

## CandleEyebra\*

### Supplies:

Small drinking glass/votive holder (clear glass)  
Black construction paper/scrapbook paper  
Modge podge  
Hole punch  
Googly eyes or sharpie marker

Tear black paper into small pieces.  
Punch two circles for eyes in each piece of paper.  
Modge podge several of the papers all over the glass (holes will be all over)  
Glue small googly eyes into center of each hole. (or use sharpie marker to draw the eyes)

The effect is a votive candle in which several pairs of eyes are lit up all around the candle holder.
