COMMENTS

It was such a joy to have the children back at school. Teachers shared that their returning students came in ready to get down to work and asked for their work plans right away!

We had the excitement of the solar eclipse, and with the foresight of one of our teachers to do the ordering, CAC funds paid for 200 pairs of approved safety glasses. Every student & staff were able to go outside throughout the eclipse to see it in action. The Smart TVs also had the NASA station on to see the eclipse in totality.

My first Principal's Café allowed me to introduce our new dean, Teci Jarnagin. At my request, she spoke about the importance of Practical Life at all ages (Teci is 2½ - 6, 6-9 & 9-12 trained & experienced). We then discussed with parents how to incorporate Practical Life skills in the home to developing independence.

We have completed all of the Back to School Parent Orientations with excellent turnouts. At staff meetings, we have discussed the expectations for the new initial parent meetings, which we feel will be beneficial by building relationships with the parents earlier in the school year.

My accolades go to the office staff who not only were busy all summer getting things ready for the start of school, but who have been inundated with parents, students, & teachers asking questions and needing assistance for the past three weeks. What would we do without them?
