2014 Bond Program Executive Summary

May 2022

Bond Program Reserve = Funding available to the Bond Program but not yet allocated to a project
 Project Contingencies = Funding contained within an approved project budget

Bond Program Funding Total	\$ 808,176,988
Revised Approved Current Budget	- \$ 805,857,791
Bond Program Reserve	\$ 2,319,197
Bond Program Reserve	\$ 2,319,197
Net Contingency Balance	+ \$ -
Bond Program Reserve + Contingencies	\$ 2,319,197
Bond Program Funding Total	\$ 808,176,988
Program Estimate at Complete (EAC)	- \$ 805,857,791
Projected Program Reserve Estimate at Complete	\$ 2,319,197

Budget Perspective

This month the overall Program Reserve increased by \$1.3M. As all of the major projects are now complete, we have stopped displaying project contingencies. Primary cost events were:

- ACMA's budget was decreased by \$1.02M due to the project being complete and in financial closeout. These funds have been moved to the program reserve.
- As we near the end of the 2014 bond we are working to financially close-out as many projects as possible. This will help for a smooth transition to the next bond.
- Once the 2022 bonds are sold and projects able to begin, we will be transferring the funding for Raleigh Hills to the 2022 Bond.

Schedule Perspective

- Construction for the Vose classroom addition is progressing well. All walls are framed and MEP work being installed. As soon as school is out for the summer they will be able to begin work in the library area.
- We are all geared up for construction projects this summer. We have a number for roof replacements, water pipe replacements, and HVAC upgrades around the district. The project teams have worked to mitigate the impacts of supply chain related delays.

Challenges and Opportunities

- We were unsuccessful in receiving a SRGP grant for seismic upgrades at McKinley ES. The state received requests for \$200M worth of work for only \$50M of funding. McKinley likely did not score well because of its relative size. We will be looking to apply for some middle schools during the next go-around which should score higher.
- We are seeing unprecedented levels of material cost escalation as well as very long lead times. We have been working to extend our project planning cycles to account for these delays.
