

# AP Biology

I am excited that you have decided to take AP (Advanced Placement) Biology. Most of you have taken biology in the freshmen year and it is imperative that you review the biology concepts you have learned in 9<sup>th</sup> grade as you are getting ready to take a college level biology. The objective of your AP Bio summer assignment is exactly that! It will help you to refresh the first-year biology concepts on which we can build and elaborate the contents of the AP Biology course.

You can use **e-textbook** as a resource for completing the summer assignment. Pace yourself to do a meticulous job on this summer assignment. If you have any questions, you can contact me using the following e-mail - plakkotr@calvertnet.k12.md.us

Please **join the AP biology – Summer class in Schoology to get access to summer assignment and directions to register for e-textbook.**

## Access Code for summer class in Schoology

**F6GD-73N7-ZPMFX**

Use a pen or pencil to write your answers. Summer assignment is due on the first week of school.

Here are directions and a screenshot that will help you to join the summer course.

1. Log into Schoology.
2. Select Courses from the top menu.
3. Click My Courses.
4. From the My Courses page, click Join Course on the right side of the page.
5. Enter your access code **F6GD-73N7-ZPMFX**
6. Click Join.
