

Pelham Public Schools

A Year in Review 2021-2022

2021-22 Goals

Aligning with our commitment to fiscal responsibility, our mission and the District vision statement, which emphasizes high expectations, creative and critical thinking, sense of belonging, and continuous improvement, the Board and Superintendent will focus on the following systemic goal areas:

- 1. Prioritize the highest quality full time in-person education possible for all Pelham students, supporting their physical and emotional health, while balancing the safety needs of students and staff as we continue to work within the context of the pandemic.
- 2. Work to renew our student-centered high achieving academic culture after the challenges of 2020-21, by deepening our relationships, connections, and networks of support with and for students and staff. Return to multiple avenues of communication and in-person engagement with our greater Pelham community.
- 3. Oversee implementation of the District's Strategic Plan including updated action plans to support specific, meaningful, and observable outcomes in the following strategic goal areas:
 - Cultural Competence Cultivate an empathetic, inclusive and equitable school community that values and encourages respect, voice and agency for all students.
 - Authentic Learning Develop innovative problem solvers, critical and creative thinkers, effective communicators and strong collaborators who can apply their knowledge and skills to navigate real world challenges.
 - Whole Child Deepen our systemic academic and social-emotional supports for the health, safety, and well-being of the whole child, recognizing that our learners need to balance academic, physical, social, and emotional demands.

Year In Review 2021–22

Prioritize the highest quality full time in-person education possible for all Pelham students, supporting their physical and emotional health, while balancing the safety needs of students and staff as we continue to work within the context of the pandemic.

- a. Implement DOH guidance and relative mitigation strategies to minimize health risks within the school environment
- b. Restrict school facilities use to balance provision of programs with health and safety of students
- c. Implement a COVID testing program to monitor the prevalence of COVID 19 in our schools and assess the effectiveness of and adjust our mitigation strategies as needed
- d. Implement additional transition supports and social and emotional learning opportunities to assist students in overcoming the impacts of the past year
- e. Support approaches to instruction that move away from hybrid and toward restoration of student centered, in person pedagogies
- f. Provide high quality, in person professional learning and coaching opportunities for teachers to the greatest degree possible while balancing health and safety needs
- g. Identify and implement a data dashboard to provide a high level view of multiple data points to assess student and programmatic areas of need, growth, and success
