

How to change a PDF into a Google Doc

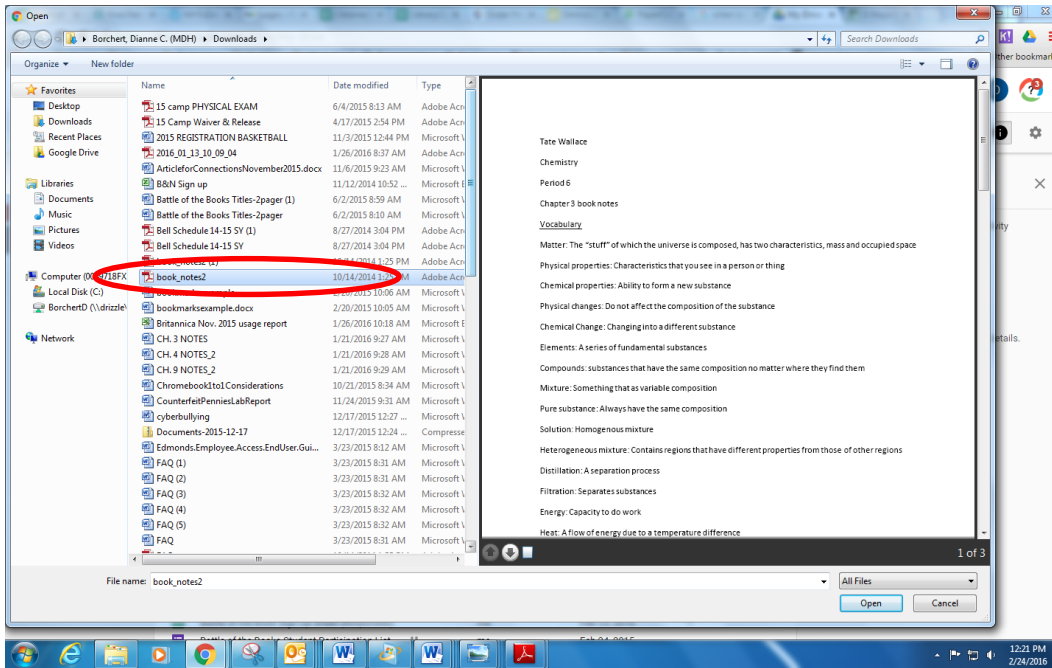

1) Open your drive:

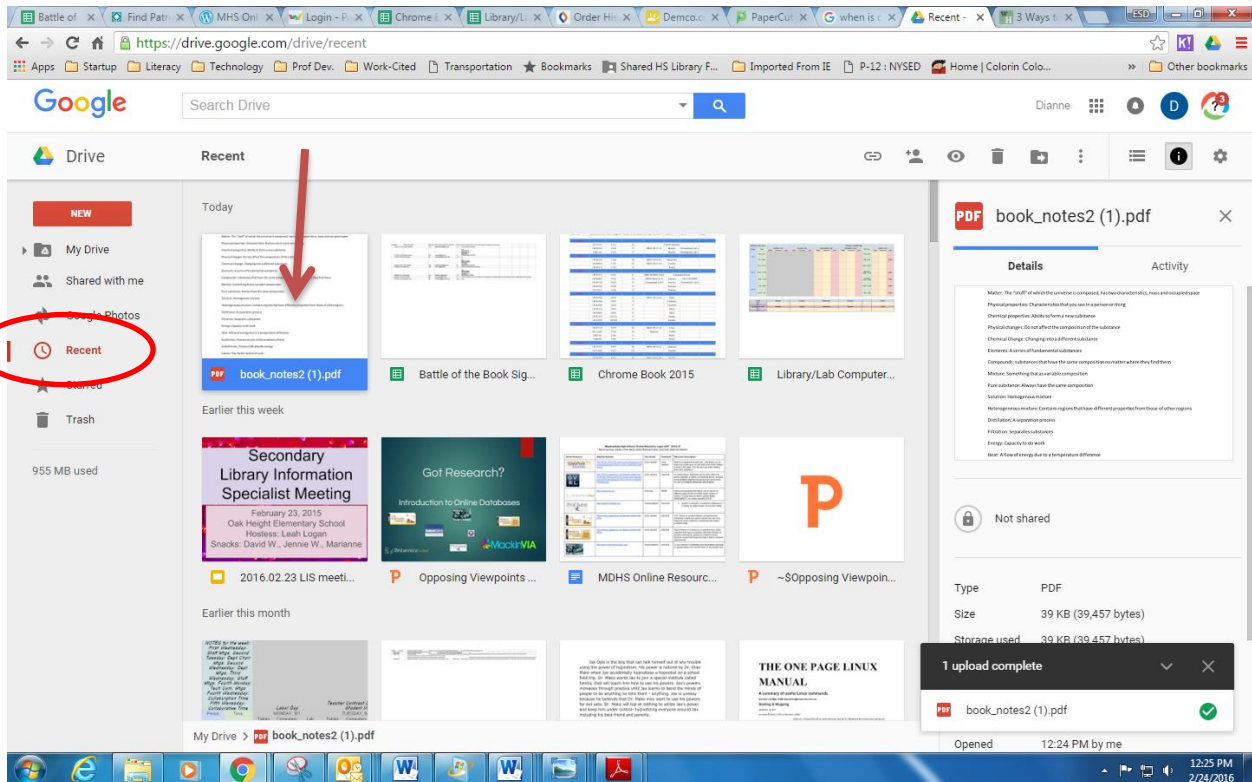

2) Select  and then scroll down to file upload

3) Select your PDF from your desktop or downloads or wherever...

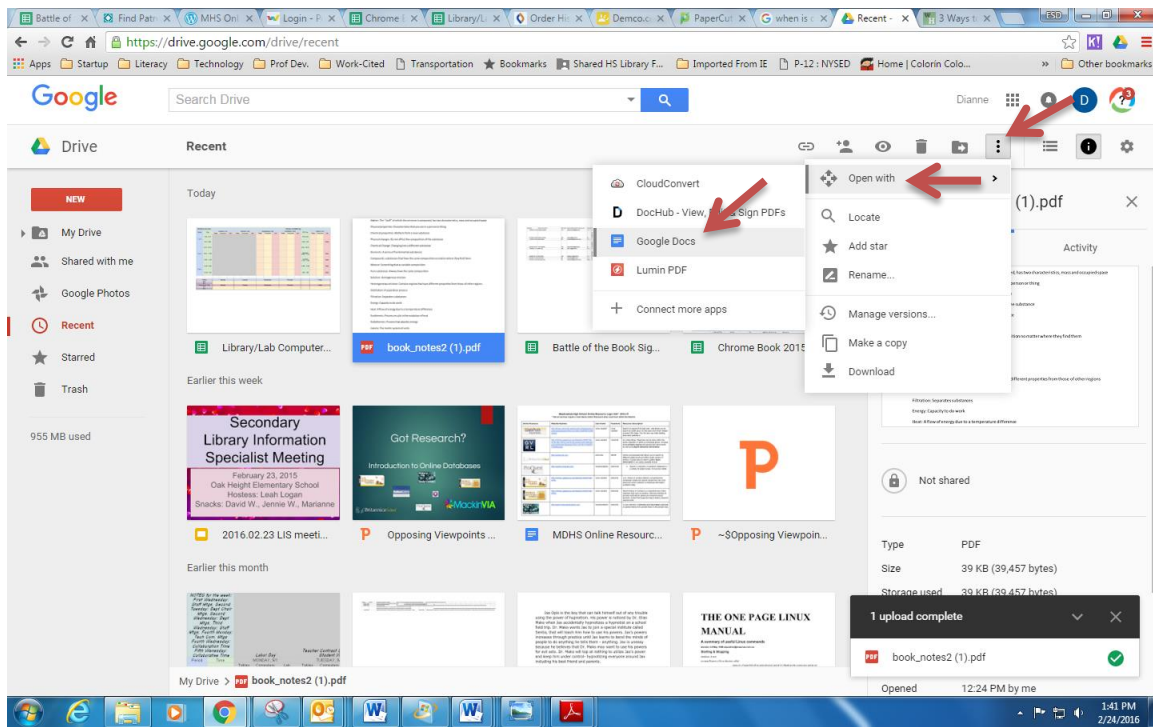

4) Now go back to your drive and click on **Recent** (under the Drive sidebar) then find your PDF and click only **ONCE** on the PDF document:

5) Then move your mouse to the top row of icons and select the three dots

And move your mouse over to the left to **open with** and select "google docs"

- 6) Now watch it convert and once it pops up you can change it freely!
- 7) Have fun!
