1. Open the Skitch app and choose and choose from camera, photos, map, web, PDF, or draw.
2. If you choose camera, snap a photo and then click MORE TOOLS top of the screen to get the options of: undo, crop, clear all annotations, or rotate. Click ARROW in WHITE circle to access more tools:
   A Draw a rectangle to blur a sections of our photo
   B This tool gives you a smiley emoji that has an arrow you can rotate to point to something.
   C This tool gives you an X icon that has an arrow you can rotate to point to something.
   D This tool allows you to annotate on your photo.
   E This tool allows you to "box off" sections of your photo.
   F This tool allows you to add text to your photo.
   G This tool closes and opens the toolbox.
3. Choose colors and thickness of writing as well as export using the SHARROW.
4. Export to a variety of places.
