## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Clackamas County School District No.108  
Estacada, Oregon

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, and each major fund of Clackamas County School District No.108, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Clackamas County School District No.108, as of June 30, 2020, and the respective changes in financial position and budgetary comparisons for the general fund and major special revenue fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the Management's Discussion and Analysis or Schedule of Funding Progress and Employer Contributions because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

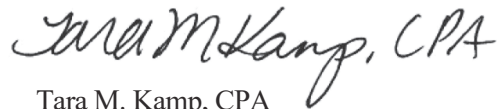

*Other Information*

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Reports on Other Legal and Regulatory Requirements**

In accordance with *Government Auditing Standards*, we have also issued our reports dated January 4, 2021 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated January 4, 2021, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**ESTACADA SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2020**

The management of Estacada School District (the District) presents this narrative overview to facilitate both a short-term and a long-term analysis of the financial activities of the District for the fiscal year ended June 30, 2020. This Management's Discussions and Analysis (MD&A) is based on currently known facts, decisions, and conditions that existed at the date of the independent auditor's report.

**Financial Highlights**

- In the government-wide statements, assets and deferred outflows of the District at June 30, 2020, exceeded liabilities and deferred inflows by \$620,168, resulting in an overall "Net Position" of \$620,168. This relatively small net position is due in part to the implementation of recent Government Accounting Standards Board (GASB) pronouncements and the recognition of the District's proportionate share of the PERS net pension liability in the financial statements as explained further on page b of this MD&A. Net Position increased by a total of \$1,469,180 during the 2019-20 fiscal year.
- The District's governmental funds reported a combined ending fund balance of \$8,871,662 at the end of fiscal year 2019-20.
- At the end of fiscal year 2019-20 ending fund balance in the General Fund was \$3,862,613 which equals approximately 12.6% of General Fund expenditures and transfers out.
- On June 30, 2020, the District's total outstanding debt was \$19,944,574 which includes General Obligation bonds of \$10,775,000, Pension Obligation Bonds of \$8,595,000, capital leases of \$139,574 and Qualified School Construction Bonds \$435,000. See Note 5 in the financial statement Notes section for more information about the District's long-term debt.

**Overview of the Financial Statements**

This following discussion and analysis is intended to serve as an introduction to the District's basic financial statements and other required supplementary information. The District's basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The government-wide financial statements can be found on pages 5 and 6 of this report.

The *Statement of Net Position* presents information on all of the District's assets and liabilities as of the date on the statement. Total Net Position represents the assets remaining after the liabilities have been paid off or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed over the most recent fiscal year by tracking revenues, expenses and other transactions that increase or decrease net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this

**ESTACADA SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2020**

statement for some items that will not result in cash flows until future fiscal periods, such as uncollected property taxes.

On the *Statement of Activities*, the District's activities are shown separately by the District's major functions of instruction, support services, community services, and interest on long-term debt. District activities are financed primarily through Oregon's State School Fund, property taxes, and other intergovernmental revenues.

**Effect of PERS Unfunded Liability:** Recent statements issued by the Governmental Accounting Standards Board (GASB) require that the government-wide financial statements incorporate the District's proportionate share of the state-wide liabilities related to PERS, including the Unfunded Actuarial Liability (UAL). The intent of these GASB requirements is to capture the true long-term liability for pension costs, but the actual result is extreme volatility in the District's Statement of Net Position. Due to highly variable annual investment returns (and other factors), the system-wide unfunded actuarial liability can change dramatically from year to year, causing significant changes in the School District's reported Net Position. While inclusion of the PERS UAL in the Statement of Net Position reflects a long-term financial reality, it is beyond the ability of any single employer to influence the PERS UAL and it obscures the financial results attributable to School District operations and management. The District's proportionate share of net pension liability (the PERS UAL) is \$15,069,303 as of June 30, 2020, as reported on the Statement of Net Position.

**Fund financial statements.** The fund financial statements provide more detailed information about the District's funds. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The School Board sets appropriations each year within every fund for instruction, support services, community services, facilities, debt service, transfers, contingency, and unappropriated ending fund balance. These appropriations establish the legal limits for expenditures of the District as established by Oregon Revised Statutes.

Unlike the government-wide financial statements, the fund financial statements focus on near-term inflows and outflows of available resources to assist users in evaluating a government's near-term financial requirements. Because the focus of the fund financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds in the fund financial statements with similar information presented in the government-wide financial statements. The *Governmental Fund Balance Sheet* and the *Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances* provide reconciliations to the District-wide statements to facilitate these comparisons.

The District has two major funds: the General Fund and the Special Revenue Fund. Financial statements for these funds are included on pages 11 and 12. The District also has two non-major funds: the Debt Service Fund and the Capital Projects Fund. Financial statements for non-major funds are shown on pages 44 and 45. The District does not have any funds that are considered "business-type" activities.

**Notes to the Basic Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 13 to 40 of this report.

**ESTACADA SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2020**

**Government-Wide Financial Analysis**

**Statement of Net Position:** A comparative summary of the District's Net Position as of June 30, 2019, and June 30, 2020, is shown below. As noted earlier, Net Position may serve as a useful indicator of a government's financial position over time.

Capital assets, which consist of the District's land, buildings, building improvements, site improvements, vehicles and equipment represent approximately 72% of total assets. The remaining assets consist mainly of cash, investments, and taxes receivable.

The District's largest liability (approximately 97% of total liabilities) is for the repayment of long-term debt including General Obligation bonds, PERS bonds, Qualified School Construction Bonds, and capital lease obligations. Current liabilities consist primarily of accounts payables and employee benefits payable.

As noted above, a significant portion of the District's Net Position reflects its investment in capital assets (e.g. land, buildings, vehicles and equipment). The District uses these capital assets to provide services to students and other District residents, consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

The District's total Net Position increased \$1,469,180 during fiscal year 2019-20.

**ESTACADA SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2020**

**Statement of Activities:** General Revenues account for the vast majority of District resources. Property taxes of \$6,663,921 and State School Fund (SSF) payments of \$22,918,749 are the largest of these resources. Each Oregon school district receives money from the state based on an average weighted student membership formula (ADMw). The formula multiplies a dollar amount per student (established by the legislature every two-years) by the District's ADMw. As a safety net, the State uses the higher of a school district's current year ADMw or their most recent year's actual ADMw in the calculation. Ad Valorem Taxes, Common School Fund, Federal Forest Fees, special student weighting factors, and other factors are included in the SSF formula.

A comparative summary of the District's Changes in Net Position as of June 30, 2019 and 2020 is as follows.

**ESTACADA SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2020**

**Financial Analysis of the District's Funds**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's governmental funds is to provide information on short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, ending fund balance may serve as a useful measure of the District's currently available resources at the end of a fiscal year.

As of June 30, 2020 the District's governmental funds reported total ending fund balances of \$8,871,662, a decrease of \$127,339 from the prior year.

*General Fund:* The General Fund is the primary operating fund of the District. As of June 30, 2020, General Fund total ending fund balance was \$3,862,613 which is an increase of \$258,257 from the prior year. The increase in General Fund ending fund balance was due primarily to the District receiving higher State School Funds and local property taxes than expected, as well as spending slightly less than budgeted.

*Special Revenue Fund:* The Special Revenue Fund is used by the District for dedicated revenue sources for activities such as College Scholarships, Food Service, and Student Body funds. Special Revenue Fund revenues in 2019-20 totaled \$3,010,837 which represents approximately 7.7% of total revenues for all District funds.

*Capital Projects Fund:* The Capital Projects Fund is being used to accumulate resources to continue on a capital improvement plan to address some of the District's building and infrastructure needs with existing resources. The primary revenue sources for the Capital Projects Fund are the Construction Excise Tax, periodic transfers from the General Fund, and interest earnings.

**General Fund Budgetary Highlights**

During the year, General Fund expenditures were less than budgeted amounts by \$1,022,241, revenues came in at \$1,182,335 above budgeted revenues, and actual revenues exceeded actual expenditures by \$1,053,628 (before transfers out).

District-wide budgetary highlights are shown on the next page.

**District-Wide Budgetary Highlights**

**Expenses.** Expenses related to governmental activities are presented in four broad functional categories as shown below. Costs of direct classroom instruction activities of \$23,244,810 account for the majority of the total expenses of \$36,333,816. The other major component is support services which accounts for student support staff and school and general administration.

2019-20 expenses by function as shown on the district-wide Statement of Activities for governmental activities are summarized as shown in the following chart:

**Capital Asset and Debt Administration**

**Capital assets.** The District's investment in capital assets includes land, buildings, vehicles, and equipment. As of June 30, 2020, the District had invested \$26,206,706 in capital assets, net of accumulated depreciation. Net capital assets increased during the year by \$1,054,003 primarily from building improvements. A comparative summary of the District's capital assets as of June 30, 2019 and June 30, 2020 is as follows:

<b>Capital Assets (Net of Depreciation) June 30, 2020 and 2019</b>

Additional information on the District's capital assets may be found in note 4 to the financial statements.

**Long-term debt.** As of June 30, 2020, the District had total long-term debt outstanding of \$19,944,574 consisting of general obligation bonds, Pension Obligation Bonds, Qualified School Construction Bonds, and capital leases. During the year, the District's total long-term debt obligations decreased by \$2,484,628 due to making annual principal payments on existing debt and incurring no new long-term debt. The District's net pension liability (the District's proportionate share of the state-wide PERS net pension liability) as explained on page b of this Management Discussion and Analysis, and Note 7 to the financial statements, is not included in Long-term debt for this purpose.

Additional information on the District's long-term debt obligations may be found in note 5 to the financial statements.

**Economic Factors and Next Year's Budget**

The most significant economic factors for the District are student enrollment and the State of Oregon's State School Fund. The State School Fund is based on student enrollment and includes a General Purpose Grant, a Transportation Grant, a Facilities Grant and certain local revenues. For the year ended June 30, 2020, the State School Fund provided approximately 74% of the District's total General Fund revenue.

**ESTACADA SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS

The District's Budget Committee and School Board considered these factors while preparing the District's budget for the 2019-20 fiscal year.

**Requests For Information**

This financial report is designed to present the user (citizens, taxpayers, investors and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Manager at 255 NE 6th Avenue, Estacada, Oregon, 97023.

**NOTES TO THE BASIC FINANCIAL STATEMENTS**

**CLACKAMAS COUNTY SCHOOL DISTRICT NO. 108**  
ESTACADA, OREGON

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Clackamas County School District No. 108 (the District) is a municipal corporation governed by an elected seven member Board of Directors. As required by accounting principles generally accepted in the United States of America, all activities of the District have been included in these financial statements.

The financial statements include all funds and account groups. The District is not financially accountable for any other governmental entity. Financial accountability is determined in accordance with criteria set forth in GAAP and Governmental Accounting Standards Board (GASB) Statement No. 61. Financial accountability is based primarily on the authority to appoint voting majority of an organization's governing board, ability to impose its will on that organization, the potential for that organization to provide specific financial benefits or impose specific financial burdens and that organization's fiscal dependency. There are no component units.

**Basis of Presentation**

**Government-wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed through property taxes, intergovernmental revenues, and other non-exchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with an activity and, therefore, are clearly identifiable to that activity. Indirect expense allocations that have been made in the funds have been reversed for the Statement of Activities and eliminations have been made to minimize the double counting of internal activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

Net position is reported as restricted when constraints placed on net position use are either externally restricted, imposed by creditors (such as through grantors, contributors, or laws) or through constitutional provisions or enabling resolutions.

**Fund Financial Statements**

The fund financial statements provide information about the District's funds including those of a fiduciary nature. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

General Fund - This fund accounts for the financial operations of the District not accounted for in any other fund. Principal sources of revenue are state sources, property taxes and earnings on investments. Expenditures are made for instruction and support services.

**CLACKAMAS COUNTY SCHOOL DISTRICT NO. 108**  
**ESTACADA, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Special Revenue Fund - This fund accounts for revenues and expenditures for specific purposes and the District's food services program. Principal revenue sources are federal and state grants.

Debt Service Fund - This Fund provides for the payment of principal and interest on general obligation bonded debt. Principal revenue sources are property taxes, District payroll deductions, budgeted transfers and energy savings.

Capital Projects Fund - This Fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities. Principal revenue sources are bond proceeds, budgeted transfers and interest earnings.

**Measurement Focus and Basis of Accounting**

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

**Cash, Cash Equivalents and Investments**

The District considers investments with maturities of three months or less when purchased to be cash equivalents.

Investments in the State of Oregon Treasurer's Local Government Investment Pool (LGIP) are stated at cost which approximates fair value. Fair value in the LGIP is the same as the value of its pool shares. Other investments with maturities greater than three months at the time of purchase are stated at cost which approximates fair value.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the state that by law is made the custodian of, or has control of, any fund.

**CLACKAMAS COUNTY SCHOOL DISTRICT NO. 108**  
**ESTACADA, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The LGIP is included in the Oregon Short Term Fund (OSTF), which was established by the State Treasurer. OSTF is not subject to SEC regulation. OSF is subject to requirements established in Oregon Revised Statutes, investment policies adopted by the Oregon Investment Council, and portfolio guidelines established by the Oregon Short Term Fund Board. The Governor appoints the members of the Oregon Investment Council and the Oregon Short Term Fund Board. The OSTF issues a separate independent financial statement which can be obtained at The Office of the State Treasurer, 350 Winter Street NE, Suite 100, Salem, Oregon. The credit quality rating of this pool is unrated.

**Fair Value Inputs and Methodologies and Hierarchy**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based on the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

**Level 1** – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

**Level 2** – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market-corroborated inputs)

**Level 3** – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund’s own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

**Property Taxes Receivable**

Property taxes are levied and become a lien on all taxable property as of July 1. Property taxes are payable on November 15, February 15 and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

**CLACKAMAS COUNTY SCHOOL DISTRICT NO. 108**  
**ESTACADA, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

**Accounts and Other Receivables**

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants.

**Grants**

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant funds received prior to the occurrence of qualifying expenditures are recorded as deferred revenue.

**Inventory**

Inventory is valued at cost, using the first-in, first-out (FIFO) method. Donated commodities are valued at their estimated fair market value. Inventory is charged as an expenditure when used.

**Capital Assets**

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of three years. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	15 to 50 years
Vehicles and equipment	6 to 20 years

**Capital Leases**

In the government-wide financial statements capital leases are reported as liabilities in the Statement of Net Position.

In the fund financial statements, at the inception of a capital lease an expenditure and other financing source are recognized in an amount equal to the net present value of future minimum lease payments. Subsequent lease payments are recorded as expenditures on the due date.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Retirement Plans**

Most of the District employees participate in Oregon Public Employees Retirement System (PERS). For the purpose of measuring the pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and addition to/deductions from PER's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in according with benefit terms. Investments are reported at fair value. PERS requires plan contributions on a current basis. Contributions are recorded as expenditures in individual funds as funded. The District also offers its employees a tax deferred annuity plan established pursuant to Section 403(b) of the Internal Revenue Code.

**Postemployment Benefits**

Certificated employees and eligible administrative supervisors at age fifty-eight with 15 years of regular service qualify for early retirement benefits which are funded and charged to expenditures on a pay-as-you-go basis.

**Compensated Absences**

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Unused vacation must be used by June 30th of each year, except classified employees that earn vacation may carry over up to 40 hours of vacation to the following fiscal year to be used by September 30th. Any accrued vacation time not used by September 30th is paid out to the employee. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued when earned in the government-wide financial statements.

**Long-term Debt**

In the government-wide financial statements, long-term debt is reported as liabilities in the Statement of Net Position. Gains or losses on refunding are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method.

In the fund financial statements, the face amount of the debt issued is reported as other financing sources. Premiums or discounts received on debt issuance are not material to the basic financial statements.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources.

**CLACKAMAS COUNTY SCHOOL DISTRICT NO. 108**  
**ESTACADA, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

This separate financial statement element represents a consumption of net position and/or fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports deferred outflows of resources for pension and OPEB related amounts in the statement of net position.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The District reports deferred inflows of resources for pension and OPEB related amounts and deferred gain on refunding in the statement of activities. The District also reports deferred inflows of resources for unavailable revenue from property taxes in the General Fund on the governmental funds balance sheet.

**Net Position**

Net position comprises the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

- Net Investment in Capital Assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There is net position restricted for debt service, grants, and student activities.
- Unrestricted net position – consists of all other assets that are not included in the other categories previously mentioned.

It is the Districts policy to spend restricted net position first and then unrestricted when both are available.

**Fund Equity**

In March 2009, the GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved/undesignated were replaced with five new classifications – nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories and prepaids.

**CLACKAMAS COUNTY SCHOOL DISTRICT NO. 108**  
**ESTACADA, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body.
- Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

The District has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

**Budget**

A budget is prepared and legally adopted for each fund on the modified accrual basis of accounting. The budgetary basis of accounting is the same basis as accounting principles generally accepted in the United States of America except capital outlay expenditures are budgeted by function and capital leases at their inception are not budgeted.

The District begins its budgeting process by appointing budget committee members in early fall of each year. Budget recommendations are developed through early spring and the Budget Committee approves the budget in late spring. Public notices of the budget hearing are generally published in June and a public hearing is held in late June. The budget is adopted, appropriations are made, and the tax levy is declared no later than June 30.

Expenditures are appropriated at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. Expenditures generally cannot legally exceed these function level appropriations. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriations resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board of Directors. During the year, there were budget resolutions affecting appropriations. Appropriations lapse at the end of each fiscal year.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Expenditures of the various funds were within authorized appropriations, except for General Fund – Transfers Out by \$41,121, Special Revenue Fund – Instruction by \$135,322.

**Use of Estimates**

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, expenditures/expenses and other disclosures. Accordingly, actual results could differ from those estimates.

**2. CASH, CASH EQUIVALENTS AND INVESTMENTS**

The District maintains a common cash, cash equivalents and investment pool for all District funds. At June 30, 2020, the District's cash, cash equivalents and investments is comprised of the following:

Cash on hand	\$ 3,748
Deposits with financial institutions:	
Demand deposits, non-interest bearing	326,012
State of Oregon Treasurer's	
Local Government Investment Pool	<u>7,950,332</u>
	<u>\$ 8,280,092</u>

**Deposits with Financial Institutions**

Custodial credit risk – Deposits – Custodial credit risk for deposits is the risk that in the event of bank failure, the District's deposits may not be returned to the District. Insurance and collateral requirements for the deposits are established by federal banking regulations and Oregon law. State statutes require that the District's deposits be covered by the Federal Deposit Insurance Corporation (FDIC) or by a multiple financial institution collateral pool under ORS 295.015 which is administered by the State of Oregon Office of the Treasury.

Deposits with financial institutions include bank demand deposits. The total bank balance per the bank statements on June 30, 2020 was \$1,107,679, \$500,000 of which was covered by federal depository insurance. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. The District's cash is deposited in an approved depository for public funds, and thus is collateralized under ORS295.

As required by Oregon Revised Statutes, deposits in excess of federal depository insurance were held at a qualified depository for public funds. All qualified depositories for public funds are included in the multiple financial institution collateral pool that is maintained by and in the name of the Office of State Treasurer. As a result the District has no exposure to custodial credit risk for deposits with financial institutions.

**2. CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)**

As required by Oregon Revised Statutes, deposits in excess of federal depository insurance were held at a qualified depository for public funds. All qualified depositories for public funds are included in the multiple financial institution collateral pool that is maintained by and in the name of the Office of State Treasurer. As a result the District has no exposure to custodial credit risk for deposits with financial institutions.

**Investments**

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool.

Interest Rate Risk – Investments – The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure deposits will not be recovered. There is no formal deposit policy for custodial credit risk. As of June 30, 2020, all deposits are insured.

INVESTMENTS – Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund's compliance with all portfolio guidelines can be found in their annual report when issued. The LGIP seeks to exchange shares at \$1 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it approximates fair value. The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. The audited financial reports of the Oregon Short Term Fund can be found here:

5. **LONG-TERM OBLIGATIONS (CONTINUED)**

**Bonds**

The District issued \$21,300,000 in general obligation bonds in 2005 with variable interest from 3.000% to 5.500%. The bond is for the improvement and construction of education facilities. The Bond includes the following termination clause. Pursuant to paragraph (b)(S)(iii) of the Rule, the District's obligation to provide annual financial information and notice of material events, as set forth above, shall terminate if and when the District no longer remains an obligated person with respect to the Bonds, which shall occur upon either redemption in full of the Bonds, or legal defeasance of the Bonds. In addition, and notwithstanding the provisions of Section 8 of the agreement, the District may rescind its obligations under this Certificate, in whole or in part, if (i) the District obtains an opinion of nationally recognized bond counsel that those portions of the Rule that required the execution and delivery of this Certificate are invalid, have been repealed, or otherwise do not apply to the Bonds, and (ii) the District notifies and provides to each NRMSIR or the MSRB and to the SID, if any, a copy of such legal opinion. The Bond includes the following enforceability and remedies. The District agrees that this Certificate is intended to be for the benefit of registered and beneficial holders of the Bonds and shall be enforceable by or on behalf of any such holder; provided that, the right of any Bondholder to challenge the adequacy of the information furnished hereunder shall be limited to an action by or on behalf of bondholders representing at least twenty-five percent (25%) of the aggregate outstanding principal amount of Bonds. Any failure by the District to comply with the provisions of this undertaking shall not be an Event of Default under the bond documents. This Certificate confers no rights on any person or entity other than the District, holders of the Bonds, and any Dissemination Agent.

The District issued limited tax pension bonds in 2005 in the amount of \$12,695,000 with variable interest rates from 4.052% to 4.759%. The bond is for the payment of a portion of its estimated PERS unfunded actuarial liability. Upon the occurrence and continuance of any event of default, the trustee may, and if the owners of not less than fifty-one percent (51%) in outstanding principal amount of the obligations so request, shall take whatever action at law or in equity may appear necessary or desirable to enforce or to protect any of the rights vested in the trustee or the owners of the obligations by the trust agreement, the intercept agreement or the pension bonds, either at law or in equity or in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in the trust agreement or the intercept agreement or in aid of the exercise of any power granted in the trust agreement or the intercept agreement or for the enforcement of any other legal or equitable right vested in the trustee by the trust agreement or the intercept agreement or by law; provided that in no event shall the. The Trustees have the right to accelerate the pension bond payments or the obligations.

**Direct Placement**

The District issued QSCB bonds in 2011 in the amount of \$1,100,000 with an interest rate of 5.050%. The bond is for construction of a Bio-mass boiler and upgrades to the District's digital control systems. The QSCB includes the following termination clause. Pursuant to paragraph (b)(S)(iii) of the Rule, the Issuer's obligations hereunder shall terminate if and when the Issuer no longer remains an obligated person with respect to the Agreement, which shall occur upon either redemption in full of the Agreement, or legal defeasance of the Agreement. In addition, and notwithstanding the provisions of Section 8, the Issuer may rescind its obligations under this Certificate, in whole or in part, if (i) the Issuer obtains an opinion of nationally recognized bond counsel that those portions of the Rule that required the execution and delivery of this Certificate are invalid, have been repealed, or otherwise do not apply to the Agreement, and (ii) the Issuer notifies

Any failure by the Issuer to comply with the provisions of this undertaking shall not be an Event of Default under the Agreement. This Certificate confers no rights on any person or entity other than the Issuer, holders of the Certificates, and any Dissemination Agent.

All bonds are paid by the Debt Service Fund and obligations under capital lease by the Special Revenue Fund.

Obligations under capital leases consist of the lease of four vehicles with an original cost of \$636,900 with average interest rates of 2.610%.

**7. RETIREMENT PLANS**

**Public Employees Retirement System (PERS)**

Plan Description – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

<https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf>

**7. RETIREMENT PLANS (CONTINUED)**

PERS Pension (Chapter 238)

The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.

Pension Benefits - The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Death Benefits – Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided on or more of the following contributions are met:

- i. member was employed by PERS employer at the time of death,
- ii. member died within 120 days after termination of PERS covered employment,
- iii. member died as a result of injury sustained while employed in a PERS-covered job, or
- iv. member was on an official leave of absence from a PERS-covered job at the time of death.

Disability Benefits – A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

Benefit Changes After Retirement – Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the fair value of the underlying global equity investments of that account. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.

7. RETIREMENT PLANS (CONTINUED)

OPSRP Pension Program (OPSRP DB).

The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

Pension Benefits – This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

*General service:* 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits – Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70½ years.

Disability Benefits – A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation, which became effective July 1, 2019. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Employer contributions for the year ended June 30, 2020 were \$1,591,643, excluding amounts to fund employer specific liabilities. In addition approximately \$668,336 in employee contributions were paid or picked up by the District in fiscal 2020. At June 30, 2020, the District reported a net pension liability of \$15,069,303 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability

was determined by an actuarial valuation dated December 31, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement date of June 30, 2019 and 2018, the District's proportion was .087 percent and .096 percent, respectively. Pension expense for the year ended June 30, 2020 was \$1,878,775.

The rates in effect for the year ended June 30, 2020 were:

- Tier 1/Tier 2 – 18.48%
- OPSRP general services – 13.03%

Actuarial Valuations – The employer contribution rates effective July 1, 2019 through June 30, 2021, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2016 Experience Study which is reviewed for the four-year period ending December 31, 2016.

Long-Term Expected Rate of Return – To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the PERS Board reviewed long-term assumptions developed by both Milliman’s capital market assumptions team and the Oregon Investment Council’s (OIC) investment advisors. The table below shows Milliman’s assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC’s description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

**Discount Rate** – The discount rate used to measure the total pension liability as of the measurement date of June 30, 2019 and 2018, was 7.20 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District’s proportionate share of the net pension liability to changes in the discount rate – The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate.

	1% Decrease (6.20%)	Discount Rate (7.20%)	1% Increase (8.20%)
District's proportionate share of the net pension liability	\$ 24,132,152	\$ 15,069,303	\$ 7,484,947

Changes Subsequent to the Measurement Date – As described above, GASB 67 and GASB 68 require the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, Paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer’s reporting date that are expected to have a significant effect on the employer’s share of the collective Net Pension Liability, along with an estimate of the resulting change, if available.

There are no changes subsequent to the June 30, 2019 Measurement Date that meet this requirement and thus would require a brief description under the GASB standard.

Deferred Compensation Plan – A deferred compensation plan is available to employees wherein they may execute an individual agreement with the District for amounts earned by them to not be paid until a future date when certain circumstances are met. These circumstances are: termination by reason of death, disability, resignation, or retirement. Payment to the employee will be made over a period not to exceed 15 years. The deferred compensation plan is one which is authorized under IRC Section 457 and has been approved in its specifics by a private ruling from the Internal Revenue Service. The assets of the plan are held by the administrator for the sole benefit of the plan participants and are not considered assets or liabilities of the District.

**OPSRP Individual Account Program (OPSRP IAP)**

Plan Description – Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member’s IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

**7. RETIREMENT PLANS (CONTINUED)**

Pension Benefits – Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits – Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions – Employees of the District pay six (6) percent of their covered payroll. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2020.

**Retirement Health Insurance Account**

Plan Description – As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

Funding Policy – Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan.

**7. RETIREMENT PLANS (CONTINUED)**

A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating districts are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.06% of annual covered OPERF payroll and 0.00% of OPSRP payroll under a contractual requirement in effect until June 30, 2020. Consistent with GASB Statement 75, the OPERS Board of Trustees sets the employer contribution rates as a measure of the proportionate relationship of the employer to all employers consistent with the manner in which contributions to the OPEB plan are determined. The basis for the employer's portion is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the plan with the total actual contributions made in the fiscal year of all employers. The District's contributions to RHIA for the years ended June 30, 2018, 2019 and 2020 were \$45,843, \$47,552, and \$11,154, respectively, which equaled the required contributions each year.

At June 30, 2020, the District's net OPEB liability/(asset) and deferred inflows and outflows were not considered significant by management and were not accrued on the government wide statements.

Additional disclosures related to Oregon PERS not applicable to specific employers are available online, or by contacting PERS at the following address: PO Box 23700 Tigard, OR 97281-3700.

**8. SINGLE EMPLOYER PENSION PLAN (GASB #73)**

**Early Retirement**

A single employer, defined benefit early retirement supplement program is maintained for certified employees. The retirement incentive is offered as a form of deferred compensation for work performed during the years of active employment. To qualify, an employee must be a certified staff member eligible to retire with benefits under the rules of the Public Employees Retirement System and applicable Oregon law. In addition, the electing employee must have a minimum of ten years of service immediately prior to retirement. This plan is funded on a pay-as-you-go basis.

GASB Statement #73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, for the fiscal year ended June 30, 2016 was implemented. A single-employer post-employment benefit program is maintained (commonly referred to as early retirement). These programs cover licensed and administrative personnel, individual employees, and certain retired employees.

**8. SINGLE EMPLOYER PENSION PLAN (GASB #73) (CONTINUED)**

Contributions and Funding Policy – The benefits from this program are fully paid by the District and, consequently, no contributions by employees are required. There is no obligation to fund these benefits in advance. The only obligation is to make current benefit payments due each fiscal year. Consequently, it has not been found necessary to establish a pension trust fund, and payments are made on a pay-as-you-go basis each year out of the General Fund. An estimate of this liability for current retirees is done annually. There is no separately issued financial report for the plan. The annual expenditures recognized on a budgetary basis were approximately \$85,389, \$85,800, and \$107,005 for the years ended June 30, 2020, 2019, and 2018 respectively.

Total Pension Liability – The District’s total pension liability (TPL) was measured as of June 30, 2018 and the total pension liability were determined by an actuarial valuation as of June 30, 2019.

Actuarial Methods and Assumptions

Actuarial Methods and Assumptions: The District engaged an actuary to perform an evaluation as of July 1, 2018 using entry age normal, level percent of salary Actuarial Cost Method. The Single Employer Pension Plan liability was determined using the following actuarial assumptions, applied to all periods including the measurement:

Discount Rate per year		2.25%
General Inflation Rate per year		2.50%
Salary Scale per year		3.50%
Annual Medical Premium increase rate	2019-20	5.00%
	2020-21	5.50%

	2022-23	6.60%
Decreasing 0.1% per year until 2038-39	2038+	5.00%

Mortality rates were based on the RP=2000 Active/Healthy Annuitant Mortality Table for males and females, as appropriate, set back 24 months and were calculated by adjusting the rates 60% for male participants and 55% for female participants.

Turnover rates were based on percentages developed for the valuation of benefits under Oregon PERS and vary by years of service.

Disability rates were based on the percentages developed for the valuation benefits under Oregon PERS and vary by employee age.

Retirement rates were calculated based on age and years of service with the assumption that 60% are to remain enrolled and 50% of retirees electing coverage will cover a spouse as well.

The projection of benefits for financial reporting purpose does not explicitly incorporate the potential effects of legal or contractual funding limitations.

**9. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) GASB #75**

Plan Description: The District administers a single-employer defined benefit healthcare plan per the requirements of collective bargaining agreements. The plan provides postretirement healthcare benefits for eligible retirees and their dependents through the District's group health insurance plans. The plan covers both active and retired participants. As of the actuarial valuation date, there were 1,389 active participants and 66 retirees in the 243.303 which states, in part, that for the purposes of establishing healthcare premiums, the calculated rate must be based on the cost of all plan members, including both active employees and retirees. Because claim costs are generally higher for retiree groups than for active employees, the premium amount does not represent the full cost of coverage for retirees. The resulting additional cost, or implicit subsidy, is required to be valued under GASB Statement 75 related to Other Post-Employment Benefits (OPEB). Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations of the OPEB plan reflect a long-term perspective.

Funding Policy: The District has not established a trust fund to finance the cost of Post-employment Health Care Benefits related to implicit rate subsidies. Premiums are paid by retirees based on the rates established for active employees. Additional costs related to an implicit subsidy are paid by the District on a pay-as-you go basis in all funds. There is no obligation on the part of the District to fund these benefits in advance.

Net Other Post-employment Benefit Liability: The net other post-employment benefit liability (NOL) was measured as of June 30, 2020, and the total other post-employment benefit liability was determined by an actuarial valuation as of July 1, 2018.

Actuarial Methods and Assumptions: The District engaged an actuary to perform an evaluation as of June 30, 2018 using entry age normal, level percent of salary Actuarial Cost Method. The asset valuation method used was market value and the amortization method used was 30 year, open level percent.

The total other post-employment benefit liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Discount Rate per year		2.25%
General Inflation Rate per year		2.50%
Salary Scale per year		3.50%

Mortality rates were based on the RP=2014, Employee/Healthy Annuitant, sex distinct, generational. Improvement scale was Unisex Social Security Data Scale (60 year average), Active employee/retiree adjustments was white collar adjustment, set back 12 months, and beneficiary adjustments was blended 50% blue collar/50% white collar, set back 12 months for males, not set back for females. Turnover rates were based on percentages developed for the valuation of benefits under Oregon PERS and vary by years of service.

Disability rates were based on the percentages developed for the valuation benefits under Oregon PERS and vary by employee age.

Retirement rates were based on percentages developed for the valuation of benefits under Oregon PERS and vary by age and years of service. 70% of future retirees are assumed to elect medical coverage and 70% of those retirees are assumed to cover a spouse, as well. Current and future retirees are assumed to remain enrolled in the plans in which they are currently enrolled. There was an assumption of no impact of dependent children on the implicit subsidy

The discount rate used to measure the total pension and total other post-employment benefit liabilities was 2.25%, based on all years discounted at the municipal bond rate.

**Other Post-employment benefits Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Other Post-employment Benefits**

For the year ended June 30, 2020, the District recognized Other Post-employment Benefit expense of \$241,171. At June 30, 2020, the District reported deferred outflows of resources related to Other Postemployment benefits from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ 114,891	\$ -
Changes in assumptions	320,017	98,117
Total	\$ 434,908	\$ 98,117

Amounts reported as deferred outflows and deferred inflows of resources related to Other Post-employment benefits will be recognized in Other Post-employment benefit expense as follows:

Year ended June 30:	
2021	\$ 42,398
2022	42,398
2023	42,398
2024	42,398
2025	42,398
Thereafter	124,801

**10. RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft or damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District does not engage in risk financing activities where the risk is retained (self-insurance), except for insurance deductibles. For the past three years insurance coverage was sufficient to cover all losses.

**11. COMMITMENTS AND CONTINGENCIES**

The District, in the regular course of business, is named as a defendant in various lawsuits. The likely outcome of these lawsuits is not presently determinable. It is the opinion of management that the ultimate resolution of these matters will not have a material adverse effect on the financial condition of the District.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the District. District management expects such amounts, if any, to be immaterial.

The District is dependent on the State of Oregon for a substantial portion of its operating funds. Due to funding uncertainties at the State level, future funding for school districts may be reduced. The ultimate effect of this possible reduction in funding on the District's future operations is not yet determinable.

**12. FUND BALANCES**

Details of fund balance classifications displayed in the aggregate are as follows:

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Debt Service Fund</u>	<u>Capital Projects Fund</u>	<u>June 30, 2020</u>

**13. COVID-19**

The COVID-19 outbreak in the United States has caused disruption through mandated and voluntary closure of government and business activities. These developments are expected to impact District revenues. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration. Therefore, the District expects this matter to negatively affect its operating results. However, the related financial impact and duration cannot be reasonably estimated at this time.

### **Independent Auditor's Report Required by Oregon State Regulations**

We have audited the basic financial statements of the Clackamas County School District No.108 as of and for the year ended June 30, 2020, and have issued our report thereon dated January 4, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

#### **Compliance**

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

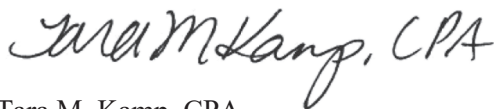

In connection with our testing nothing came to our attention that caused us to believe the Clackamas County School District No.108 was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, except for the following:

1. Budget over expenditures as noted on page 20.
2. In testing the budget for 2019-20, we noted that a notice of a supplemental budget was not published for resolution 2020-2, which was required when a new appropriation category was added to the General Fund.
3. During testing of competitive quotes, we noted an expenditure over \$10,000 that did not have formal backup for competing quotes.

**OAR 162-10-0230 Internal Control**

In planning and performing our audit, we considered internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of internal control over financial reporting.

This report is intended solely for the information and use of the Board, management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Clackamas County School District No.108 as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated January 4, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

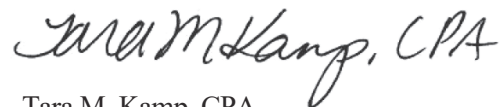

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and

accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM  
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

**Report on Compliance for Each Major Federal Program**

We have audited Clackamas County School District No. 108's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2020. The major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

**Opinion on Each Major Federal Program**

In our opinion, Clackamas County School District No.108 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

## Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes federal grant activity under programs of the federal government. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations, it is not intended to and does not present the net position, changes in net position, or cash flows of the entity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The entity has not elected to use the ten percent de minimus indirect cost rate as allowed under Uniform Guidance.
