

# Skills for Success

## Early Childhood Education

I attended the Early Childhood Education program at West Shore Career-Tech from 2016 through 2018. I started working at Lakewood Catholic Academy (LCA) during my senior year in high school, After graduation, I continued my work at LCA and currently work as an assistant teacher in the Infant and Twos room.

**I learned so many things that helped shape me into who I am today. I learned to always have patience while working with younger children and to take initiative in all efforts in your work and everyday life.**

Early Childhood Education was such a fun program and Ms. Stephenson taught me important education aspects to incorporate into my job at the child care center.

Ava Tashro, Class of 2018
