Spring 2022

Dear Parents/Guardians,

Did you know that research has proven that the more children read, the better their performance in school and on standardized assessments? Knowing that a student's ability to read fluently with comprehension is a lifelong skill that requires ongoing, continued practice, we are very excited to present you with the materials for summer reading for children entering grades 1-5. This summer, students entering grades 1-5 are being asked to read for at least twenty minutes each day and to keep a record of their reading on the summer reading logs. Please use the grade-specific reading log to record your child's reading over the summer. Log templates can be found on the district website. Please use additional logs as necessary, and make sure you are using the appropriate log for your child's grade level. These logs will be collected by your child's new teacher in September, but they will not be graded. Students who participate in Summer Reading will receive a certificate in September.

Children can read any books they choose. We have also provided a list of suggested texts separated by grade levels. This list is also located on our district website.

Reading is one of the most important endeavors we can share with our children. We encourage you to read to your child, with your child, and to have your child read to you. This can be done at home, at the beach, at the park—anywhere you can! Please reach out to us with any questions.

Happy Reading!

Sincerely,

Pamela Schleck

Supervisor of Instruction, Early Childhood Education
