

THE SCIENCE OF SOUND AND MUSIC SUMMER WORKSHOP

PARTICIPANTS WILL BE PAID \$1,000

WHAT WILL I LEARN?

In this 3-day in-person workshop for 8th grade teachers, you will learn how to use a series of [web applications](#) and hands-on learning experiences to playfully explore and create sound. The applications, that students love, were created by [Victor Minces](#), a neuroscientist of music and sound artist. The NGSS-aligned curriculum was developed in collaboration with the San Diego County Office of Education. You will leave with a copy of the "[Listening to Waves](#)" unit that can be taught to your students this fall.

HOW WILL I PARTICIPATE?

- When: August 2nd, 3rd, and 4th from 9am to 2:30pm
- Where: UC San Diego main campus.
- Lunch and Parking: Will be provided.
- Stipend: Participants will receive a stipend of \$1,000
- Follow-Up: Participants will be expected to reconvene for three short virtual meetings to discuss their experience implementing the activities.

HOW DO I SIGN UP?
