

FLORIDA FAM

SUNSHINE CHAPTER

about

The Federation for Advanced Manufacturing Education (FAME) is a nationally recognized program based on Toyota's Advanced Manufacturing Technician (AMT) program. The earn-while-you-learn model provides students the pathway to earn an industry recognized degree while gaining valuable experience at a sponsoring company. In 2 years, graduates of the program earn an Associate degree, and log approximately 1,800 on-the-job hours at their sponsoring company. If selected, students participate in the 40-hour per week training program where they attend college two days a week and work three days a week (at least 24 hours) at their sponsoring company.

PROGRAM ELIGIBILITY

Employers will review and select potential students based on the following criteria:

- Be 18 years of age by program start date
- Have a High School Diploma or GED
- Be a US citizen or eligible for work in the U.S.
- Demonstrate academic success as measured through grades and class rank
- Commitment to remaining drug-free

CONTINUED ELIGIBILITY REQUIREMENTS

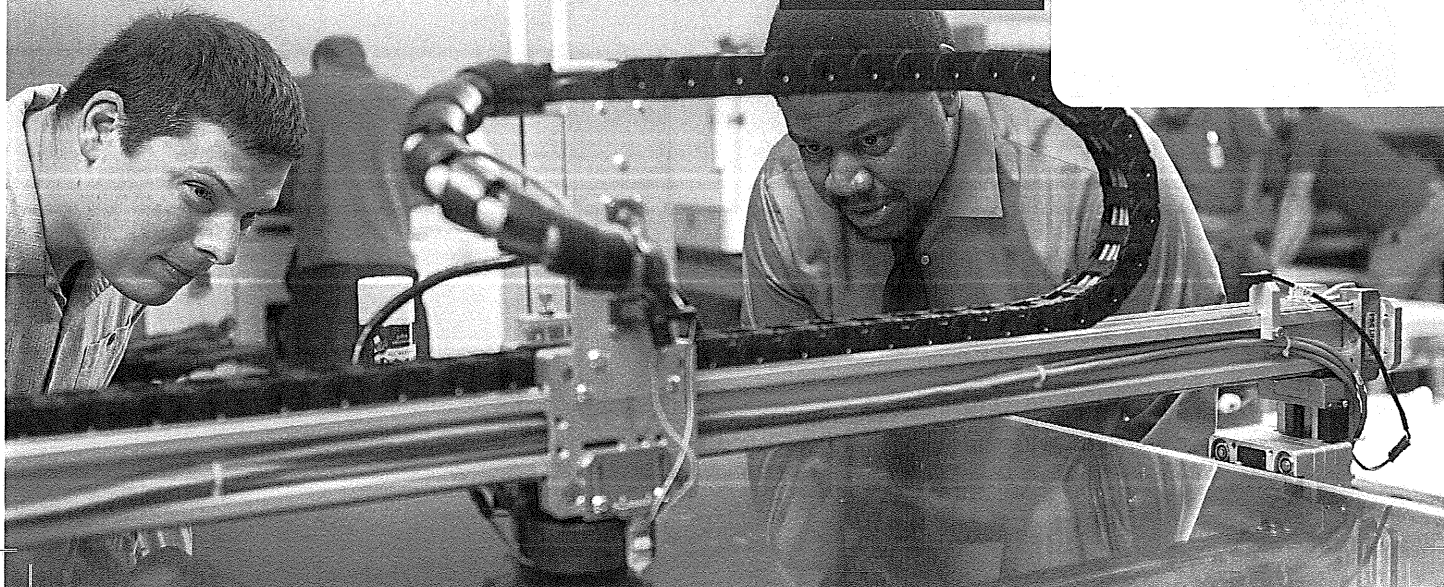

- Minimum of C or better in all courses throughout the program

In partnership with

VMA

...the Region's #1 Resource for Manufacturers

Volusia Manufacturers
Association
200+ employers

Why is FAME the right choice for you?

- Career development throughout the program, leading to potential employment at an advanced level
- Enhance soft skills and professional practices including work attendance, initiative, interpersonal relations, teamwork, communication, and more
- Potentially zero student-loan debt

How do students apply?

Visit the college's website www.daytonastate.edu/fame and follow the steps in the Application Checklist

What is the employer's role in the program?

In addition to providing three days a week of work, the employers will provide mentorship and valuable hands-on experience to the students

What are the benefits to business and employers?

- Increased level of skill of the employees in the manufacturing industry
- Opportunities to promote the manufacturing industry within the community
- A ready workforce pipeline of well trained employees
