Summer Meals: We understand that with the prices of food and other economic pressures, family budgets may be strained this summer. The Supervisory Union is working with community partners to explore options, including home delivery of school-prepared meals for children. We can't say how much or how often at this point. We have to work out the details and see if we can get volunteers to deliver the food. But we would like to do that if it would help!

If you are interested in home delivery of meals for children this summer, please answer this short, 4-question survey. Everyone who responds "yes" will receive an email in a few weeks, explaining how the program will work. Here is the survey link:
