

Activate the Power of Community With Cognia Membership

Your institution's membership with Cognia™ provides access to a worldwide community of educators, volunteers, and staff members who learn, grow, and improve—together. Take advantage of the expertise and resources that align with your institution's needs and improvement goals, and open the new Cognia Learning Community to your professional staff members.

Your pathway to improvement

You know best what goals your institution needs to achieve.

Our role is to help you meet those goals, sharing our broad expertise in school improvement and providing powerful, aligned, and proven resources and processes to move you forward.

With Cognia membership, your team gets comprehensive services, research-based standards, and an effective framework to support accreditation and improvement.

- Validate the effectiveness of your school and achieve recognition by pursuing early learning or K-12 accreditation and STEM certification
- Expand your team's connections and learning with peers in your institution and around the world with free access to the Cognia Learning Community, a 24/7 online platform
- Sharpen your focus on your priorities for teacher and leader development, student achievement, and more with additional solutions such as MyVoice and Cognia Assessments
- Get direct guidance from a Cognia expert in your region, an educator who's walked in your shoes

Additional solutions can help you grow leaders, empower teachers, and improve student achievement. To learn more or to join, visit cognia.org/membership.

Collaborate and centralize

Membership brings your team the Cognia Improvement Platform—tools and resources that manage your data and enhance your efforts to increase student engagement and improve learning.

Your dashboard includes:

- **Observations**
The **Effective Learning Environments Observation Tool® (eleot®)** to focus on students and assess instructional impact

The **new Teacher Observation Tool**, to give teachers formative feedback to improve instructional practice
- **Formative assessment resources** to gauge student understanding and adjust instruction in real time
- **Surveys** to get important input from students and other stakeholders
- **Strategies and the inFocus guide**, to stimulate both strategic and tactical thinking for sustainable improvement
- **Diagnostics** to self-identify areas of strength and need that drive school quality
- **Workspace** to collect and centralize evidence for team collaboration
