

Employee Guidelines Friendswood ISD Responsible Use Policy

As a Friendswood ISD employee you are given access to Friendswood ISD's network and technology resources. At Friendswood ISD, the network and technology resources are a way of enhancing the mission to teach the skills, knowledge, and behaviors students will need to succeed in the global community. These technologies may include, but are not limited to, district-provided equipment as well as personal devices. In accepting this agreement, employees acknowledge the following rules and conditions.

ELECTRONIC COMMUNICATION WITH STUDENTS (TEC Section 38.027) (Policy DH)

Electronic communication means any communication facilitated by the use of any electronic device, including a telephone, cellular telephone, computer, computer network, personal data assistant, or pager. The term includes emails, text messages, instant messages, and any communications made through an Internet website, including a social media website or a social networking website. (TEC Section 38.027)

A certified employee, licensed employee, or any other employee may use electronic communication, as this term is defined by law, with currently enrolled students on about matters within the scope of the employee's professional responsibilities.

In accordance with ethical standards applicable to all District employees (see applicable standards attached to this RUP), an employee shall be prohibited from using electronic communications in a manner that constitutes prohibited harassment or abuse of a District student; adversely affects the student's learning, mental health, or safety; includes threats of violence against the student; reveals confidential information about the student; or constitutes an inappropriate communication with a student, as described in the Educators' Code of Ethics.

An employee shall have no expectation of privacy in electronic communications with students. Each employee shall comply with the District's requirements for records retention and destruction to the extent those requirements apply to electronic communication.

An employee is not subject to provisions regarding electronic communications with a student to the extent the employee has a social or family relationship with a student. For example, an employee may have a relationship with a niece or nephew, a student who is the child of an adult friend, a student who is a friend of the employee's child, or a member or participant in the same civic, social, recreational, or religious organization. An employee who claims an exception based on a social relationship shall provide written consent from the student's parent. The written consent shall include an acknowledgement by the parent that:

- The employee has provided the parent with a copy of this protocol;
- The employee and the student have a social relationship outside of school;
- The parent understands that the employee's communications with the student are excepted from district regulation; and
- The parent is solely responsible for monitoring electronic communications between the employee and the student.

- The employee does not have a right to privacy with respect to communications with students and parents.

- The employee shall limit communications to matters within the scope of the employee's professional responsibilities (e.g., for classroom teachers, matters relating to class work, homework, and tests; for an employee with an extracurricular duty, matters relating to the extracurricular activity).
- If communicating electronically with a single student, the employee shall include at least one of the student's parents or guardians as a recipient on the message to the student so that the student and parent receive the same message. If the parent or guardian does not have means to communicate electronically, copy your supervisor or colleague. (Exception: Employees may communicate individually with students via school phone landlines during normal business hours and via school email, @fisdk12.net accounts, between the hours of 7 a.m. and 9 p.m.)
- As an alternative to sending a message to the student's parent, the employee may send a copy of the message to his or her own District e-mail address in order to retain a printable record if the employee has a device that provides this capability.
- The employee is prohibited from knowingly communicating with students through a personal social network page; the employee must create a separate social network page ("professional page") for the purpose of communicating with students. The employee must enable administration and parents to access the employee's professional page.
- The employee shall not communicate directly with any student between the hours of 9 p.m. and 7 a.m. unless an extra or co-curricular activity makes communication necessary. An employee may, however, make public posts to a social network site, blog, or similar application at any time.
- Prohibitions against soliciting or engaging in sexual conduct or a romantic relationship with a student. (See Policy DHB)
- Upon written request from a parent or student, the employee shall discontinue communicating with the student through email, text messaging, instant messaging, or any other form of one-to-one communication.
