Purpose and Description

The COVID-19 pandemic has created conditions at Samuel Stipe School that compelled us to stop, reflect and identify the impacts that a year-and-a-half of distance learning created for our school community. These impacts have influenced our parent and teacher community with a goal in 2021-22 to prioritize academic interventions and socio-emotional needs. With regard to the top goal, actions, or strategies, our community overwhelmingly wanted to keep or see academic progress and socio-emotional systems of support. These and other community activities will be adapted to the current learning environment as we progress through the school year (e.g. virtual, in person, modified)

At Stipe School, we believe that every student can achieve at high levels. Therefore, a fundamental aim of our educational programs is to ensure that each student possesses the competence and confidence that would guarantee success at the next level. This plan is our roadmap for building and sustaining a strong and effective instructional core in every classroom. It is our articulation of the vision for student learning outlined in our district's Five-year Strategic Plan. Effective teaching, capable instructional leadership, and strong relationships are crucial to realizing our community's hopes and dreams for student learning and development. This focus articulates the teaching practices, leadership practices, and organizational practices that have become the norm throughout our school system. Our focus expresses our collective responsibility for student learning and motivates us all – school, home, and community – to collaborate in ways that will turn our good intentions into strong results for students.

We work closely with educational partners throughout the district and analyze student performance data on an ongoing basis. Six goals, outlined below, have been identified as the focus within our current three-year LCAP plan to improve outcomes for all students.

Goal 1 - All students will be proficient in meeting and/or exceeding all Common Core State Standards.

Goal 2 - We will accelerate the academic achievement toward meeting or exceeding standards for English Learners (EL), low socioeconomic disadvantaged students, Foster Youth, and students of color, as well as increase the language proficiency for EL.

Goal 3 - We will provide an inclusive learning environment for students with disabilities to best support social, emotional, and academic development.

Goal 4 - Students will use technology to master the 21st Century Skills of collaboration, communication, critical thinking, and creativity. Oak Grove will provide innovative strategies with support for technology implementation that would enhance student learning of core academic subject knowledge, and meet technology standards.

Goal 5 - School and classroom environments support learning, creativity, safety, and engagement.

Goal 6 - We will actively engage parents and community members in supporting the implementation of CCSS instruction and providing input to program decisions.

Educational Partner Involvement

Involvement Process for the SPSA and Annual Review and Update

During Distance and Hybrid Learning in 2020-21, we continued to engage parent and family involvement. The practice of online parent meetings through Google Meet continued to be a practice for the 2021-2022 school year. On several occasions, meetings were held in person, with the option of logging in via the virtual platform to increase parent participation. School information is communicated via Facebook, Parent Square, Seesaw, announcement kiosk, and Sunday weekly messages.

Stipe elicits educational partner input from the School Site Council, Staff, and parent groups at an ongoing cycle. The administration shares data regularly at PFA meetings, School Site Council Meetings, Staff Meetings, Leadership Meetings, and other various parent meetings. Parents participate as partners when setting school goals, developing or evaluating programs & policies, and responding to data. Parents play a key role in providing support for our enrichment/elective program, field trips, and our social-emotional program. Focus groups and leadership teams are established to collect survey data and assess school academic and climate needs.

Meetings include monthly Parent Faculty Association (PFA) meetings, staff meetings, Student Council, School Site Council (SSC), Stipe School Staff, and English Learners Advisory Council (ELAC).

Resource Inequities

The COVID-19 pandemic has created additional resource inequities in addition to those outlined above. As we prepared for the 2021-22 school year, the following resource inequities in our system have risen as priorities and opportunities:

In order to ensure that all students are reading within their grade level, additional teachers and Instructional Aid support are needed. This is a supplement to regular reading instruction such as daily guided reading. Additional resources will provide a push-in or a push-out model to support students not reading in their particular grade level. In addition, there is a demand for an after-school intervention to support targeted students. The ability to provide interventions in addition to regular class instruction is beneficial in ensuring that all students have the ability to access their grade-level content. Teachers can provide specific targeted intervention groups or provide researched-based interventions such as the iReady Teacher Toolbox, Guided Reading, Leveled Literacy Intervention, Reflex Learning, and Read 180 to name a few.

STEAM is an educational approach to learning that uses Science, Technology, Engineering, the Arts, and Math as access points for guiding student inquiry, dialogue, and critical thinking. Stipe School will provide teachers the capacity to engage students in STEAM and for students to participate in STEAM-related workshops. Our goal is to have students that take thoughtful

risks, engage in experiential learning, persist in problem-solving, embrace collaboration, and become innovative leaders of the 21st century.

Parent involvement improves student academic performance and social skills as it allows students to acclimate better to the school environment. In addition to providing student encouragement and good study habits, we want parents to have the ability to provide their students with academic support at home. Through parent workshops, parents will participate and develop research-based skills to allow them to support their students academically at home. These parent workshops will serve not only as a location where parents are provided training, but also allow them to collaborate with both teachers and other parents.

Goals, Strategies, Expenditures, & Annual Review

Goal 1

All students will be proficient in meeting and/or exceeding all Common Core State Standards. All teachers are implementing Common Core standards, strategies, and materials.

Identified Need

These additional needs have surfaced in response to the impacts of the COVID pandemic as they relate to proficiency in meeting or exceeding all common core standards: our data indicates that our students are showing gaps in ELA specifically in Reading and in Math with Communication and Reasoning as compared to the state average.

Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Overall iReady Window 3	<p>Reading 2019: 45% 2020: 29% 2021: 36% 2022: 32%</p> <p>Math: 2019: 36% 2020: 23% 2021: 32% 2022: 35%</p>	Increase the iReady Window 3 On or Above Grade level by 5% as compared from the previous year in Reading and Math.

Goal 1 Action #1: Grade Level Planning

Students to be Served by this Strategy/Activity

All Students

Strategy/Activity

Teachers will have (2) release days for grade-level planning facilitated and supported by the Coaches (STEAM Coach and English Language Teacher Partner (ELTP)) to meet the needs of students. To address learning needs or foundational skill gaps for students, professional development/training/planning time/interventions/etc will be provided for grade-level teams to utilize backward mapping and plan collaboratively to develop methods to deliver the assigned curriculum with emphasis on students' needs with the goal of increasing student proficiency. The Principal will additionally be provided release days to attend professional development opportunities

Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

Goal 2

We will accelerate the academic achievement toward meeting or exceeding standards for English Learners (EL), low socioeconomic disadvantaged students, Foster Youth, and students of color, as well as increase the language proficiency for EL.

Identified Need

These additional needs have surfaced in response to the COVID pandemic as they relate to accelerating the academic achievement for English Learners (EL), low socioeconomic disadvantaged students, foster youth, and students of color: increase language proficiency to ensure that these students have improved access to the curriculum.

Annual Measurable Outcomes

Goal 2 Action #1: SEAL and Makerspace

Students to be Served by this Strategy/Activity

All Students

Strategy/Activity

Teachers will use additional targeted intervention support to meet the needs of English Learners (EL)/low socioeconomic disadvantaged students/foster youth/students of color as they return back to a full in-person learning model after a year-and-a-half of distance or hybrid learning. To address learning needs or foundational skill gaps for English Learners (EL)/low socioeconomic disadvantaged students/foster youth/students of color, professional development/training/planning time/interventions/etc. will be provided for teachers with the goals of increasing student proficiency.

Teachers will implement the Sobrato Early Academic Language (SEAL) strategies and as enhanced by the STEAM activities and design challenge principles to ensure that there is a high level of student engagement and access. To ensure continued support and success for our EL students, we are invested in integrating the concept of Science, Technology, Engineering, Arts, and Math (STEAM) to further engage our EL students and allow them to access the curriculum in multiple forms. This will enable us to enhance our implementation of SEAL units and strategies to deliver lessons that our EL students can access easier by “doing.” To encourage this vision, a STEAM coach will be added to our staff to support teachers in planning, modeling lessons, and providing professional development to staff. Along with our English Language Teacher Partner (ELTP) coach, we will design strategic school goals that will better address the inability of our EL students to access the traditional curriculum. These instructional foci will permeate the way in which we deliver designated ELD time, after-school interventions based on STEAM design thinking principles, and access to ELA through Science and Social Studies units. Teachers will also be provided release times to plan STEAM-integrated units/lessons with EL considerations. Monthly Professional Learning Community (PLC) meetings will have a component to address specific EL needs and assessments. Ideally, all professional training, site or introduced by partnered organizations will include an EL-specific element.

Proposed Expenditures for this Strategy/Activity List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identifies the Title and Part, as applicable), Other State, and/or Local.

Goal 2 Action #2: Targeted Intervention

Students to be Served by this Strategy/Activity

All Students

Strategy/Activity

Provide specific targeted intervention groups or provide research-based interventions for students who need support with priority to socioeconomically disadvantaged and Latino students. This will provide supplemental resources to strengthen their reading, fluency and comprehension.

Goal 2 Action #3: Culturally Relevant Materials and Books

Students to be Served by this Strategy/Activity

All Students

Strategy/Activity

Culturally responsive teaching helps create environments, curricula, and instructional methods that validate and reflect the diversity, identities, and experiences of all students. When we do that, we raise the level of academic rigor for all learners.

Proposed Expenditures for this Strategy/Activity List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

1. Culturally Responsive/SEAL materials/Guided Reading materials	\$1,000	LCFF

Goal 3

We will provide an inclusive learning environment for students with disabilities to best support social, emotional, and academic development.

Identified Need

These additional needs have surfaced in response to the COVID pandemic as they relate to providing an inclusive learning environment for students with disabilities to best support social, emotional, and academic development:

Our students with disabilities continue to underperform significantly in both ELA and Math as measured by the SBAC. While suspension rates at Stipe are comparatively low, however, students with disabilities disproportionately represent the number of students suspended.

Goal 3 Action #1: Support Staff and TILT

Students to be Served by this Strategy/Activity

All Students

Strategy/Activity

Teachers will hold weekly site support staff meetings that include the principal, resource teacher, speech and language pathologist, psychologist, and social work interns to meet the needs of students with disabilities. The focus of these meetings is to discuss and give updates on upcoming IEPs, services, and potential students at risk for special education identification. Three times a year, we dedicate a staff meeting to allow the Teacher Implementation Learning Team (TILT) to discuss students’ behavioral intervention needs.

Goal 4

Students will use technology to master the 21st Century Skills of collaboration, communication, critical thinking, and creativity. Oak Grove will provide innovative strategies with support for technology implementation that would enhance student learning of core academic subject knowledge, and meet technology standards.

Identified Need

These additional needs have surfaced in response to the COVID pandemic as they relate to students using technology to master the 21st Century Skills of collaboration, communication, critical thinking, and creativity: provide opportunities to integrate technology in the classroom to make teaching and learning more effective. Technology in the classroom improves engagement

and knowledge retention, encourages individual learning, encourages collaboration, and allows students to learn useful life skills through technology.

Goal 5

School and classroom environments support learning, creativity, safety, and engagement.

Identified Need

These additional needs have surfaced in response to the COVID pandemic as they relate to providing school and classroom environments that support learning, creativity, safety, and engagement: the staff, students, parents, and administration will focus on a positive and inclusive school climate at Stipe Elementary resulting in at least a 10% reduction of the number of referrals that are sent to the office. A positive school climate will serve to improve morale, emphasize school pride, involve the school community, and offer students chances to excel in

both academic and non-academic programs. Ultimately, this will have a positive effect on behavior and academic success. Staff and students will need Personal Protective Equipment to ensure health and safety while on campus.

Annual Measurable Outcomes
