FRENCH – Keyboard Codes

`

Windows International Keyboard Codes

In order to use these codes you must activate the international keyboard. Instructions are listed in the Keyboards section of this Web site.

Accented Vowels

This list is organized by **Accent** type. The sample shows a letter with that accent, and the **Notes** present any special comments about using that accent.

For the Template, the **symbol "V" means type any vowel.**

Windows International Keyboard Vowel Codes

ACCENT	SAMPLE	TEMPLATE	NOTES
Acute	é É	', V	' = apostrophe key
Circumflex	â Â	SHIFT+^, V	
Grave	à À	`, V	
Umlaut	ë Ë	", V	" = quote key

Example 1: To type lower case **ó** - Type the apostrophe key ('), then **O**. For capital **Ó**, type the apostrophe, then capital **O**.

Consonants and Puncutation

For these codes, you must make sure you use the **Alt** key on the right side of the keyboard.
Note: that there is no shortcut for the joined O-E.
