

Attention Parents of the 2023 graduating class: --Senior Picture Information--

Senior portrait submission deadline is Friday, October 28, 2022.

NO late submissions will be accepted. Hard copy or photos via email are no longer accepted.

- Upload only **ONE digital portrait photo**. *This photo will be used for the yearbook so it needs to be a high resolution image for printing purposes.*
- Photo quality needs to be **300 DPI** or higher for actual image size.
- **JPEG format is required.** (Photos are placed at approx. 1 1/2" x 1 3/4" in the yearbook if this helps for aspect ratio (width and height), but you can submit any size portrait as long as it is a "high resolution" JPEG portrait. **NO TIFF or PNG files allowed!**)

Requirements:

- **FULL COLOR**- Half-tone, mono-tone, black and white, or other non-full color prints will NOT be accepted.
- **HEAD SHOTS** from at least the waist up tend to work best with school appropriate attire. **The goal is to focus on the student and full-body shots or unique angles may need to be cropped to meet layout specifications.** When cropped, revealing outfits may appear inappropriate so take care with bare shoulders, low-cut shirts, and tube tops.
- **NO PROPS, PETS, BORDERS, SPECIAL EFFECTS, HATS, SUNGLASSES, SILLY FACES...ETC.** since these portraits are meant to capture and identify each individual student.

Failure to follow these specifications may result in your picture not being included in the yearbook.

Plan ahead—Preparing a portrait for the yearbook is a long process that involves making an appointment with a photographer, having the pictures taken, waiting for proofs (about 1 month), choosing a photo and possibly retouching the proof (about 1 month). It is highly recommended that you choose a photographer and set up an appointment in June! **Past student photos have been submitted from many of the area photographers listed as well as more cost-friendly options. Students have also chosen to take their own photos. Please DO NOT submit a photo taken on a cell phone. The quality of a cell phone picture is not high enough to be published in the yearbook.**

Process for uploading senior photo:

1. Go to the website images.jostens.com, beginning July 1, or see senior portrait upload link on school's website. (If having trouble, copy and past the url or use the link on our website.)
2. If you are prompted for a USER ID, it is: **423465952**.
3. Choose the photo to be uploaded. REMEMBER, each student may only submit ONE photo!
4. Provide parent or photographer contact information. (Person uploading the photo should enter his/her information.)
5. Provide **IMAGE** information.
*Type the student's full name **as you would like it to appear in the yearbook**.
6. Select grade 12 from the dropdown menu.
7. In the description field, type **Senior Portrait**.
8. Click the box to agree to the terms and conditions.
9. Click on "upload chosen images" in blue box to complete the process.
10. You will see a confirmation page and should receive a confirmation email shortly after your submission.

Starting in October, a list of seniors will be posted in the purple house office window. If the senior's name has been highlighted, we have received a senior portrait for that person and the image has been deemed appropriate.

If you do not submit a senior portrait, your Lifetouch ID photo will be used instead, if available from senior year.

Questions: Please contact yearbook adviser, Cassie Bernhardt (bernhardtc@district112.org or chsyearbook@district112.org).

**Local Photographers used by past Chaska and Chanhassen students:
Inclusion on this list in no way constitutes a recommendation by
CHS Yearbook staff or Chaska High School.**

Many photographers will submit your photo for you; make sure you bring this information with you.
