

PARADISE VALLEY UNIFIED SCHOOL DISTRICT NO. 69
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

**PARADISE VALLEY UNIFIED SCHOOL DISTRICT NO. 69
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019**

OVERVIEW OF FINANCIAL STATEMENTS

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Debt Service, and Bond Building Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

Proprietary funds. The District maintains one type of proprietary fund. The internal service fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service fund to account for its other postemployment benefit program. Because this service predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Due to their custodial nature, the fiduciary funds do not have a measurement focus.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund as required supplementary information. Schedules for the pension and other postemployment benefit plans have been provided as required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$191.6 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets.

The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the District's ongoing obligations to its citizens and creditors, however, it is in a deficit position as described below.

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2019 and June 30, 2018.

	As of <u>June 30, 2019</u>	As of <u>June 30, 2018</u>

At the end of the current fiscal year the District reported positive balances in two categories of net position. Unrestricted net position was negative due to the state pension plan's unfunded liability. The same situation held true in the prior fiscal year.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that have had an impact on the Statement of Net Position.

- The principal retirement of \$43.6 million of bonds.
- The net addition of \$40.5 million in capital assets through school improvements and purchases of vehicles, furniture and equipment.
- The issuance of \$53.3 million of school improvement bonds and \$6.6 million in associated premium.
- A net decrease in the pension liability and related deferred inflows of resources of \$21.3 million.

Changes in net position. The District's total revenues for the current fiscal year were \$342.7 million. The total cost of all programs and services was \$308.6 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2019 and June 30, 2018.

Expenses - Fiscal Year 2019

The following are significant current year transactions that have had an impact on the change in net position.

- Property taxes increased \$11.2 million due to an increase in the assessed valuation of property within the District's boundaries.
- Unrestricted state aid increased \$7.6 million due to base level increase in the per-pupil funding amounts.
- Instructional expenses increased \$9.1 million due to compensation increases to teachers and staff members and increased benefit costs.

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

- The cost of all governmental activities this year was \$308.6 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$47.3 million.
- Net cost of governmental activities of \$261.3 million was financed by general revenues, which are made up of primarily property taxes of \$196.1 million and state and county aid of \$93.3 million. Investment earnings accounted for \$3.6 million of funding.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$163.8 million, an increase of \$14.4 million due primarily to increased property tax revenues.

**PARADISE VALLEY UNIFIED SCHOOL DISTRICT NO. 69
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019**

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund is the principal operating fund of the District. The General Fund comprises 40 percent of the total fund balance. Approximately 83 percent of the General Fund's fund balance is unassigned. The increase in fund balance of \$5.4 million in the General Fund to \$65.0 million as of fiscal year end was a result of a planned budgetary surplus.

General Fund revenues increased \$14.8 million primarily due to increased state aid and property tax revenues. General Fund expenditures increased \$16.4 million primarily as a result of compensation increases for teachers and other staff members and increased contributions to the internal service fund for future post-employment benefit obligations.

The fund balance in the Debt Service Fund was \$6.2 million as of fiscal year end. The increase in fund balance of \$4.5 million during the year was due to the required transfer of premium related to the issuance of school improvement bonds.

The fund balance in the Bond Building Fund was \$66.9 million as of fiscal year end. The increase in fund balance of \$3.7 million during the year was primarily due to the issuance of school improvement bonds.

Proprietary funds. Unrestricted net position of the Internal Service Fund at the end of the fiscal year amounted to \$4.5 million. The increase of \$5.4 million from the prior fiscal year was primarily due to additional contributions to fund future post employment benefit obligations.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the General Fund annual expenditure budget. The difference between the original budget and the final amended budget was a \$2.8 million decrease, which was a one percent decrease primarily due to actual student membership figures being less than projections.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant expenditure variances are summarized as follows:

- The favorable variance of \$9.8 million in instruction was a result of utilizing fund balance in other funds and the District not expending its entire budget.
- The favorable variance of \$2.1 million in support services – students and staff was a result of the District not expending its entire budget.
- The unfavorable variance of \$2.1 million in operation and maintenance of plant services was a result of employee salaries and benefits based on prior year expenditures and increased expenditures for technical services, custodial, and electricity.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. At year end, the District had invested \$943.5 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$40.5 million from the prior fiscal year primarily due to continued construction of school improvements and renovations funded by bond proceeds. Total depreciation expense for the current year was \$29.0 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2019 and June 30, 2018.

	As of June 30, 2019	As of June 30, 2018
Capital assets - non-depreciable	\$ 65,928,113	\$ 45,150,284
Capital assets - depreciable, net	464,333,450	471,999,398
Total	\$ 530,261,563	\$ 517,149,682

The estimated cost to complete current construction projects is \$10.1 million.

Additional information on the District's capital assets can be found in Note 7.

Debt Administration. At year-end, the District had \$351.9 million in long-term debt outstanding, \$39.0 million due within one year. Long-term debt increased by \$13.5 million due to the issuance of \$53.3 million school improvement bonds and the associated premium of \$6.6 million.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 30 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 20 percent of the net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$1.3 billion and the Class B debt limit is \$845.1 million, which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 9 and 10.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2019-20 budget. Among them:

- Fiscal year 2018-19 budget balance carry forward (estimated \$10.5 million).
- District student population (estimated 29,661).
- Negotiated employee salaries (increase of six percent).

Also considered in the development of the budget is the state economy.

Budgeted expenditures in the General Fund increased five percent to \$234.1 million in fiscal year 2019-20 due to base level increase in the per-pupil funding amount. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2019-20 budget.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2019

Changes in fund balances - total governmental funds **\$ 14,435,858**

Amounts reported for *governmental activities* in the Statement of Activities are different because:

Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense.

Expenditures for capitalized assets	\$ 42,158,997	
Less current year depreciation	<u>(29,047,116)</u>	13,111,881

Issuance of long-term debt provides current financial resources to governmental funds, but the issuance increases long term liabilities in the Statement of Net Position. (59,918,441)

Some revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	(1,432,711)	
Intergovernmental	<u>(303,026)</u>	(1,735,737)

Repayments of long-term debt principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. 39,031,111

Governmental funds report pension/OPEB contributions as expenditures. However, they are reported as deferred outflows of resources in the Statement of Net Position. The change in the net pension/OPEB liability, adjusted for deferred items, is reported as pension/OPEB expense in the Statement of Activities.

Current year pension/OPEB contributions	18,625,555	
Pension/OPEB expense	<u>1,673,906</u>	20,299,461

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Accrued interest	685,919	
Inventory	(48,929)	
Deferred charges on issuance of debt	(281,587)	
Amortization of deferred bond items	2,807,114	
Compensated absences	<u>267,971</u>	3,430,488

The Internal Service Fund is used by management to charge the cost of post employment benefits to the individual funds. The changes in net position of the Internal Service Fund is reported with governmental activities in the Statement of Activities. 5,431,941

Changes in net position in governmental activities **\$ 34,086,562**

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2019

NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following items.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Prepaid items are budgeted in the year prepaid.

The following schedule reconciles expenditures and fund balances at the end of year.

	Total Expenditures	Fund Balances End of Year
Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds	\$ 214,997,420	\$ 65,049,264
Activity budgeted as special revenue funds	(4,302,572)	(15,907,280)

Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund	\$ 210,919,848	\$ 49,141,984

NOTE 2 – PENSION PLAN AND OPEB SCHEDULES

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

Factors that Affect Trends. The actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2016. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2017, actuarial valuation. For the stand alone OPEB plan, disclosures are included in the notes to the financial statements.

- Notes:** 1) The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds outstanding and the statutory debt limit on Class B bonds outstanding.
- 2) Prior to FY17, net bond premium was restricted by amount and not subject to the statutory debt limit. Beginning with FY17, any additional net premium used for capital projects, bond counsel, printing and preparation of offering documents, a financial advisor, paying agent costs or to pay down debt is counted against both debt limits with the exception of amounts of premium deposited into the Debt Service Fund or a refunding escrow to pay interest payments.
