Board of Education meetings serve the purpose of conducting business of the Board and regularly updating the Board and the community on progress being made on the Strategic Plan.

Regular Board of Education meetings focus on the business of the Board, including approving policy, paying bills, and other functions that require Board approval.

Workshops are specifically designed to provide the Board time to interact with reports related to the Strategic Plan and to other in-depth conversations that are within the responsibility and authority of the Board. Routine consent agenda items only are also approved as part of the workshop format. The exception to this is approval of the Budget at the first Board meeting in August or at other times as deemed essential by the Board of Education.
