

Emergency Guide for Parents

Student Safety is Our Priority

In Spring Branch ISD, we place the highest priority on the safety and security of our students and staff. Our Emergency Response Protocols are a critical part of our campus and district safety plans for the 2024-2025 school year.

Please take time to read this brochure in its entirety so that you are familiar with our safety terms and procedures and know your role as well as do's and don'ts in the event of an emergency.

Please also understand how important it is for us to have your current contact information so that your child's school and the district can reach you via our notification systems.

You and your student are critical partners in the safety and security of our schools. Please take this opportunity to remind your student about the important role they play in school safety and to follow our "See Something, Say Something" protocol whenever they have a safety concern for themselves or others. Be sure to use the Anonymous Reporting link on your campus website whenever you have information or concerns to share.

We hope never to have reason to activate our crisis response plans, but we promise to prioritize our readiness and to regularly review and practice our protocols so we are prepared should an emergency arise.

Thank you,

Jennifer Blaine, Ed.D.
Superintendent of Schools

Larry J. Baimbridge
SBISD Chief of Police

School Emergency Response Protocols

When and Why Students and Staff are asked to Lockdown, Secure, Shelter, Evacuate or Hold

A school crisis may arise for a variety of reasons. For example, there may be an environmental event, such as a chemical spill or gas leak; a weather emergency, such as a tornado warning; or an intruder in or near the school.

Spring Branch ISD follows the Standard Response Protocol as part of our campus and district safety plans. The nature of the situation dictates whether school officials, in coordination with the Spring Branch ISD Police, will put in place a lockdown, secure, shelter, evacuation, hold or any combination of these protocols, to ensure the safety and well-being of students and staff.

LOCKDOWN

A lockdown is called when there is a threat or hazard inside of the school building. All school doors are locked and students are confined to classrooms. No entry into or exit from the school is allowed until an all-clear announcement is made. For their safety, students will not be released during a lockdown.

SECURE

A secure is called when there is a threat or hazard outside of the school building, for example, criminal activity in the community or an unsafe situation outside the school.

Students return to the inside of the building. Staff secure exterior doors and monitor the situation, preventing any unauthorized visitors into the school. Students will continue with school activities and will not be released or permitted outside until the all-clear announcement is made.

SHELTER

Students take shelter in designated areas for protection from hazardous materials or severe weather. No entry into or exit from the school will be allowed until an all-clear announcement is made. Students will not be released during a shelter situation.

EVACUATION

In the event of certain building emergencies, students will be relocated to an evacuation assembly area.

The district will follow established procedures when releasing students to any parent/guardian. Students will only be released to a parent/guardian who presents valid photo identification.

HOLD

A hold is called when the hallways need to be kept clear, even during class changes.

If a hold occurs during class, students will remain in their classroom and continue with their studies as usual. If a hold occurs during a class change, teachers will recover all of their students, close and lock their classroom and account for all students by taking roll.

The Role of Parents in an Emergency

Before a School Emergency

- Make sure your contact information, including home and cell phone numbers, email and the name of individual(s) authorized to pick up your child remains accurate and current. Update phone and email information in Family Access (Skyward) or contact your school office.
- SBISD uses multiple channels to communicate in the event of a school closure, weather event, or a school or district emergency. These include social media, the district website, and outreach to local media.
- We also use two systems, School Messenger® and Remind®, to share information with you via voice, text and email. To receive SBISD and/or campus emergency communications, do NOT opt out of School Messenger® or Remind®.
- Learn more at <https://www.springbranchisd.com/news/how-we-communicate/emergency-communications-procedures>

During a School Emergency and Reunification after a School Emergency

In a school emergency, please trust that school and emergency personnel are doing everything possible to protect your child. Your first instinct may be to call or rush to the school to get your child. However, doing so only complicates matters from a security standpoint. For example, too many people at the scene can hinder first responders' access.

Explain to your child that cell phones should not be used during an emergency unless directed by a teacher, administrator or emergency personnel as sound, vibration, or conversation could put your child in danger.

Additionally, in a crisis situation, school phones are needed to manage the situation and lines must remain open. Calling could also put students and employees at risk in an intruder situation.

Parents will not be allowed on campus during an emergency. Following an emergency, once safe student release is possible, we will communicate with you with instructions for reunification.

How Will I Be Reunited With My Child?

In the event students are relocated to an evacuation assembly area, parents and/or guardians will receive direct communication from the district with instructions for how to be reunited with their child. We may also post instructions on the district website and social media.

Students will be released ONLY to parents and/or guardians who are documented as emergency contacts and who present a photo ID such as a driver's license, military ID or passport. The reunification process can be time-consuming so parents are urged to be patient in the event such a situation arises.

Although your first reaction might be to call or rush to your child's school, please follow the tips listed below:

- DO monitor the district website and social media for updates.
- DO rely only on official communication from district or public safety officials.
- DO listen for official information regarding reunification with your child.
- DO NOT call or rush to your child's school. Your presence could interfere with emergency responders.
- DO NOT phone your child or school. Staff and students are discouraged from using cell phone communication for safety reasons.
- DO NOT call the SBISD Police Department. Lines should remain open for emergency communications.

The best action parents can take in an emergency is to stay close to your phone and email and monitor the district website and social media for regular updates and instructions.

Anonymous Reporting

Each campus has a link on its website homepage where anyone can anonymously report troubling situations. We encourage students, staff and parents to "See Something, Say Something." whenever they have information that could help identify and intervene before an individual might hurt themselves or others. This includes, but is not limited to, issues around safety, security, self-harm, or other similar matters. Users can report observed threats, behaviors, actions and harassment like bullying or a student talking about planning an attack.

To report an emergency, please contact:
Spring Branch ISD Police Department @ 713-984-9805.
