Communication skills

When we think of preparing students, what types of knowledge and skills are needed for them to be successful?

How to be a global citizen

Foundational understanding of American democracy

Writing

Character

When you think of your highest hopes for our children and our district's excellence, what does CISD need to do in the next three years and beyond?

Keep Lane Ledbetter for the next 30 years

Presentation skills

Create more academies like CMA in other disciplines

Operationalize community and alumni resources to provide mentoring and internship opportunities for our students

Support our teachers.

Motivate learning through different walks of engagement

Improve verbal performance of students (improved writing skills)

Be able to have civilized challenging conversations

Have parental buy-in that support our teachers

When you think of your highest hopes for our children and our district's excellence, what does CISD need to do in the next three years and beyond?

Continue to embrace technology as a tool to accelerate learning

Community partnership

Increase our teachers pay

Be more efficient across the board, so that we have the ability to take care of our teachers and strengthen academic programs

Lower teacher/student ratios

Understand what is expected of our kids once they leave CISD

Take from our best teachers and share the knowledge.

Offer more opportunities to apply what students have learned.

Create a better SpEd / 504 / dyslexia program

When you think of your highest hopes for our children and our district's excellence, what does CISD need to do in the next three years and beyond?

Offer more opportunities for real life work experiences

Find innovative ways to increase annual revenues
