

FUNDRAISING AND SOLICITATION

All fundraising activities conducted for the benefit of the Alexandria City Public Schools must support the education and development of our students and must not interfere with the instructional program. All fundraising activities conducted by school-sponsored organizations or clubs must be approved in advance by the principal.

Fundraising refers to the raising of nonappropriated funds by students, parents, or others for the educational benefit of students and their schools.

Fundraising shall be permitted by students attending middle and high school, provided such activities are approved in writing and carefully monitored and regulated by the school principal or a designee. Elementary schools may not conduct any sales campaign, project, or other process which requires, encourages, or otherwise promotes the utilization of students in door-to-door solicitation or which rewards students based on the amount of individual sales. No grade will be affected by a student's participation, or lack of participation, in a fundraising activity.

Each principal shall develop and maintain a list of all approved fundraising activities and report such activities if requested to the Superintendent pursuant to procedures issued by the Superintendent.
