

# Skills for Success

## Early Childhood Education

My name is Olivia Vuyancih...I attend Walsh University in North Canton, Ohio and am studying to be an Early Childhood Intervention Specialist. I also am a psychology minor and I plan to obtain my Teaching English to Speakers of Other Languages certification so there isn't much down time. I enjoyed everything about the Early Childhood Education (ECE) program...My site (Lincoln Elementary) was a great experience and helped me develop into a better educator. I also enjoyed the creative experience journals because it allowed me to see what future activities should be like and how I can incorporate different concepts into my future classroom.

**This was a great program and I am so glad I took it! It was one of the highlights of my HS career and I am forever grateful for every opportunity I received because it not only gave me experience, but also prepared me in ways to become a great educator.**

If you want to work with kids of any age, this is definitely the program for you. Even if you don't want to go into the education field, it's still a great program that can help you with many different aspects of life.

Olivia Vuyancih, Class of 2020
