

Salvete discipuli,

Welcome to the 2022-2023 AP Latin class! Congratulations for having elected to enroll in this college level course, where based on your performance on the exam in May, you may earn college credit in Latin. In this course you will learn to read, understand, translate, analyze, and contextualize Latin prose and poetry through the works of Caesar's De Bello Gallico and Vergil's Aeneid.

In order to complete all the required readings, it will be necessary to meet once a week after school from 2:35 until 4:00 until the beginning of May.

The three years of Latin you have already taken should have prepared you well for this new challenge. However, it is imperative that you start the year with a good foundation of previously learned material. I therefore have attached a list of assignments for you to complete this summer. Please be diligent in practicing regularly.

I look forward to seeing you in August and to teach you this course!
