Dyslexia and Related Disorders

Districts shall provide each student with dyslexia or a related disorder access to each program under which the student qualifies for services. A board must ensure that procedures for identifying a stu-

dent with dyslexia or a related disorder and for providing appropriate, evidence-based instructional services to students are implemented in the district.

District procedures must be implemented according to the State Board of Education (SBOE) approved strategies for screening, individualized evaluation, and techniques for treating dyslexia and related disorders. The strategies and techniques are described in the *Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders* available on [TEA's Dyslexia and Related Disorders webpage](#).¹ Districts shall provide a copy or a link to the electronic version of the *Dyslexia Handbook* to parents of children suspected to have dyslexia or a related disorder.

Screening, Testing,
and Identification

Students enrolling in public schools in Texas shall be screened or tested, as appropriate, for dyslexia and related disorders at appropriate times in accordance with a program approved by the SBOE. The program must include screening at the end of the school year of each student in kindergarten and each student in the first grade. *Education Code 38.003(a)*

A process for early identification, intervention, and support for students at risk for dyslexia and related disorders must be available, as outlined in the *Dyslexia Handbook*. A district may not use early intervention strategies, including multi-tiered systems of support, to delay or deny the provision of a full and individual evaluation to a child suspected of having a specific learning disability, including dyslexia or a related disorder.

Screening, as described in the *Dyslexia Handbook*, and further evaluation should only be conducted by individuals who are trained in valid, evidence-based assessments and who are trained to appropriately evaluate students for dyslexia and related disorders.
