RE: Updated on Performance Evaluation and Professional Growth System Plan

At the Board meeting on April 12, 2017, you received a memo outlining the thoughtful work of the PEPG committee this year. At that time, I shared that throughout the year, we worked on revisions.

These revisions are the result of the collaborative work of the committee and are intended to provide clarity to educators and evaluators. To this end, we discussed the intent and purpose while working to clear up any language that might be ambiguous.

Here are the essential changes:

- The RSU 5 Professional Growth and Evaluation Handbook:
 - The Evaluation Cycle is now embedded into the handbook.
 - Small adjustments were made to the timeline with evaluator and educator input.
 - Peer Review was re-termed as Peer Feedback. Feedback from educators at all schools was considered by the committee.
 - The term "review" on the Decision Matrix was defined.
 - Student surveys were removed from the handbook as this is not part of the evaluation process per MDOE - Educator Effectiveness and Chapter 180.
- The Evaluation Rubrics:
 - A evaluation rubric was developed for the literacy and math strategists.
 - The "attendance" indicator in the classroom teacher rubric was revised by the collaborative work of the PEPG Committee.
- Appendices:
 - Small edits reflect the changes made to the handbook itself.
 - Addition to Appendix C includes a Student Growth Summary page.

Introduction

The Professional Growth and Evaluation System steering committee continues to work to develop an evaluation plan for RSU5 that emphasizes professional growth and continuous improvement while meeting the requirements of Maine law. For next year the committee recommends the return to a 3-year cycle with some modifications and additions, intended to make the model more efficient, transparent, and valuable for educators.

The model continues to include the Marshall rubrics to guide goal setting and for framing discussions between evaluator and educator. Additions to the model include Student Growth Measures and Peer Review activities that meet requirements set forth by the Maine DOE.

Evaluation Cycle and Timeline

In the year 2016- 2017 educators in RSU5 were assigned to a year within the 3-year cycle to begin the evaluation process. The year an educator is in on cycle, is indicated in their e-portfolio.

The Model

On an annual basis, educators engage in all components of the process (**Professional Practice**, **Professional Growth**, **Student Growth Measures (SLOs)**, and **Peer Feedback**, in year three of the cycle a continuing contract educator will receive a **Summative Effectiveness Rating**. Probationary educators will receive a summative evaluation annually. Educators who are placed on a Directed Growth Plan will be on an annual review cycle if growth targets are not met within the first year's timeline.

Professional Practice

Observation of the professional practice, the educator's work in the classroom, is the predominant component of the system. The Teacher Evaluation Rubrics developed by Kim Marshall serve as the basis for evaluating professional practices. These rubrics are focused on classroom teacher practices and do not address the specific roles of all professional staff. For those educators, separate rubrics have been and are being developed. (For a list of roles and their respective rubrics see Appendix.)

The evaluator will conduct four to five mini observations each year. After each mini-observation, the evaluator and educator will meet to have a short dialogue about the professional practices seen during the mini-observation. The post-observation meeting should ideally occur within two school days after an observation. The evaluator will enter brief observations, comments and/or questions in the educator's shared e-portfolio ideally within a week. The educator may add comments or initiate dialogue at any time, before or after the conversation.

At the annual review with his/her evaluator, the educator will complete a self-assessment using the Marshall rubrics. For Years 1 and 2 of the cycle, the evaluator will write a brief year-end summary, to be entered in the educator's e-portfolio. The evaluator may make recommendations for goal setting.

In Year 3 of the cycle, the evaluator will determine the summative effectiveness rating using the data collected in the educator's e-portfolio in the current cycle and SLO data. A copy of the Summative Effectiveness Rating sheet will be put in educator's personnel file in the Central Office.

Classroom instruction is the predominant source for mini observations. Other potential sources for mini observations may include:

Teacher websites

IEP meetings

PD days

RSU5 PROFESSIONAL GROWTH AND EVALUATION HANDBOOK

Review of portfolios
Planning meetings (lesson plans; short term and long term)
Attendance at parent conferences
PLC meetings
Evidence of parent communication (newsletters)

Professional Growth

Each year educators will identify one or two goals from the individual indicators within the six domains of the Marshall Rubrics. These goals should address areas of need, and may also be identified with the input of the building administrator. Educators will enter the goal statement into their shared e-portfolio by September 30th each year. Educators will complete a mid-year reflection on their goal progress by January 31st and a year-end reflection May 15. Evidence of meeting the goal will be demonstrated through the professional practice mini observations.

Student Growth Measures

Student growth or student learning outcomes (SLO) will constitute 20% of the final summative effectiveness rating.-The RSU5 SLO Handbook provides the guidelines and templates for educators developing SLOs. (See Appendix)

Not all professional educators are in roles for which student growth measures must be developed. For a list of roles that do not require student growth measures see Appendix.

Peer Feedback

Annually an educator will either observe in a colleague's classroom or invite a colleague to observe his/her classroom. The purpose will be for sharing, reflection, and improving practice. Educators will be responsible for providing documentation of a peer observation in his/her e-portfolio. In lieu of a classroom observation, peer feedback may include, but is not limited to, review of portfolios and other evidence offered to demonstrate an educator's performance.

Scheduling these opportunities will require flexibility and support from administrators and PLC members. Peer feedback is for professional growth purposes only.

Summative Effectiveness Rating

The summative effectiveness rating will be determined using a decision matrix. The weighting is 80% on professional practices and growth, and 20% on student growth (SLOs). During the year-end review meeting in Year 3, the evaluator will use the Summative Effectiveness Rating sheet to document the educator's rating. Those educators whose roles do not require an SLO are based 100% on the Professional Practice.

Using the Marshall Rubrics, the evaluator determines the educator's professional practice and growth rating. With data from 3 years of observations and goal setting, the evaluator provides a rating for each of the six domains, weighted evenly: Planning and Preparation for Learning; Classroom Management; Delivery of Instruction; Monitoring, Assessment, and Follow-Up; Family and Community Outreach; and Professional Responsibilities. Then a final rating is determined based on an average of the ratings in each domain. The four-level rating scale is "4- Highly Effective," "3- Effective," "2-Improvement Necessary," "1-Does Not Meet Standards."

The evaluator will apply the decision matrix together with professional practice rating and the SLO rating to determine whether an educator is Highly Effective, Effective, Needs Improvement, or Ineffective.

Decision Matrix
Summative Performance Rating Matrix

		<div style="border: 1px solid black; padding: 5px; text-align: center;"> Student Growth </div>			
		0 – 40 Ineffective 1	41-69 Needs Improvement 2	70 – 84 Effective 3	85 – 100 Highly Effective 4
<div style="writing-mode: vertical-rl; transform: rotate(180deg); text-align: center;"> Professional Practice </div>	Ineffective 1	Ineffective	Ineffective	Review	Review
	Needs Improvement 2	Needs Improvement	Needs Improvement	Needs Improvement	Needs Improvement
	Effective 3	Review	Effective	Effective	Effective
	Highly Effective 4	Review	Effective	Highly Effective	Highly Effective

Process for Review Rating

In most cases the component ratings generate a clear summative rating. When a significant disparity exists between the professional practice rating and the student growth rating, an evaluator does not assign a summative rating until a review is conducted and the disparity is resolved.

RSU5 PROFESSIONAL GROWTH AND EVALUATION HANDBOOK

The review includes, but is not limited to, an investigation and consideration of all evidence related to:

- The accuracy of the scoring process;
- The accuracy of the evaluator's judgments;
- The appropriateness of the assessments used to ensure student growth;
- The students included in the calculation of the student growth measure; and
- The appropriateness of the student growth target.

A second evaluator is brought in to confer and calibrate with the original evaluator. A decision will be made on the final rating of either needs improvement or effective.

Note: Under Chapter 180, two summative ratings of ineffective may lead to dismissal.

Professional Learning Community (PLC)

This model presupposes that all RSU5 educators are members of a Professional Learning Community (PLC) and that during the school year members will have time during their scheduled meetings to focus on their PEPG (PG&E) work.

Professional Development for Educators

Time will be dedicated at the beginning of the school year, before students return, for all educators to review the PEPG (PG&E) plan and to learn about updates so that all educators understand the expectations for the year. Regularly scheduled time throughout the year will be provided for peer review, collaboration, and reflection during weekly PLC meetings, monthly staff meetings, and district PD days.

All educators new to RSU5 will be introduced to the PEPG (PG&E) plan during New Educator Orientation, prior to the start of the school year. Training throughout the year will include:

- The Marshall Rubrics
- The Educator's E- Portfolio (which includes the observation, goal setting, and self-reflection templates)
- Overview of SLO writing and examples
- Assignment to a Professional Learning Community (PLC)

Training of Evaluators

Evaluators will calibrate the use of the evaluation tool on an annual basis. This may include, but is not limited to:

- Paired observations
- Observing video lessons and scoring
- Training in utilizing the Kim Marshall rubrics

Directed Growth Plan

The Directed Growth Plan is for continuing contract educators who need improvement and/or who may benefit from more support in meeting the RSU5 Professional Teaching Standards. Being placed on a Directed Growth Plan does not necessarily mean the educator is being considered for termination. This plan provides a good-faith effort to support and guide the educator to effectively meet the standards set forth in the RSU5 Professional Growth and Evaluation System.

Purpose

The purpose of the Directed Growth Plan is to:

- Enable a continuing contract educator to receive assistance in any of the RSU5 Professional Teaching Standards.
- Provide a structured process for a continuing contract educator, who by the determination of the administrator, needs improvement and/or may benefit from more support.
- Provide due process for administrative action.

The Directed Growth Plan is intended to provide the best possible likelihood for professional improvement. This more structured supervision is characterized by recognition on the part of the administrator that the educator needs assistance with one or more of the RSU5 Professional Teaching Standards. This process may be initiated at any time throughout the year. It will be clear at the end of the initial timeline whether the educator will continue on a Directed Growth Plan into a second year.

Process

The administrator shall provide a written identification of the problem and expectations for improvement in performance based on classroom observations and/or other identified problem areas with colleagues, students, or parents, using the Marshall rubrics as the reference point for effectiveness. The written statement shall be discussed with the educator within five (5) days of its receipt.

RSU5 PROFESSIONAL GROWTH AND EVALUATION HANDBOOK

Directed Growth Plan

The administrator and educator will develop a written Directed Growth Plan that will assist the educator in improving the identified problem area(s) using the Marshall rubrics as a guide.

This plan will include:

- Specific measurable goals relating to areas needing improvement
- Action steps/strategies for resolution of concerns. Possible action steps include analysis of student growth data, attendance at professional development workshops, visiting classrooms, working with strategists and/or coaches.
- Resources needed to accomplish goals
- Timeline for completion
- Evidence

Mini-observations and follow-up conversations will continue throughout the process. Progress toward meeting the goals as outlined within the plan will be monitored and documented. While the educator is on a directed growth plan, another building administrator will conduct a minimum of two mini-observations with follow-up conversations.

If the goals are met at the completion of the timeline, the educator will no longer be on a Directed Growth Plan. If there is evidence of significant progress in meeting the goals by the end of the initial deadline, the timeline may be extended. If there is no progress on meeting the goals, the educator's summative rating will be ineffective. Next steps will be determined in meeting with administration.

Teacher Evaluation Rubrics - Domains and Rating Scale

The RSU 5 teacher evaluation rubrics are those of Kim Marshall and his work on a teacher evaluation and supervision model.

Organization, Rationale, and Suggestions for Implementation

1. The rubrics have six domains covering all aspects of a teacher's job performance:

- A. Planning and Preparation for Learning
- B. Classroom Management
- C. Delivery of Instruction
- D. Monitoring, Assessment, and Follow-Up
- E. Family and Community Outreach
- F. Professional Responsibilities

2. The rubrics use a four-level rating scale:

- 4 – *Highly Effective* – Master teacher performance that meets very demanding criteria
- 3 – *Effective* – Solid, expected professional performance; teachers should feel good about scoring at this level

RSU5 PROFESSIONAL GROWTH AND EVALUATION HANDBOOK

- **2 – *Improvement Necessary*** – Performance is mediocre; no teacher should be content to remain at this level
- **1 – *Does Not Meet Standards*** – Unacceptable performance leading to an improvement plan, intensive support, and, if improvement isn't made within a reasonable amount of time, dismissal

3. These rubrics aim to provide a shared definition of the work teachers do with students and colleagues. To gather the information needed to fill out the rubrics at the end of a school year, evaluators make frequent, short, unannounced classroom visits (at least four to five per teacher per year); have a face-to-face coaching conversation after each one; regularly observe teachers in team meetings and other settings. **The rubrics should not be used as checklists during classroom visits or in post-observation conferences – their comprehensive scope and evaluative tone are likely to hamper thoughtful observation and effective coaching. Rather, the rubrics should inform teachers' work and evaluators' observations throughout the year and serve as a memory prompt and structuring protocol when it's time to evaluate the year's work.**

4. The rubrics should be used formally at two points: (a) As school opens, teachers self-assess, meet with their evaluators, and set 1-2 improvement goals; (b) At the end of the year, teacher and evaluator repeat this process and reach closure on the year's ratings.

5. The rubrics synthesize extensive research based on classroom and professional practices that affect children's learning. Although student achievement is not evaluated by the rubrics, it's reasonable to assume that in a well-run school (positive climate, professional working conditions, aligned curriculum, etc.) the more Effective and Highly Effective ratings a teacher has, the better students will do.

I. PLANNING AND PREPARATION FOR LEARNING

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Teacher:				
a Knowledge	Is expert in the subject area and up to date on authoritative research on child development and how students learn.	Knows the subject matter well and has a good grasp of child development and how students learn.	Is somewhat familiar with the subject and has a few ideas of ways students develop and learn.	Has little familiarity with the subject matter and few ideas on how to teach it and how students learn.
b Standards	Has a detailed plan for the year that is tightly aligned with high standards and ensures success on standardized assessments.	Plans the year so students will meet high standards and be ready for standardized assessments.	Has done some thinking about how to cover high standards and test requirements this year.	Plans lesson by lesson and has little familiarity with state standards and tests.
c Units	Plans almost all units with big ideas, essential questions, knowledge, skill, transfer, and non-cognitive goals covering most Bloom levels.	Plans most units with big ideas, essential questions, knowledge, skill, and non cognitive goals.	Plans lessons with some thought to larger goals and objectives and higher-order thinking skills.	Teaches on an <i>ad hoc</i> basis with little or no consideration for long range curriculum goals.
d Assessments	Prepares diagnostic, on-the-spot, interim, and summative assessments to monitor student learning.	Plans on-the-spot and unit assessments to measure student learning.	Drafts unit tests as instruction proceeds.	Writes final tests shortly before they are given.
e Anticipation	Anticipates students' misconceptions and confusions and develops multiple strategies to overcome them.	Anticipates misconceptions that students might have and plans to address them.	Has a hunch about one or two ways that students might become confused with the content.	Proceeds without considering misconceptions that students might have about the material.
f Lessons	Designs each lesson with clear, measurable, achievable goals closely aligned with standards and unit outcomes.	Designs lessons focused on measurable, achievable outcomes aligned with unit goals.	Plans lessons with some consideration of long-term goals.	Plans lessons aimed primarily at entertaining students or covering textbook chapters.
g Engagement	Designs highly relevant lessons that will motivate virtually all students and engage them in active learning.	Designs lessons that are relevant, motivating, and likely to engage most students.	Plans lessons that will catch some students' interest and perhaps get a discussion going.	Plans lessons with very little likelihood of motivating or involving students.

h Materials	Designs lessons that use an effective mix of high quality, multicultural learning materials and technology.	Designs lessons that use an appropriate, multicultural mix of materials and technology.	Plans lessons that involve a mixture of good and mediocre learning materials.	Plans lessons that rely mainly on mediocre and low-quality textbooks, workbooks, or worksheets.
i Differentiation	Designs lessons that break down complex tasks and address students' learning needs, styles, and interests.	Designs lessons that target several learning needs, styles, and interests.	Plans lessons with some thought as to how to accommodate special needs students.	Plans lessons with no differentiation.
j Environment	Uses room arrangement, materials, and displays to create an inviting climate and maximize student learning.	Organizes classroom furniture, materials, and displays to support unit and lesson goals.	Organizes furniture and materials to support the lesson, with only a few decorative displays.	Has a conventional furniture arrangement, hard-to-access materials, and few wall displays.

II. KNOWLEDGE OF STUDENTS

The Teacher:				
	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
a Expectations	Is direct, specific, consistent and tenacious in communicating and enforcing high expectations.	Clearly communicates and consistently enforces high standards for student behavior.	Announces and posts classroom rules and consequences.	Comes up with <i>ad hoc</i> rules and consequences as events unfold during the year.
b Relationships	Shows warmth, caring, respect, and fairness for all students and builds strong relationships.	Is fair and respectful toward and builds positive relationships.	Is fair and respectful toward most students and builds positive relationships with some.	Is sometimes harsh, unfair, and disrespectful with students and/or plays favorites.
c Respect	Creates a climate of respect and buy-in such that disruption of learning is virtually unthinkable.	Wins almost all students' respect and discipline problems are few and far between.	Wins the respect of some students but there are regular disruptions in the classroom.	Is not respected by students and the classroom is frequently chaotic and sometimes dangerous.
d Social-emotional	Implements a program that successfully develops positive interactions and social-emotional skills.	Fosters positive interactions among students and teaches useful social skills.	Often lectures students on the need for good behavior, and makes an example of "bad" students.	Publicly berates "bad" students, blaming them for their poor behavior.
e Routines	Successfully inculcates class routines up front so that students maintain them throughout the year.	Teaches routines and has students maintain them all year.	Tries to train students in class routines but many of the routines are not maintained.	Does not teach routines and is constantly nagging, threatening, and punishing students.
f Responsibility	Gets virtually all students to be self-disciplined, take responsibility for their actions, and have a strong sense of efficacy.	Develops students' self-discipline and teaches them to take responsibility for their own actions.	Tries to get students to be responsible for their actions, but many lack self-discipline.	Is unsuccessful in fostering self-discipline in students; they are dependent on the teacher to behave.
g Repertoire	Has a highly effective discipline repertoire and can capture and hold students' attention any time.	Has a repertoire of discipline "moves" and can capture and maintain students' attention.	Has a limited disciplinary repertoire and some students are not paying attention.	Has few discipline skills and constantly struggles to get students' attention.
h Efficiency	Skillfully uses coherence, momentum, and transitions so that almost every minute of classroom time produces learning.	Maximizes academic learning time through coherence, lesson momentum and smooth transitions.	Sometimes loses teaching time due to lack of clarity, interruptions, inefficient transitions, and off-task teacher behavior.	Loses a great deal of instructional time because of confusion, interruptions, ragged transitions, and off-task teacher behavior.

i Prevention	Is alert, poised, dynamic, and self-assured and nips virtually all discipline problems in the bud.	Has a confident, dynamic presence and nips most discipline problems in the bud.	Tries to prevent discipline problems but sometimes little things escalate into big problems.	Is unsuccessful at spotting and preventing discipline problems, and they frequently escalate.
j Incentives	Gets students to buy into a highly effective system of incentives linked to intrinsic rewards.	Uses incentives wisely to encourage and reinforce student cooperation.	Uses extrinsic rewards in an attempt to get students to cooperate and comply.	Gives out extrinsic rewards (e.g. free time) without using them as a lever to improve behavior.

III. DELIVERY OF INSTRUCTION

The Teacher:				
	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
a Expectations	Exudes high expectations, urgency, and determination that all students will master the material.	Conveys to students: This is important, you can do it, and I'm not going to give up on you.	Tells students that the subject matter is important and they need to work hard.	Gives up on some students as hopeless.
b Mindset	Actively inculcates a "growth" mindset: take risks, learn from mistakes, through effective effort you can and will achieve at high levels.	Tells students that effective effort, not innate ability, is the key.	Doesn't counteract students' misconceptions about innate ability	Communicates a "fixed" mindset about ability: some students have it, some don't.
c Goals	Shows students exactly what's expected by posting essential questions, goals, rubrics, and exemplars; virtually all students can articulate them.	Gives students a clear sense of purpose by posting the unit's essential questions and the lesson's goals.	Tells students the main learning objectives of each lesson.	Begins lessons without giving students a sense of where instruction is headed.
d Connections	Hooks virtually all students in units and lessons by activating knowledge, experience, reading, and vocabulary.	Activates students' prior knowledge and hooks their interest in each lesson and new vocabulary.	Is only sometimes successful in making the subject interesting and relating it to things students already know.	Rarely hooks students' interest or makes connections to their lives.
e Clarity	Presents material thoroughly but succinctly, using relevant and engaging examples.	Uses clear explanations and accurate examples to present material.	Attempts to provide explanations and/or examples, but presentation of some material is confusing, unclear or inaccurate.	Does not explain material or provide examples.
f Repertoire	Uses a wide range of well-chosen, effective strategies, questions, materials, technology, and groupings to accelerate student learning.	Orchestrates effective strategies, questions, materials, technology, and groupings to foster student learning.	Uses a limited range of classroom strategies, questions, materials, and groupings with mixed success.	Uses only one or two teaching strategies and types of materials and fails to reach most students.

g Engagement	Gets virtually all students involved in focused activities, actively learning and problem-solving, losing themselves in the work.	Has students actively think about, discuss, and use the ideas and skills being taught.	Attempts to get students actively involved but some students are disengaged.	Mostly lectures to passive students or has them plod through textbooks and worksheets.
h Differentiation	Successfully reaches virtually all students by skillfully differentiating and scaffolding and using peer and adult helpers.	Differentiates and scaffold instruction and uses peer and adult helpers to accommodate most students' learning needs.	Attempts to accommodate students with learning deficits, but with mixed success.	Fails to differentiate instruction for students with learning deficits.
i Nimbleness	Deftly adapts lessons and units to exploit teachable moments and correct misunderstandings.	Is flexible about modifying lessons to take advantage of teachable moments.	Sometimes doesn't take advantage of teachable moments.	Is rigid and inflexible with lesson plans and rarely takes advantage of teachable moments.
j Closure	Consistently has students summarize and internalize what they learn and apply it to real-life situations and future opportunities.	Has students sum up what they have learned and apply it in a different context.	Sometimes brings closure to lessons and asks students to think about applications.	Moves on at the end of each lesson without closure or application to other contexts.

IV. MONITORING, ASSESSMENT AND FOLLOW-UP

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Teacher:				
a Criteria	Consistently posts and reviews clear criteria for good work, with rubrics and exemplars of student work at each level of proficiency.	Posts criteria for Proficiency, including rubrics and exemplars of student work.	Tells students some of the qualities that their finished work should exhibit.	Expects students to know (or figure out) what it takes to get good grades.
b Diagnosis	Gives students a well-constructed diagnostic assessment up front, and uses the information to fine tune instruction.	Diagnoses students' knowledge and skills up front and makes small adjustments based on the data.	Does a quick K-W-L (Know, Want to Know, Learned) exercise before beginning a unit.	Begins instruction without diagnosing students' skills and knowledge.
c On-the-Spot	Uses a variety of effective methods to check for understanding; immediately unscrambles confusion and clarifies.	Frequently checks for understanding and gives students helpful information if they seem confused.	Uses mediocre methods (e.g., thumbs up, thumbs down) to check for understanding during instruction.	Uses ineffective methods ("Is everyone with me?") to check for understanding.
d Self-Assessment	Has students set ambitious goals, continuously self-assess, and take responsibility for improving performance.	Has students set goals, self-assess, and know where they stand academically at all times.	Urges students to look over their work, see where they had trouble, and aim to improve those areas.	Allows students to move on without assessing and improving problems in their work.
e Recognition	Frequently posts students' work with rubrics and commentary to celebrate progress and motivate and direct effort.	Regularly posts students' work to make visible their progress with respect to standards.	Posts some 'A' student work as an example to others.	Posts only a few samples of student work or none at all.
f. Interims	Works with colleagues to immediately use interim assessment data to fine tune teaching, re-teach, and help struggling students.	Promptly uses data from interim assessments to adjust teaching, re-teach, and follow up with failing students.	Returns tests to students and follows up by clarifying a few items that caused problems.	Is slow getting test results back to students and moves on without analyzing data and following up with students.

g. Tenacity	Relentlessly follows up with struggling students with personal attention so that virtually all reach proficiency.	Takes responsibility for students who are not succeeding and gives them extra help.	Offers students who fail tests some additional time to study and do re-takes.	Tells students that if they fail a test, that's it; the class has to move on to cover the curriculum.
h. Support	Makes sure that students who need specialized diagnosis and help receive appropriate services immediately.	When necessary, refers students for specialized diagnosis and extra help.	Sometimes doesn't refer students promptly for special help, and/or refers students who don't need it.	Often fails to refer students for special services and/or refers students who do not need them.
i. Analysis	Works with colleagues to analyze and chart data, draw action conclusions, and leverage student growth.	Analyzes data from assessments, draws conclusions, and shares them appropriately.	Records students' grades and notes some general patterns for future reference.	Records students' grades and moves on with the curriculum.
j Reflection	Works with colleagues to reflect on what worked and what didn't and continuously improve instruction.	Reflects on the effectiveness of lessons and units and continuously works to improve them.	At the end of a teaching unit or semester, thinks about what might have been done better.	Does not draw lessons for the future when teaching is unsuccessful.

I. PLANNING AND PREPARATION FOR LEARNING

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Strategist:				
a Knowledge	Is expert in the subject area and up to date on authoritative research on child development and how students learn.	Knows the subject matter well and has a good grasp of child development and how students learn.	Is somewhat familiar with the subject and has a few ideas of ways students develop and learn.	Has little familiarity with the subject matter and few ideas on how to teach it and how students learn.
b Standards	Has a detailed plan for the year that is tightly aligned with high standards and ensures success on standardized assessments.	Plans the year so students will meet high standards and be ready for standardized assessments.	Has done some thinking about how to cover high standards and test requirements this year.	Plans lesson by lesson and has little familiarity with state standards and tests.
c Supporting Teachers	Set goals using data to support teachers in planning almost all units with big ideas, essential questions, knowledge, skill, transfer, and non-cognitive goals covering most Bloom levels.	Set goals using data to support teachers in planning most units with big ideas, essential questions, knowledge, skill, and non-cognitive goals.	Set goals using data to support teachers in planning lessons with some thought to larger goals and objectives and higher-order thinking skills.	Has no goals for the instructional support, or sets goals that are inappropriate to either the situation or the needs of the students and staff.
d Assessments	Orchestrates a continuous cycle of identification, analysis, and response to formative and summative priorities.	Works with colleagues to identify, analyze, and use formative and summative assessment data to fine-tune teaching and identify priorities.	Demonstrates limited use of assessment data with colleagues.	Does not participate in assessment selection or analysis with colleagues.
e Anticipation	Anticipates students' misconceptions and confusions and develops multiple strategies to overcome them.	Anticipates misconceptions that students might have and plans to address them.	Has a hunch about one or two ways that students might become confused with the content.	Proceeds without considering misconceptions that students might have about the material.
f Engagement	Designs highly effective professional development that engages teachers in acquiring new instructional skills and new areas for growth.	Designs effective professional development that engages teachers in acquiring new instructional skills and new areas for growth.	Inconsistently engages teachers in acquiring new instructional skills and new areas for growth.	Is not successful in engaging teachers in new instructional skills.
g Resources	Designs lessons that use an effective mix of high quality, multicultural learning materials and technology. Suggests and seeks out new resources to enhance teachers' skills in implementing the districts' curriculum.	Designs lessons that use an appropriate, multicultural mix of materials and technology. Provides resources to enhance teacher skills when teacher initiated.	Plans lessons that involve a mixture of good and mediocre learning materials. Is not aware of outside resources to support teachers.	Plans lessons that rely mainly on mediocre and low-quality textbooks, workbooks, or worksheets. Is not aware of outside resources to support teachers.

h Environment	Builds a common school-wide understanding of ways to use room arrangement, materials, and displays to create an inviting climate to maximize student learning.	Consistently supports to teachers in organization of furniture and materials to support the lesson, with regular results.	Initiates support to teachers in organization of furniture and materials to support the lesson, with inconsistent results.	Does not address with teachers the conventional furniture arrangement, hard-to-access materials, and few wall displays.
i Long term planning	Plans for the year, month, week, and day relentlessly getting the highest-leverage activities done.	Plans for the year, month, week, and day keeping the highest-leverage activities front and center.	Comes to work with a list of tasks that need to be accomplished that day to meet long term goals, but daily interruptions often distract from working toward long term goals.	Daily work is frequently disconnected from big goals and time spent on insignificant/ tangential activities,

II. KNOWLEDGE OF STUDENTS

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Strategist:				
a Expectations	Is direct, specific, consistent and tenacious in communicating and enforcing high expectations.	Clearly communicates and consistently enforces high standards for student behavior.	Announces expectations but follow through is inconsistent.	Limited or articulation of expectations with no follow through.
b Relationships	Shows warmth, caring, respect, and fairness for all students and builds strong relationships.	Is fair and respectful toward and builds positive relationships.	Is fair and respectful toward most students and builds positive relationships with some.	Is sometimes harsh, unfair, and disrespectful with students and/or plays favorites.
c Respect	Creates a climate of respect and buy-in such that disruption of learning is virtually unthinkable.	Wins almost all students' respect and discipline problems are few and far between.	Wins the respect of some students but there are regular disruptions in the classroom.	Is not respected by students and the classroom is frequently chaotic and sometimes dangerous.
d Engagement	Gets students highly involved in focused work in which they are active learners, risk takers, and problem-solvers.	Has students actively think about, discuss and use the ideas and skills being taught.	Attempts to get students actively involved but some students are disengaged.	Does not actively involve students in lessons and materials used are of low quality.
e Efficiency	Skillfully uses coherence, momentum, and transitions so that almost every minute of classroom time produces learning.	Maximizes academic learning time through coherence, lesson momentum and smooth transitions.	Sometimes loses teaching time due to lack of clarity, interruptions, inefficient transitions, and off-task teacher behavior.	Loses a great deal of instructional time because of confusion, interruptions, ragged transitions, and off-task teacher behavior.
f Prevention	Is alert, poised, dynamic, and self-assured and nips virtually all discipline problems in the bud.	Has a confident, dynamic presence and nips most discipline problems in the bud.	Tries to prevent discipline problems but sometimes little things escalate into big problems.	Is unsuccessful at spotting and preventing discipline problems, and they frequently escalate.
g Understanding Learners	Has a good grasp of current child development theories as to how students learn and actively seeks new ideas.	Has a grasp of: child development, theories as to how students learn and is open to new ideas.	Has a few ideas of ways students develop and learn.	Has few ideas on how to teach developmentally appropriate lessons and how students learn.

III. DELIVERY OF INSTRUCTION

The Strategist:				
	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
a Learning Expectations	Provides professional staff development of uniformly high quality and responsive to the varied needs of the staff being served.	Provides professional development that is of high quality and appropriate to the needs of most of the staff being served.	Provides professional development that are of mixed quality with some of them being appropriate to the needs of the staff being served.	Provides professional development that is of poor quality or is not appropriate to the needs of the staff being served.
b Mindset	Actively inculcates a “growth” mindset: take risks, learn from mistakes, through effective effort you can and will achieve at high levels.	Tells students that effective effort, not innate ability, is the key.	Doesn’t counteract students’ misconceptions about innate ability	Communicates a “fixed” mindset about ability: some students have it, some don’t.
c Goals	Shows teachers exactly what’s expected by posting essential questions, goals, rubrics and exemplars; virtually all teachers can articulate them.	Gives teachers a clear sense of purpose by posting the unit’s essential questions and the lesson’s goals.	Tells teachers the main learning expectations of each lesson.	Begins lessons without giving teachers a sense of where instruction is headed.
d Collaboration with Teachers	Initiates and responds to collaboration with classroom teachers to design/plan highly effective instructional units and lesson, and share best practices. Carefully ensuring that teachers can transfer these skills independently to future lessons.	Initiates and responds to collaboration with classroom teachers to design/plan of highly effective instructional units and lesson, and share best practices.	Collaborates with classroom teachers in the planning/ design of instructional units and lessons when asked to do so.	Does not follow through when asked to collaborate with classroom teachers in the design of instructional lessons and units.
e Clarity of instruction	Presents material thoroughly but succinctly, using relevant and engaging examples.	Uses clear explanations and accurate examples to present material.	Attempts to provide explanations and/or examples, but presentation of some material is confusing, unclear or inaccurate.	Does not explain material or provide examples.

f Repertoire	Designs staff development that incorporate an appropriate mix of highly effective, diverse learning strategies and materials including technology.	Designs staff development that uses an effective, diverse mix of learning strategies and materials including technology.	Plans staff development that involves an inconsistent mix of effective and ineffective learning strategies and materials including technology.	Plans staff development that relies mainly on ineffective learning strategies and materials including technology
g Engagement	Is highly effective in engaging teachers to acquire new instructional skills and new areas for growth.	Is effective in engaging teachers to acquire new instructional skills and new areas for growth.	Is partially successful in engaging teachers in acquiring new instructional skills and new areas for growth.	Is not successful in engaging teachers in new instructional skills.
h Differentiation	Differentiates and scaffolds professional development to skillfully meet the learning needs and styles of all teachers.	Differentiates and scaffolds professional development to meet the learning needs of most teachers.	Attempts to meet the learning needs and styles of teachers, with mixed success.	Little evidence of differentiation is included in professional development.
i Coaching	Masterfully designs and tracks varied goal-specific coaching cycles and initiates techniques to ensure skills transfer to teachers' repertoire of practice.	Effectively designs coaching cycles and initiates technique to meet the specific need addressed	Sometimes designs coaching cycles and uses techniques to address needs. Coaching may not result in teachers gaining new skills.	Coaching cycles are haphazard or not well matched to need and often do not result in transfer of strategies or understanding.
j Closure	Consistently has students summarize and internalize what they learn and apply it to real-life situations and future opportunities.	Has students sum up what they have learned and apply it in a different context.	Sometimes brings closure to lessons and asks students to think about applications.	Moves on at the end of each lesson without closure or application to other contexts.

IV. MONITORING, ASSESSMENT AND FOLLOW-UP

The Strategist:		4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
a Criteria	Displays, distributes and reviews the criteria for proficient work and provides rubrics and exemplars.	Posts clear criteria for proficiency and provides rubrics and exemplars of student work.	Tells students some of the qualities that their finished work should exhibit.	Expects students to know (or figure out) what it takes to get good grades or skill acquisition.	
b Formal Assessments	Facilitates and models for teachers the purposeful use of pre-, formative and summative assessments to support teachers in the evaluation of student skill levels and inform instruction. Differentiation for staff members is evidenced.	Facilitates and models for teachers the purposeful use of pre-, formative and summative assessments to support teachers in the evaluation of student skill levels and inform instruction.	Uses formative and summative assessments, but depth and quality are inconsistent and/or does not provide scaffolding for the teacher.	Little or no evidence of engaging teachers in conversations about assessments.	
c Feedback	Is timely and conscientious in providing specific, constructive, meaningful feedback to promote teacher growth.	Is conscientious in providing specific, constructive, meaningful feedback to encourage teacher growth.	Provides general feedback, but is not always constructive or conscientious.	Does not provide meaningful, conscientious or constructive feedback.	
d Tenacity	Relentlessly follows up with/gives personal attention to teachers with students who are not progressing to help them maximize student growth.	Supports teachers with students who are not progressing.	Offers extra help but with limited follow-through; the onus is on the teacher to initiate support.	Does not offer extra help or support to teachers with students who are not progressing.	
e Reflection	Continuously reflects with colleagues on the effectiveness of professional development and anticipates and plans appropriate follow-up work with staff.	Reflects with colleagues on the effectiveness of professional development and continuously works to improve it.	May spend some time thinking about the relative effectiveness of professional development but similar roadblocks re-occur from session to session.	Does not draw conclusions for future professional development when difficulties arise.

Nurse demonstrates little or no knowledge of governmental regulations, community resources for students, and or those available through the school or district.
d. Planning the nursing program for both individuals and groups of students, integrated with the regular school program	Nurse's plan is highly coherent and serves to support not only the students individually and in groups, but also the broader educational program.	Nurse has developed a plan that includes the important aspects of work in the setting.	Nurse's plan has a guiding principle and includes a number of worthwhile activities, but some of them don't fit with the broader goals.	Nursing program consists of a random collection of unrelated activities, lacking coherence or an overall structure.
e. Establishing goals for the nursing program appropriate to the setting and the students served	Nurse's goals for the nursing program are highly appropriate to the situation in the school and to the age of the students and have been developed following consultations	Nurse's goals for the nursing program are clear and appropriate to the situation in the school and to the age of the students.	Nurse's goals for the nursing program are rudimentary and are partially suitable to the situation and the age of the students.	Nurse has no clear goals for the nursing program, or they are inappropriate to either the situation or the age of the students.
f. Developing a plan to evaluate the nursing program	Nurse's evaluation plan is highly sophisticated, with imaginative sources of evidence and a clear path toward improving the program on an ongoing basis.	Nurse's plan to evaluate the program is organized around clear goals and the collection of evidence to indicate the degree to which the goals have been met.	Nurse has a rudimentary plan to evaluate the nursing program.	Nurse has no plan to evaluate the program or resists suggestions that such an evaluation is important.

II. THE ENVIRONMENT

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Nurse:				
a. Creating an environment of respect and rapport	Establishes respect and rapport with Students so that they seek out the nurse, reflecting a high degree of comfort and trust in the student-nurse relationship.	Has positive and respectful interactions with students to cultivate comfort and trust in the student-nurse relationship.	Nurse's interactions with students are a mix of positive and negative.	Nurse's interactions with at least some students are negative or inappropriate.
b. Establishing a culture for health and wellness	Guides culture in the school towards health and wellness, while promoted by the nurses, is maintained by both teachers and students. III. DELIVERY OF SERVICE

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Nurse:				
a. Assessing student needs	Nurse conducts detailed and individualized assessment of student needs to contribute to program planning. Analyzes those results and shares it with colleagues, students and parents appropriately.	Conducts adequate assessments of student needs, analyzes the results and shares it with colleagues, students and parents as needed.	Nurse's assessments of student needs are perfunctory, but may not analyze and/or share the results with colleagues, students and/or parents appropriately.	Nurse does not assess student needs, or the assessments result in inaccurate conclusions, and/or results are not analyzed and/or shared.
b. Administering medications to students	Ensures that medications are administered by designated individuals, and signed release forms are signed and appropriately stored. Shares knowledge of medication and importance of compliance with students. Students take an active role in medication compliance.	Medications are administered by designated individuals, and signed release forms are appropriately stored and available when needed.	Medications are administered by designated individuals, but signed release forms are not appropriately stored.	Medications are administered with no regard to state or district policies.
c. Promoting wellness through classes or classroom presentations	The nurse is successful in promoting wellness through classroom presentations that inspire students to assume active roles in furthering a healthy lifestyle in the school.	The Nurse is successful in presenting the knowledge and attitudes that will help students acquire a healthy lifestyle through classroom presentations.	Nurse's efforts to promote wellness through classroom presentations are partially effective.	Nurse's work with students in classes fails to promote wellness.
d. Managing emergency situations	Nurse's plans for emergency situations have been developed for many situations. Ensures students and staff understanding of plans in case of emergencies.	Nurse's plans for emergency situations have been developed for many situations.	Nurse's plans for emergency situations have been developed for the most frequently occurring situations but not others.	Nurse has no contingency plans for emergency situations.
e. Demonstrating flexibility and responsiveness	Nurse is continually seeking ways to improve the nursing program and makes changes as needed in response to student, parent, or teacher input.	Nurse makes revisions in the nursing program when they are needed.	Nurse makes modest changes in the nursing program when confronted with evidence of the need for change.	Nurse adheres to the plan or program, in spite of evidence of its inadequacy.
f. Collaborating with professional staff to develop specialized educational programs and services for students with diverse medical needs	Nurse initiates collaboration with professional staff in developing instructional lessons and units, locating additional resources from outside the school.	Nurse initiates collaboration with professional staff in developing instructional lessons and units.	Nurse collaborates with professional staff in developing instructional lessons and units when specifically asked to do so.	Nurse declines to collaborate with professional staff to develop specialized educational programs.

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Nurse: g. Communicates and collaborates with Guidance and other Professional Staff	Nurse recognizes and promptly presents information about a student's welfare to key staff. Nurse designs and contributes to effective intervention based on a variety of sources.	Nurse recognizes behaviors and information that is relevant to other professionals and shares it. Nurse acts upon information provided by other staff.	Nurse shares relevant issues with staff in most instances and does consider information provided.	Nurse does not report relevant issues to guidance staff or act upon information provided.

IV. PROFESSIONAL RESPONSIBILITIES

	4 Highly Effective	3 Effective	2 Improvement Needed	1 Does Not Meet Standards
The Nurse:				
a. Reflecting on practice	Nurse's reflection is highly accurate and perceptive, citing specific examples. Nurse draws on an extensive repertoire to suggest alternative strategies.	Nurse's reflection provides an accurate and objective description of practice, citing specific positive and negative characteristics. Nurse makes some specific suggestions as to how the nursing program might be improved.	Nurse's reflection on practice is moderately accurate and objective without citing specific examples and with only global suggestions as to how it might be improved.	Nurse does not reflect on practice, or the reflections are inaccurate or self-serving.
b. Maintaining health records in accordance with policy and submitting reports in a timely fashion	Nurse's approach to record keeping (digital and/or otherwise) is highly systematic and efficient and serves as a model for colleagues across the school.	Nurse's reports, records, and documentation (digital and/or otherwise) are accurate and are submitted in a timely manner.	Nurse's reports, records, and documentation (digital and/or otherwise) are generally accurate, but are occasionally late.	Nurse's reports, records, and documentation (digital and/or otherwise) are missing, late, or inaccurate, resulting in confusion.
c. Communicating with families	Nurse is proactive in providing information to families about the nursing program and about individual students through a variety of means.	Nurse provides thorough and accurate information to families about the nursing program as a whole and about individual students.	Nurse provides limited though accurate information to families about the nursing program as a whole and about individual students.	Nurse provides no information to families, either about the nursing program as a whole or about individual students.
d. Participating in a professional community	Nurse makes a substantial contribution to school and district events and projects and assumes leadership role with colleagues.	Nurse participates actively in school and district events and projects and maintains positive and productive relationships with colleagues.	Nurse's relationships with colleagues are cordial, and nurse participates in school and district events and projects when specifically requested to do so.	Nurse's relationships with colleagues are negative or self-serving, and nurse avoids being involved in school and district events and projects.
e. Engaging in professional development	Nurse actively pursues professional development opportunities and makes a substantial contribution to the profession through such activities as offering workshops to colleagues.	Nurse seeks out opportunities for professional development based on an individual assessment of need.	Nurse's participation in professional development activities is limited to those that are convenient or required.	Nurse does not participate in professional development activities, even when such activities are clearly needed for the development of nursing skills.
f. Showing professionalism	Nurse can be counted on at all times to hold the highest standards of honesty, integrity, and confidentiality and to advocate for students, serving as a role model for colleagues.	Nurse displays high standards of honesty, integrity, and confidentiality in interactions with colleagues, students, and the public; advocates for students when needed. Set Ambitious and Measurable Goals	At Level 4, a school social worker fulfills the criteria for Level 3 and additionally: plans annual goals at targeted and individual levels	School social worker develops culturally competent student goals that are: measurable and include benchmarks to help monitor progress and inform interventions throughout the year.	School social worker develops annual student goals that are: measurable; the goals typically do <i>not</i> include benchmarks to help monitor student progress and inform interventions throughout the year.	School social worker rarely or never develops achievement goals for interventions OR goals are developed, but are extremely general and not helpful for planning purposes.
c. Utilize Standards-Based Assessments and Interventions	At Level 4, a school social worker fulfills the criteria for Level 3 and additionally: plans well-designed progress – monitoring assessments for each intervention. These plans include opportunities to assess periodic response to the intervention and adjustments to the intervention, both in terms of frequency and duration to better meet the identified goal.	Based on goals, school social worker plans culturally competent interventions by: identifying evidence-based interventions, strategies and practices specific to the identified need, determining a base-line measure from which to determine a measureable outcome, and allocating an appropriate amount of time in which to achieve the identified goal.	School social worker plans culturally competent interventions by: utilizing information from school referral form and student interview. School social worker typically does not: complete a thorough data search of relevant school and community data prior to developing individual and/or group intervention strategies, utilize relevant research-based assessment tools.	School social worker rarely or never plans assessments and/or interventions that are evidence-based OR there is little to no evidence that the school social worker plans interventions at all.
d. Progress tracking and recording for the purposes of intervention analysis	At Level 4, a school social worker fulfills the criteria for Level 3 and additionally: uses school-wide, group and individual data to understand the larger issues impacting sub-populations in the school community such as disproportionality, the achievement gap, access to mental health and basic needs, etc. in order to better advocate for students impacted by such issues.	School social worker uses an effective progress monitoring system to: regularly track and record student progress, use the data to inform interventions, conform to ethical codes and standards of practice.	School social worker uses an effective system to: track student progress, record student progress, record student data. School social worker typically does not: use the data to monitor and adjust the intervention, conform to ethical codes and standards of practice such as maintaining the confidentiality of counseling sessions and case records.	School social worker rarely or never tracks and records student progress in case notes.

School social worker is unable to advocate for students or families due to lack of knowledge.
b. Prevention Services	School social worker is highly effective in accessing and analyzing school data. The school social worker is also highly proficient in identifying and implementing evidence-based prevention strategies to meet school community and student client needs. For Level 4, all of the evidence listed under Level 3 is present, as well as the following: school social worker is aware of the implications of the data analysis for student clients (such as disproportionality) and advocates for, as well as implements when appropriate, prevention strategies to address any barriers to student success.	School social worker is effective in accessing and interpreting school data. The school social worker is also proficient in identifying and implementing evidence-based, culturally competent prevention strategies to meet school community and student client needs. School social worker routinely is involved in school wide data review and analysis, and is prepared to identify and implement school wide prevention programs and practices.	School social worker needs improvement in accessing and analyzing school data. Improvement is also needed in accessing and analyzing school data. Improvement is also needed in the identification and implementation of evidence-based prevention strategies to meet school community and student client needs. School social worker is prepared to allocate time for prevention services, and does so in a limited way with individual clients but is not involved in school wide data review and analysis, and is unprepared to identify and implement school wide prevention programs and practices.	School social worker is ineffective in identifying student and school community needs and providing appropriate, evidence-based prevention strategies to address them. School social worker is not involved in school wide data review and analysis, is unaware of the implications of the data analysis for student clients, and is unprepared to identify and implement prevention programs and practices.

Introduction

What is a Student Learning Objective (SLO)?

Student Learning Objectives are measurable, instructional goals established for a specific group of students over a set period of time. SLO serve as one of the measures of student growth established by Maine's Educator Effectiveness Law. The law requires multiple measures to evaluate teacher performance and in the RSU5 Professional Growth and Evaluation process, student learning and growth represent 20% of an educator's summative effectiveness rating.

Why student learning objectives (SLOs)?

RSU5 recognizes that setting rigorous and feasible learning targets, aligning practice and instruction to achieve those targets, monitoring student progress, and using high quality assessments are key elements of teaching.

RSU5 currently uses the Professional Learning Communities model along with SMART goals. The addition of SLOs is an opportunity to use this established best practice to improve student learning and growth as part of the educator summative effectiveness rating.

The SMART goal process simply uses different terms and key questions. Most notably, how an educator will know when children have learned; how will s/he respond when children have not; and how will s/he respond when they have; are essential.

Specific	
Measurable	Baseline data to growth target assessments
Attainable	Know instructional cohort. Monitor student progress
Relevant	Essential Learning, priority standards
Time-Bound	Length of learning experience clearly defined

RSU5 Strategy for Improvement

The RSU believes that Professional Learning Community work ensures the focus shifts from teaching to learning. Data inquiry is fundamental; knowledge of current performance levels is essential for appropriate goal setting. Setting goals for student learning is a key characteristic of high performing schools. What is our current reality and where do learners need to be?

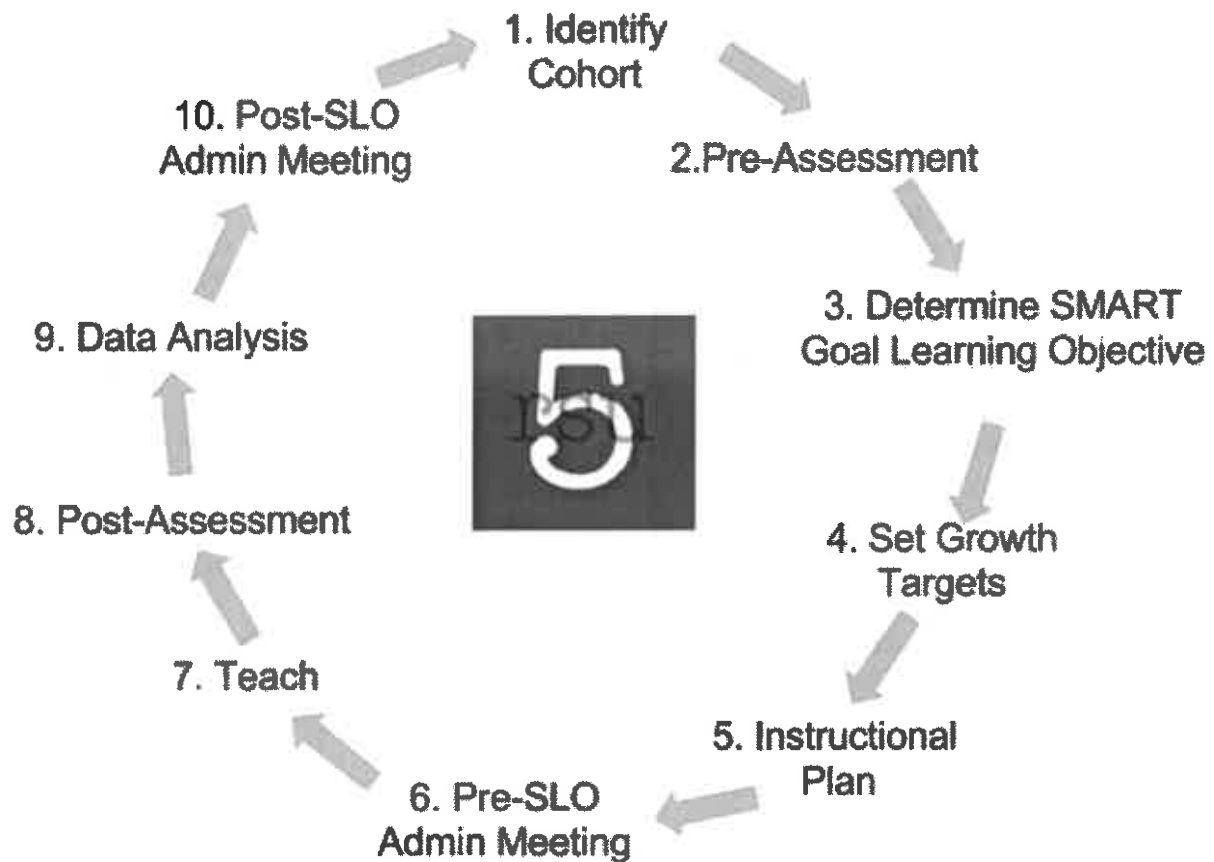

Educator collaboration is key. We know teachers learn from one another. Planning and creating learning experiences for students and using high impact strategies have the greatest impact. Developing action steps to achieve the goal is essential.

Aligning the SLO / SMART Goal Process

This handbook contains a template that describes the process RSU5 teachers will follow to document the process. It is expected that educators will participate in a PLC and annually complete an SLO. In most cases, this will be done collectively with a cohort of educators at a grade level, course level, or content area. However, with administrator approval, an educator may elect to develop and be evaluated by developing his/her own SLO. Every 3rd year in the cycle, an educator will go through a summative appraisal where the SLO will be incorporated into his/her teacher evaluation.

Maine's law requires educators in grades 4-8 to do an additional goal tied to the MEA assessment. For these educators, the MEA assessments will count as a second SLO annually.

Implementation Overview

Student Learning Objectives (SLO) Process

1. Identify your cohort

- If you are a K-5 teacher, your cohort is some or all of your class.
- If you are a grades 6-12 teacher or specialists, you will choose a cohort (a section, or two sections of the same class).
- If you are a special education teacher, if you teach a class of 3 or more, you will use them as your cohort. If you don't teach a class, you will share the same goal as a classroom teacher with whom you work closely.
- What is the make-up of your cohort?
- How many students have IEPs, ILAPs, 504s, are in RTI, etc.?
- Consider previous test scores if needed (F&Ps, NWEAs, etc.)

2. Pre-Assessment and data collection

- Create an appropriate summative assessment to gather relevant data
- If you teach K-5, you will likely use a pre-made assessment from one of the provided curriculums (Reader's Workshop; Writer's Workshop; Everyday Math; F&P, etc.)
- Types of assessments:
 - Selected response* - true/false; multiple-choice; fill-in-the-blank; matching
 - Written response* - short or extended answer essays
 - Performance response* - students demonstrate their knowledge through a tangible product or performance (demonstrations; artifacts)
 - Personal communication* - structured and unstructured interactions
- When to use specific assessment types (suggested):

Selected response	Math, Science, Social Studies
Written response	All subjects
Performance response	World Languages, SPED, ESL Elementary - later in the school year Elementary - reading fluency (throughout the year)
Personal communication	World Languages, SPED, ESL

- Examples of types of assessments and their pros/cons:

Type of Assessment	+	-
Selected Response (SR)	<ul style="list-style-type: none"> quick specific 	<ul style="list-style-type: none"> no higher level thinking quick to assess

Selected Response cont.	<ul style="list-style-type: none"> ● recall ● good test-taking students 	
Written Response (WR)	<ul style="list-style-type: none"> ● show what they know ● higher level thinking ● step up from SR ● more skills involved 	<ul style="list-style-type: none"> ● Student whose ability to write doesn't equal their ability to think ● time consuming ● difficult for LD/ELL ● more skills involved
Performance Assessments (PA)	<ul style="list-style-type: none"> ● real-life skills ● student choice ● more language domains ● LD/ELL, etc. 	<ul style="list-style-type: none"> ● time consuming ● lot of practice ● student anxiety ● LD/ELL, etc. ● scoring a challenge ● requires lots of practice
Personal Communication (PC)	<ul style="list-style-type: none"> ● formative ● elementary students ● good for students whose verbal ability is higher than their writing ability ● need good record keeping 	<ul style="list-style-type: none"> ● summative - 1:1 ● time consuming ● doesn't always work with high verbal students

3. Determine learning objective

- Using your pre-assessment, look for the highest areas of need for your students
- Write a SMART goal that will help your students increase their skill level in this (these) area(s)
- Graphic to help you write a SMART goal

S	Specific	<ul style="list-style-type: none"> • What do I want to accomplish? • Why do I want to accomplish this? • What are the requirements? • What are the constraints? 	
M	Measurable	<ul style="list-style-type: none"> • How will I measure my progress? • How will I know when the goal is accomplished? 	
A	Achievable	<ul style="list-style-type: none"> • How can the goal be accomplished? • What are the logical steps I should take? 	
R	Relevant	<ul style="list-style-type: none"> • Is this a worthwhile goal? • Is this the right time? • Do I have the necessary resources to accomplish this goal? • Is this goal in line with my long term objectives? 	
T	Time-Bound	<ul style="list-style-type: none"> • How long will it take to accomplish this goal? • When is the completion of this goal due? • When am I going to work on this goal?

Tiered Growth Targets	
<ul style="list-style-type: none"> • Group students together based on their pre-assessment scores. • Divide students into three or more categories (low, mid, advanced) 	
Preassessment Score	Growth Score
0–45 points	65
46–70 points	75
70+ points	85
<p>Pre-Assessment Scores</p> <p>34 – target 65</p> <p>36 – target 65</p> <p>42 – target 65</p> <p>48 – target 75</p> <p>56 – target 75</p> <p>78 – target 85</p> <p>90 – target 85</p>	
<p>What are the benefits of using a “basic” growth target? What are the drawbacks?</p>	

Once you have your pre-assessment data, review it to look at the numbers. When creating appropriate goals for students, you can group them. For the example above, all students who scored between 0 and 45 will achieve a 65 on the post-assessment. You will discuss your growth expectations with your administrator when you meet for your pre-SLO Administrator Meeting.

5. Determine instructional plan

- a. Examples of instructional strategies - Choose 2-3 instructional strategies (this list is not all inclusive).

6. Pre-SLO Administrator Meeting

- Your building administrator will schedule a meeting during the last week of October or first two weeks in November.
- You will need to have your SLO form filled out and your pre-assessment. You may bring an example of your post-assessment, if you have it.

7. SLO Teaching Period

- Six week minimum period, starting with your pre-assessment.
- Use your chosen instructional strategies.
- Monitor progress using formative assessments.
- Collaborate regularly with any colleague with whom you are sharing common goals.

8. Post-Assessment and data collection

- This **summative** assessment will be very similar to your pre-assessment.
- It must measure the same skills as your pre-assessment in order to provide you with accurate data for comparison.

9. Data Analysis

- You will need to score pre- and post-assessments.
- Enter your scores on the Data Form.
- Compare your assessment data with your growth target to see if the students met your goal.

SLO Data Form - EXAMPLE					
Student	Pre-Test	Post-test	Growth	Growth Target	Met Target
Student A	43	71	26	65	yes
Student B	54	76	22	75	yes
Student C	76	84	9	85	no
Student D	85	89	4	85	yes
Student E	23	60	37	65	no

10. Post-SLO Administrator Meeting

- Review your data with your administrator.
- Did your students reach the anticipated growth targets? If not, what were some things that could have impacted the growth?

Student Growth Data Cut Points

Percentage Ranges of Students Who Met Their Growth Targets	
85-100%	Highly Effective
70-84%	Effective
41-69%	Needs Improvement
0-40%	Ineffective
