## **CMP policy statement relative to established SUBSTITUTE PAY RATES For Regular CMP Employees working as Classified Substitutes**

Effective with payroll period commencing January 1, 2017 or later, and as approved by the CMP Governing Board:

A special exception to the stated classified substitute rates shall occur when the substitute worker is a regular CMP classified employee who is temporarily called in to cover hours or duties outside of the employee's regular work assignment.

A temporary assignment shall be classified as one that provides coverage for another employee regularly hired for a particular work assignment or shift, when the regular employee is not able to report for duty as assigned due to illness or other identified/approved reason.

In the case of employee substitute service that falls under this policy statement, the employee fulfilling the temporary role will receive her/his rate of pay as earned in the employee's regular daily work assignment for the particular employment year, not including any supervisory or departmental stipends (i.e. Club Montessori Coordinator stipend, Special Education stipend, etc.). A copy of the employee's regular pay scale shall be attached to this form, along with the signature of the Executive Director or the appropriate human resources designee to qualify the temporary employee for the prevailing wage rate.

In the event that a regular CMP employee holds more than one work assignment and thus, more than one designated hourly rate, the rate that most closely matches the substitute work assignment shall be the prevailing rate. Criteria to be considered are: the time of the substitute assignment and the duties of the substitute assignment, pursuant to the employee's regular job duties. Selection of the correct prevailing rate shall be facilitated by the Director of Human Resources with final approval by the Executive Director.
