2. Karen Flexer presented a CISD Covid Update that covered contact tracing and protocols for quarantine. Carroll ISD receives guidance from Tarrant County and TEA. Contact tracing only happens on CISD campuses and functions. Tarrant County takes over the tracing for non-school events. One of the goals of the CISD nursing team is to educate families on quarantine and healthy habits. Tracing takes time but starts as soon as administration receives information of a positive case. In addition, Ms. Flexer presented on the Covid rapid testing project. We have completed and submitted the application with TEA.
