

ACPS 2020 Community Survey: Supplemental Report

Results and Analysis

Alexandria City Public Schools

May 16 – June 6, 2016

Purpose of the Study

The Alexandria City Public Schools (ACPS) 2020 Community Survey asked parents and the community for feedback on the division's new strategic plan, ACPS 2020, to collect stakeholder opinions and perceptions of the division. Results will be used to inform decisions and prioritize which division priorities and initiatives to continue in the future.

K12 *Insight* partnered with division leadership to develop the survey, which addressed the following topics:

- Mission
- Family and Community Engagement
- Community Relations
- Communication
- Facilities and Learning Environment

Details of the Study and Understanding the Results

- This report summarizes results and is disaggregated by various groupings to show any discrepancies in perception among stakeholder groups, where applicable. A supplemental report will be provided to the division illustrating disaggregations by these respective groups.
- Email invitations with unique survey links were sent to parents of ACPS students. Stakeholders also could participate via a public link on the division's website. A total of 1,599 people participated in the survey, however, results only show the 1,581 participants who completed the survey. The strong majority of participants (82%) found out about the survey via email.
- The online survey was translated into Spanish and Arabic. Paper surveys were available on request. Paper surveys were translated into Spanish, Arabic, and Amharic. The majority of participants (1,527) took the survey in English, 39 participants took the survey in Spanish, 11 in Arabic, and 4 in Amharic.
- The survey was open from May 16–June 6.
- Participants learned about the survey via letters to parents and the community, social media posts, phone calls, the ACPS newsletter, and posters/fliers. Reminders were sent May 19, 25, 28, 31, and June 3.
- There are comparisons between current and non-current parents of ACPS students:
 - Non-current parents included parents of children not yet of school age, parents of school-age children who do not attend an ACPS school, community members, employees of ACPS, former ACPS students, and parents of former ACPS students.
 - Results from parents of current ACPS students were also broken down by school level (elementary, middle, and high) and by type of services their children receive (English Language Learner, Special Education Services, and Talented and Gifted Services).
