RANGER ROUND UP

From the Principal's Desk

Over the last month or so, I found myself walking around LHS well after school has been let out and couldn't help but be reminded of the famous song, "New York, New York." One of the lines proclaims, "I want to wake up in that city that doesn't sleep," which could have been written about Lakewood High School, too.

No matter where I went, I ran into students who were working late in the evening to prepare for whatever extracurricular activity they were involved in. There were students singing, dancing, acting, and building sets for the Addams Family. I watched students heading to Mock Trial and Academic Challenge practices to be ready for their big contests. I witnessed our orchestra students practicing with the Cleveland Orchestra in preparation for the fantastic community concert at the Civic Auditorium. The Dance Club was having a last-minute rehearsal before the big shows.

I've also had the pleasure of seeing our students engaged in all sorts of community service projects. Our students in H2O give up their afternoons, weekends, and even holidays to support projects that make our world a better place. Way before school starts, Key Club members come through the doors to partner with the Kiwanis Club. Our students played an important role in the highly successful Pizza Bake-Off last week.

Of course, I have seen our student-athletes working hard each night and morning to prepare for the next contest or next season. Athletes are hard at work in the weight room, gym, track, pool, and fields all year long. All that fans see is the end result, but I have witnessed first-hand all of the effort and time that is put in to be prepared for each contest.

In addition to our students, each day I see adults who give up their precious time working late in the evening and over the weekends to support our students. Our club advisors, Music and Athletic Boosters, After Prom Committee members, parent volunteers, and PTA are always somewhere to be found making things better for our school.

Although we may not be as large as the Big Apple, this little part of the world sure has a lot going on after hours. I am grateful for all of the students and adults who make LHS seem like a city that doesn't sleep, and I couldn't be more proud of all those who do.

Start spreading the news….

Superintendent's Message

On March 17, the District will have a 4.9 mill combination levy (3.9 mill operating and 1 mill permanent improvement) on the ballot. Issue 28 would cost taxpayers less than $2 a month more than they currently pay, based on a property valuation of $100,000.

Funding from this levy will allow the district to:

- Offer more counseling, mental health and health services for students
- Retain and recruit high-quality teachers by paying them competitive salaries
- Expand STEM offerings to prepare students for their futures.
- Keep educational technology and other learning materials up-to-date.
- Maintain our community's investment by keeping all our buildings, athletic fields, vehicles, and other assets in good condition.

Due to strong financial management, the District has stretched the last operating levy nearly seven years. However, in 2020 our expenses have begun to outpace revenue and additional investment is needed now to keep our schools and community strong. We are grateful for the community's support and commitment to our schools and our students. Strong schools equal a strong community.

2020 Census FAQ

What is the census?

The census is a count of every person who lives in the United States and its territories. It happens every 10 years. In early 2020, you will be asked to count everyone who lives in your home as of April 1. Responding to the 2020 Census is a chance to shape your future.

What's in it for me?

Your responses inform where over $675 billion is distributed each year to communities nationwide for clinics, schools, roads, and more.

Census data gives community leaders vital information to make decisions about building community centers, opening businesses, and planning for the future.

Responding also fulfills your civic duty because it's mandated by the U.S. Constitution. The United States has counted its population every 10 years since 1790.

Your responses are used to redraw legislative districts and determine the number of seats your state has in the U.S. House of Representatives.

Is my information safe?

Your responses to the 2020 Census are safe, secure, and protected by federal law. Your answers can only be used to produce statistics. They cannot be used against you by any government agency or court in any way—not by the FBI, not by the CIA, not by the DHS, and not by ICE.

When can I respond to the census?

In early 2020, every household in America will receive a notice to complete the census online, by phone, or by mail. In May, the U.S. Census Bureau will begin following up in person with households that have yet to respond.

What will I be asked?

You will be asked a few simple questions, like age, sex, and the number of people who live in your home, including children.

What won't be asked?

The census will never ask for Social Security numbers, bank or credit card numbers, money or donations, or anything related to political parties.
