

Fine & Performing Arts Seal Letter of Intent

We recognize that students have opportunities to be involved in community fine and performing arts in addition to the opportunities offered within the school. In order for these events to count, students need to complete this letter of intent describing the event and the hours involved. The following criteria should be considered when selecting a community arts project:

- Fine and performing arts events in the community must be through a structured program.
- Students are required to track and log their hours using the provided sheet.
- All hours must be turned in during their 7th semester of high school (end of 1st semester during their senior year)

All community fine and performing arts activities must be approved prior to participating.

Provide a description of the fine and performing arts event (attach additional sheets if more space is needed)
