

Drivers Education Licensing Assistance Program, (D.E.L.A.P.)

D.E.L.A.P Is managed by the Department of Motor Vehicles for the State of Florida. It allows for our driver education teachers to issue a paperless waiver for the road test.

The teachers are considered Third Party Testers. The Volusia County School District is considered the Third Party Administrator.

A student who receives the paperless waiver should not be expected to take the road test when they receive their permanent license at the DMV. This waiver is received after a student passes the road test given by the driver education teacher.

The Department of Motor Vehicles however, can re-test at their discretion a teen driver regardless of a student receiving the waiver during the program.
