POLICY 5-4.1 LICENSED PERSONNEL: CONDITIONS OF EMPLOYMENT

Generally

The Poquoson City School Board accepts the licensed instructional personnel/student ratio as expressed in the Standards of Quality adopted by the Virginia General Assembly. The School Board commits itself to achieving and maintaining this ratio only to an extent proportionate to the funding thereof provided by the General Assembly.

Teachers employed in the Poquoson City Public Schools shall hold currently valid teachers' licenses in accordance with Virginia Board of Education Regulations Governing Licensure of School Personnel.

In addition to other requirements set forth in federal and state law and elsewhere in School Board policies, the School Board shall consider the following criteria in selecting teachers and other licensed professional staff: educational training, professional attitudes, professional competence, scholarship, successful experience and character.

Teachers are encouraged to take classes regularly for self-improvement and to attend and participate in workshops and conferences that will improve their expertise in their areas of instruction. Teachers should manifest a thorough knowledge of the subjects they teach, have a deep commitment to the success of children and youth, demonstrate a positive attitude for working harmoniously with others and possess the ability to discover and develop the potential of their students.

Qualifications

In order to qualify for appointment as a teacher in the Poquoson City Public Schools, each applicant shall:

1. Be a citizen of the United States, (if not a citizen, an applicant may be granted a one-year license upon recommendation of the Division Superintendent), be at least eighteen (18) years of age and possess good moral character.
2. Have good health and no disqualifying physical or emotional disabilities, subject to the protections and provisions of the Americans with Disabilities Act (ADA). Consistent with the ADA, evidence of physical fitness to teach may be required from a qualified and designated physician.
3. Present acceptable recommendations on his/her teaching experience, provided that he/she is not a beginning teacher. Such recommendations should include those of his/her most recent principal, Division Superintendent or supervisor.
4. Hold a Virginia teacher's license endorsed for the area of teaching for which he/she is employed in accordance with regulations outlined in the Virginia Board of Education's Licensure Regulations for School Personnel.

POLICY 5-4.2 LICENSURE/RELICENSURE OF PROFESSIONAL STAFF

The Virginia Board of Education prescribes the requirements for certification of teachers and other school personnel. No teacher shall be regularly employed by the Poquoson City School Board or paid from public funds unless such teacher holds a license, Teach for America License, or provisional license issued by the Virginia Board of Education. Requirements for classroom teachers, special education, vocational education, school counselors, reading specialists, school psychologists, and visiting teachers/social workers are stated in the Regulations Governing Licensure of School Personnel. Complaints or disputes regarding licensure or approval of relicensure work or application of such work toward renewal of license are not grievable.

POLICY 5-4.3 LICENSED PERSONNEL: CONTRACTS

Generally

The Poquoson City School Board shall enter into written contracts with professional staff (including teachers, assistant principals, principals and directors) before such employees assume their duties. Written contracts for professional employees who are temporarily employed are not required. Contracts will be in the form permitted by the Virginia Board of Education's regulations, with special covenants added by the School Board as appropriate. Once offered a contract, employees shall return both copies of issued contracts, signed or unsigned, within one week (7 calendar days) following receipt of such contracts; otherwise, the contracts shall be declared null and void. Written contracts shall be signed by the Clerk of the School Board and the School Board Chairman after official action by the School Board (which approval shall be recorded in the minutes) before an individual is officially employed. Contracts shall be signed in duplicate with a copy furnished to each party.

The standard 10-month contract shall include 200 days, including (i) a minimum of 180 teaching days or 990 instructional hours and (ii) up to 20 days for activities such as teaching, participating in professional development, planning, evaluating, completing records and reports, participating on committees or in conferences, or such other activities as may be assigned or approved by the School Board.

Coaching contracts and contracts for extracurricular activity sponsorship assignments for which a monetary supplement is paid shall be separate and apart from the annual or continuing contract. Termination of such a contract supplement shall not constitute cause for the termination of the annual or continuing contract. For purposes of this policy, "extracurricular activity sponsorship" means an assignment for which a monetary supplement is received requiring responsibility for any student organizations, clubs, or groups except those activities that are conducted in conjunction with regular classroom, curriculum or instructional programs.

Reappointment of Licensed Personnel

Persons who are currently employed by the School Board and who seek reappointment for the succeeding school year shall file the standard form provided, "Letter of Intent to Reemploy." Such reappointment request shall be received by the principal of the school in which the applicant is employed and forwarded to the Coordinator of Human Resources.

Probationary Period of Licensed Personnel

All instructional personnel when newly employed in the Poquoson City Public Schools shall serve the full probationary period for three consecutive years in the Poquoson City Public Schools before becoming eligible for continuing contract status. Employment under a Teach for America License shall not satisfy the probationary requirement. Any instructional personnel who have achieved a continuing contract in another school division shall serve a one-year probationary period before becoming eligible for continuing contract status in Poquoson City. Probationary terms of service for principals and supervisors shall be consistent with applicable state law. With such funds as may be appropriated by the General Assembly for such purpose, the School Board shall provide each probationary principal, except probationary principals who have prior successful experience as principals, as determined by the School Board, a mentor, as described in guidelines developed by the Board of Education, during the first year of the probationary period, to assist such probationary principal in achieving excellence in administration. If a teacher, principal, or supervisor separates from service during his probationary period and does not return to service in Poquoson City by the beginning of the year following the year of separation, such person shall be required to begin a new probationary period. If a teacher who has attained continuing contract status separates from service and does not return to teaching in Poquoson City for a period longer than two years, such person shall be required to begin a new three-year probationary period.

The School Board shall provide to every first year probationary teacher a mentor to assist him in achieving excellence in instruction. Probationary teachers with prior successful teaching experience may be exempt from this requirement with approval from the Division Superintendent. Probationary teachers shall be

evaluated annually. The Division Superintendent shall consider such evaluations as one factor in making recommendations to the School Board regarding the employment of probationary teachers. If a probationary teacher's evaluation is not satisfactory, the School Board shall not reemploy such teacher.

Continuing Contracts

Teachers employed after completing the probationary period shall be entitled to continuing contracts during good behavior and competent service. The School Board may reduce the number of teachers, whether or not such teachers have reached continuing contract status, because of decrease in enrollment or abolition of particular subjects pursuant to Policy 5-3.7. Furthermore, nothing in the continuing contract shall be construed to authorize the School Board to contract for any financial obligation beyond the period for which funds have been made available. As soon after April 15 as the School Board budget is approved by the appropriating body, the School Board shall furnish each teacher a statement confirming continuation of employment, setting forth assignment and salary.

Release from Contracts

If a teacher who has not achieved continuing contract status receives notice of reemployment, he must accept or reject in writing within 15 calendar days of receipt of the notice. Written notice of non-renewal of the contract must be given by the School Board on or before June 15 of each year.

From the beginning of any school year through May 31 of that school year, a teacher (whether probationary or continuing contract) may seek employment and file applications for the next school year with other school divisions. The teacher may do so without notifying the human resources specialist. However, for any contracts offered to the teacher from other school divisions after June 15, the teacher must receive written release from his contract with the Poquoson City School Board prior to signing a contract with the prospective employer. On or after July 1 of any year, a teacher is bound by any contract entered with the School Board. A teacher may seek employment and file application for the next school year with other school divisions, however, a teacher should not accept a contract with another division unless and until he has secured a written release from the Poquoson City School Board. The School Board will grant releases from contracts after July 1 only for good cause shown, to be determined solely by the School Board. If the School Board declines to grant a request for release from a contract on the grounds of insufficient or unjustifiable cause, and the teacher breaches or expresses an intent to breach the contract, disciplinary action, which may include written reprimand or revocation of the teacher's license, may be taken pursuant to regulations prescribed by the Board of Education.

POLICY 5-4.4 TEACHER RESPONSIBILITIES AND DUTIES

Poquoson City Public School teachers are assigned to serve under the authority, direction and supervision of administrators, usually the building principals, who are designated by the Division Superintendent. The principal of the respective school, subject to approval by the Division Superintendent, may make special assignments.

The School Board expects that teachers will conduct themselves in a professional and appropriate manner regarding their instructional role in school. Whenever a teacher needs clarification in defining his professional responsibilities he should consult the principal. Specific teaching duties and responsibilities are listed in job descriptions located with the Coordinator of Human Resources.

All teachers shall acquaint themselves with and observe and enforce regulations prescribed by the Division Superintendent, the policies and regulations of the Poquoson City School Board and the applicable laws of Virginia.

Planning

Assignments for teachers will provide, when possible, designated times for planning during contract hours.

Extracurricular Activities - Assignments

Teachers may be assigned to those extracurricular activities regarded as part of the teaching assignment. Whenever possible extracurricular activities should be assigned after considering the interests and abilities of the teacher. The duties should be assigned as equitably as possible among the teaching personnel. Every teacher is expected to cooperate and assume his share of extracurricular activities that are assigned to him by the administration.

Committees

Numerous committees of the staff as well as lay-faculty groups work upon specific education and school problems as needed. Professional staff should participate on these committees as they are needed.

Investigating/Reporting Alcohol or Drug Use

Licensed and classified licensed employees who, in good faith with probable cause and without malice, act to report or investigate the activities of any student or any other person as they relate to alcohol or drug use or abuse in or related to the school or to any school activity, shall be immune from all civil liability that might otherwise be incurred or imposed as the result of the making of such a report, investigation or disclosure, as provided by applicable law. See **SUPERINTENDENT'S REGULATION 5-4.4 (A) GUIDELINE AND PROCEDURES FOR HANDLING SUSPECTED DRUG AND ALCOHOL CASES.**

Reporting Child Abuse or Neglect

Licensed personnel who have reason to suspect that a child is an abused or neglected child shall report the matter immediately to the building principal. Principals shall report such cases to the child abuse coordinator of the local Social Services Department as required by law. Personnel making the required reports are immune from civil and criminal liability connected therewith if the reports are made without bad faith or malicious intent.

The School Board shall post, in each Poquoson City Public School, a notice, pursuant to Virginia Code § 63.2-1509, that: (i) any teacher or other person employed in a public or private school who has reason to suspect that a child is an abused or neglected child, including any child who may be abandoned, is required to report, as soon as possible, but not longer than 24 hours after having reason to suspect a reportable offense of child abuse or neglect to local or state social services agencies or the person in charge of the relevant school or his/her designee; (ii) all persons required to report cases of suspected child abuse or

neglect are immune from civil or criminal liability or administrative penalty or sanction on account of such reports unless such person has acted in bad faith or with malicious purpose; and (iii) in cases evidencing acts of rape, sodomy, or object sexual penetration, a person who knowingly and intentionally fails to make the report required pursuant to this section shall be guilty of a Class 1 misdemeanor. The notice shall also include the Virginia Department of Social Services' toll-free child abuse and neglect hotline number. No person shall be required to make a report pursuant to this policy if the person has actual knowledge that the same matter has already been reported to the local department or the Department's toll-free child abuse and neglect hotline.

The School Board shall adopt a written interagency agreement with the local department of social services as a protocol for investigating child abuse and neglect reports made against school personnel, in accordance with Virginia Code § 63.2-1511.

POLICY 5-4.5 LICENSED PERSONNEL: PROFESSIONAL GROWTH

Generally

The Poquoson City School Board believes that the continuous educational growth of staff members both in educational techniques and subject depth is necessary for the continued improvement of the school division. The School Board, therefore, encourages the professional growth of staff members through college courses and other means as outlined in this policy.

Staff Development

There shall be an organized program of staff development for all employees of the School Board directed towards increasing their knowledge, improving their performance and generally upgrading the school division. The program shall be in compliance with the State Accreditation Standards and the Standards of Quality.

The goal of the School Board's professional development program is to provide better learning experiences in the classroom that result in a positive effect on student performance and attitude. This can be accomplished through the improved awareness and effectiveness of the staff. The professional development program consists of identifying the areas in which improvement is needed, establishing programs that are designed to achieve the desired results and implementing these programs with evaluation and revision as needed.

To increase proficiency in instructional leadership and management, the School Board shall provide a program of professional development for administrative personnel, including the division superintendent. This program shall include (1) training in the evaluation and documentation of teacher and administrator performance based on student academic progress; (2) the skills and knowledge of the administrative personnel; (3) THE Standards of Quality; (4) Board of Education regulations; and (5) the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents.

The School Board views its instructional personnel's proficiency with educational technology as vital to the school division's educational mission. Toward this end the School Board shall provide for a program of professional development in educational technology for all instructional personnel. Technical assistance on professional development shall be obtained from the Virginia Board of Education as needed.

The School Board will provide a program of high-quality professional development:

- (1) in the use and documentation of performance standards and evaluation criteria based on student academic progress and skills for teachers, principals and superintendents to clarify roles and performance expectations and to facilitate the successful implementation of instructional programs that promote student achievement at the school and classroom levels;
- (2) as part of the license renewal process, to assist teachers and principals in acquiring the skills needed to work with gifted students, students with disabilities, and students who have been identified as having limited English proficiency and to increase student achievement and expand the knowledge and skills students require to meet the standards for academic performance set by the Board of Education;
- (3) in educational technology for all instructional personnel which is designed to facilitate integration of computer skills and related technology into the curricula; and
- (4) for principals and supervisors designed to increase proficiency in instructional leadership and management, including training in the evaluation and documentation of teacher and principal performance based on student academic progress and the skills and knowledge of such instructional or administrative personnel.

In addition, the School Board will also provide teachers and principals with high quality professional development programs each year in:

- (1) instructional content;
- (2) the preparation of tests and other assessment measures;
- (3) methods for assessing the progress of individual students, including Standards of Learning assessment materials or other criterion-referenced tests that match locally developed objectives;
- (4) instruction and remediation techniques in English, mathematics, science, and history and social science.
- (5) interpreting test data for instructional purposes;
- (6) technology applications to implement the Standards of Learning; and
- (7) effective classroom management.

All instructional personnel are required to participate each year in professional development programs. The School Board will annually review its professional development program for quality, effectiveness, participation by instructional personnel, and relevancy to the instructional needs of teachers and the academic achievement needs of the students in the school division.

Staff Development Meetings

At designated times during the school year students will not attend school or will be dismissed early in order to free the staff for planning and staff development meetings. The Division Superintendent and designated administrators shall structure these sessions to make the best use of the available time. Since these meetings are a part of the required working day for staff members, attendance is mandatory.

In-service Days

Normally the School Board shall provide at least ten (10) days annually for planning, evaluation, and in-service training. At least two such days each year, as determined by the Division Superintendent, will be scheduled as an orientation period prior to the beginning of the school year. This period shall be devoted to orientating teachers and other employees in their duties and responsibilities for the ensuing school year and to providing such information as may be necessary or helpful for the efficient performance of assigned duties.

See **SUPERINTENDENT'S REGULATION 5-4.5(A) LICENSED PERSONNEL: PROFESSIONAL GROWTH**

See **SUPERINTENDENT'S REGULATION 5-4.5 (C) CERTIFICATION BY NATIONAL BOARD FOR PROFESSIONAL TEACHING STANDARDS**

Meetings, Conferences and Conventions

Generally

Employees may represent the school division at meetings and conferences without loss of pay with prior approval of the principal and Division Superintendent and/or his designee. Teachers who desire to attend meetings and conferences should put their requests in writing, giving details, including theme, place, time, cost, etc. When several teachers are attending a meeting or conference, teachers should ride together if possible to save travel cost.

See **SUPERINTENDENT’S REGULATION 5-4.5 (B) GUIDELINES FOR ATTENDING PROFESSIONAL CONFERENCES**

Teachers are expected to attend all faculty meetings, regular or called, held in their individual schools or if necessary in other schools, at the discretion of the principal.

2. Attire should be that which is commonly accepted in the community.
3. Dress should be exemplary of the students with whom the professional employee works.
4. Clothing should be appropriate to the assignment of the employee.

Application

If an individual teacher believes that informal clothing such as sportswear would be appropriate to his teaching assignment or would enable him to carry out assigned duties more effectively, he may request an exception from the principal or Division Superintendent. An attempt should be made on all levels to ensure that the above principles are applied equitably and consistently throughout the school division.

POLICY 5-4.7 LICENSED PERSONNEL: EVALUATION

The Division Superintendent shall supervise the establishment of a cooperatively developed procedure for adequate and periodic evaluation of the work of each Poquoson City School Board employee and maintenance of suitable evaluative records. The evaluation procedure shall allow for personnel evaluation appropriate to tasks performed by those being evaluated. The Board of Education Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents should be consulted during the development of the evaluation procedures.

The Poquoson City Public Schools administration periodically shall evaluate teachers and shall provide a written evaluation for each teacher. The purposes of this evaluation shall include the following: to assist teachers in improving the discharge of their duties; to help teachers recognize the extent to which they are attaining professional and division goals; and to improve the instructional program and educational services to children.

Evaluation should be a continuous process based upon cooperation, trust, and the achievement of predetermined objectives. The evaluation shall be the basis for the Division Superintendent's recommendation to the School Board for the continuation of employment.

Principals, Assistant Principals and Supervisors

The School Board shall delegate to the Division Superintendent the authority and responsibility to develop and implement a performance assessment system with clearly defined criteria for the performance evaluation of principals, assistant principals and supervisors that are consistent with the performance objectives set forth in the Board of Education's Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents. Such criteria shall include: (i) an assessment of the administrator's skills and knowledge, (ii) student academic progress and school gains in student learning, and (iii) effectiveness in addressing school safety and enforcing school discipline. Continuing contract principals and assistant principals shall be formally evaluated not less than once every three years and informally evaluated the other years. Principal evaluations shall include an evaluation of cultural competency.

Teachers

The School Board shall delegate to the Division Superintendent the authority and responsibility to develop and implement a performance assessment system for evaluating teachers that is consistent with the performance objectives set forth in the Board of Education's Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents. The procedure shall address: (i) student academic progress and (ii) the skills and knowledge of such personnel, including instructional methodology, classroom management and subject matter knowledge. The teacher evaluations shall include regular observation and evidence that instruction is aligned with the school's curriculum. The evaluations shall also include identification of areas of individual strengths and weaknesses and recommendations for appropriate professional activities. Evaluations shall include an evaluation of cultural competency. Principals shall receive training in the evaluation and documentation of employee performance as required by the Standards of Quality.

Teachers employed by the School Board who have achieved continuing contract status shall be formally evaluated at least once every three years and more often as deemed necessary by the principal, and they shall be evaluated informally during each year in which they are not formally evaluated. Any teacher who has achieved continuing contract status and who receives an unsatisfactory formal evaluation who continues to be employed by the School Board shall be formally evaluated in the following year after receiving the unsatisfactory evaluation. The evaluations referenced herein shall be maintained in the employee's personnel file. The Division Superintendent shall annually certify to the Virginia Department of Education division wide compliance with these provisions.

Employment Recommendations

The evaluation process shall be considered when making employment recommendations to the School Board pursuant to § 22.1-293 or 22.1-305 of the Code of Virginia.

The evaluation plan shall:

1. be a cooperative effort;
2. be a periodic and formal evaluation;
3. cover the significant aspects of the employee's service;
4. be available to the employee;
5. stimulate the employee to improve;
6. establish mutually agreeable standards of performance; and
7. provide a guide for employee self-appraisal.

POLICY 5-4.8 PROFESSIONAL STAFF RESEARCH AND PUBLISHING

Ownership of Materials

The Poquoson City School Board adopts the "work for hire doctrine" and shall hold the copyright to all employees' work produced at the instance and expense of the School Board and/or any of its administrative staff. Work made for hire is defined as materials prepared by an employee in connection with his job duties, and it includes instructional texts, tests, answer sheets and materials specifically commissioned.

Copyrights to works authored by employees on their own time, without expense to the School Board, and without instruction, direction, or control of the School Board or its employees are the sole property of that employee.

The Division Superintendent is authorized to accept resignations. A teacher may resign after June 15 of any school year consistent with the provisions of Policy 5-4.3 and only with the approval of the Division Superintendent.
