

## Student Parking Frequently Asked Questions

The Department of Safety, Security and Transportation has the sole responsibility for all parking on the San Jose Campus and shall issue student parking assignments. The Department of Safety, Security and Transportation partners with the Upper School Deans' Office to regulate and enforce parking policy. All motor vehicles driven or parked on campus are required to have registered and be assigned a parking permit. Registration ensures that there is fair and equitable parking for both employees and students. Students shall adhere to all traffic directional patterns, regulatory signs and drive at a safe speed, being always cognizant of pedestrians, low speed vehicles and other motorists.

The need for campus parking is greater than the number of parking spaces available on campus, therefore not every student that applies for campus parking will be assigned to a student parking lot. **Students will not be assigned an individual parking space, but be assigned to a student parking lot.** Please find some frequently asked questions.
