

Welcome to your Skyward account!

Moon Area School District is very excited to introduce Skyward's Family Access, which is a tool that will create a stronger relationship between parents and our school community. Family Access will keep you informed about your student's progress with real-time grades, attendance, discipline, health room visits, and transportation information.

We invite you to explore all of the tabs and screens but, first, we ask that you proofread and edit your information.

1. Student Information:

Under the "Student Info" button, verify that the information we have on file is correct. Click on "Request Change(s) to My Child's Information" at the top right of the screen, enter your changes and click "Save." Each student will have a section and a "Request for Changes..." link.

Your changes will be electronically submitted to the office for approval. Our Registrar may contact you if additional information is required to complete your request. Please note that you cannot change your residential address through Family Access. You MUST visit your student's school and show appropriate proof of residency.

2. Parent Account Information:

Click "My Account" in the upper right-hand corner of the Home screen. Make necessary changes and click "Save." Again, this change request will need District approval.

You may also change your password in "My Account."

3. Skylert Rapid Notification System

Click on the "Skylert" button, which is located on the left hand side of the Home page. You may setup how you would like to receive broadcasts. Note: You may not opt-out or decline Emergency or Attendance broadcasts.

4. Transportation

Busing information is located under the "Student Info" button. Refer to the "Transportation Information" in the Message Center.

We look forward to introducing more Skyward features throughout the next year.

For Skyward assistance, click on the Skyward link on www.moonarea.net and submit a Request for Assistance form.

We also invite you to visit your app store to download Skyward to your phone, iPad, and tablets. While at the app store, you can also download the SafeStop app to monitor your student(s) bus routes in real-time. For more information on SafeStop and Skyward, visit www.moonarea.net.
