SECTION I GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Pelham Union Free School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

3. In the event of an emergency or violent incident, the initial response at an individual school will be by the Building Emergency Response Team.
4. Once the Superintendent and/or their designee are notified, the District Emergency Response Team may be mobilized to respond, and when appropriate, local emergency officials will be notified. All will follow the emergency management protocols and practices outlined in the National Incident Management System (NIMS) and will practice Incident Command System (ICS) techniques to better manage these events.

PREVENTION AND INTERVENTION STRATEGIES

The District utilizes a variety of intervention strategies to reduce risk and prevent critical incidents.

1. Any utilized school safety monitors and other security personnel are trained annually with the assistance of one or more of the following collaborative relationships:
 - Emergency Responders
 - Regional BOCES
 - District Consultants
2. Training for school staff working in an incident control capacity may include:
 - a. Individual and group de-escalation techniques
 - b. Non-violent conflict resolution skills and
 - c. Peer mediation

4. Training may be available during staff development sessions, on conference days and via on-demand web-based training modules.
5. Procedures relating to building security including utilization of staff and security equipment are as follows:¹²
 1. All authorized staff members are expected to carry their classroom/office keys/swipe cards at all times.
 2. All staff members are expected to wear District-issued photo identification badges.
 3. After the designated start time of the school day, each school will be appropriately secured.
 4. All visitors must report to each building's designated single point of entry and sign in before proceeding further into the building.
 5. All contractors assigned to work in any building must first be authorized by the Facilities Department to receive an identification badge, which must be visible at all times when workers are on school property. All deliverables and delivery personnel must first be authorized by the Facilities Department, prior to delivery. An exception for regular food service deliveries may be made after the vendor has been authorized for the school year.

The District continually investigates other security measures and conducts staff development training to ensure schools are as safe as possible. Security measures include:

- a. Safety monitors and greeters
- b. Surveillance cameras
- c. Door-lock (buzzer) entry systems

¹² 155.17(b)(1)(xi) policies and procedures relating to school building security, including, where appropriate, the use of school safety officers and/or security devices or procedures;

- d. Portable Radios
- e. Alarm Systems
- f. Keypad or swipe entry systems
- g. Single or limited points of entry
- h. Electronic visitor management systems

IMPROVING COMMUNICATION WITH STUDENTS

Each of the schools within the district provides a wealth of school safety-related initiatives. These programs may include peer mediation, bullying prevention, conflict resolution, social skills development, managing emotions and components of character education. Students are involved in a wide variety of safety activities through both their classes as well as through work with school counselors, social workers, and school psychologists.

Each building has established a mechanism for the anonymous reporting / open door policies at each of the school buildings. Each school advocates for a Dignity for All Students Act (DASA) open door policy for reporting all potential school violence and harassment and has communicated this to students and parents.¹³

The school district's Code of Conduct is accessible to parents and students and reviewed with all students at the beginning of the school year. During the review with students, bullying, discrimination, harassment and violations of the Code of Conduct, along with consequences are discussed.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

In addition, each school has a wide range of programs and supports that impact school safety. These may include offering a variety of clubs, classroom lessons, small group lessons and/or individual counseling sessions, school-wide meetings, morning meetings in classrooms, assemblies, mindfulness rooms, yoga and movement breaks, and a variety of wellness opportunities.

REPORTING THREATS OR ACTS OF VIOLENCE

Students, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The District has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

- Students are instructed to report threats and acts of violence to staff members.
- Each school has designated a reporting process, which can be done anonymously.

¹³ 155.17(c)(1)(xvi) strategies for improving communication among students and between students and staff and reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

- Staff members are required to report all student referrals to the administration for investigation.
- Staff training programs meet S.A.V.E. requirements. Instruction on issues of school safety is provided to all employees each year.

TRAINING, DRILLS AND EXERCISES

Drills and Exercises:¹⁴

The District will conduct emergency management drills and exercises annually including, but not limited to:

EVACUATION AND LOCKDOWN DRILLS: Evacuation and lockdown drills will be conducted during school days in each school within the District with staff and students twelve (12) times annually (September – June). The first eight (8) drills are conducted prior to December 31st of each school year. Eight of all such drills shall be evacuation drills. Four of all such required drills shall be lockdown drills. The appropriate Fire Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding effective building evacuation in the event of a fire. The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the lockdowns drills and offer feedback regarding the effectiveness of these drills. Drills shall be conducted at different times of the school day with at least one of the eight required evacuation drills occurring during a mass gathering event such as lunch or assemblies.

EARLY DISMISSAL DRILL¹⁵: The District will conduct an Early Dismissal drill annually wherein students are dismissed early from each school. Parents will be notified of these drills well in advance. Transportation Officials and District staff may also take place in conducting and evaluation of this drill.

SHELTER-IN-PLACE DRILLS: Each school in the District will conduct at least one (1) Shelter-in-Place Drill annually utilizing Shelter-in-Place protocols. The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

In addition to post-drill debriefings conducted by each building-level emergency response team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review.

¹⁴ 155.17(c)(1)(xiv) procedures for review and the conduct of drills and other exercises to test components of the emergency response plan, including the use of tabletop exercises, in coordination with local and county emergency responders and preparedness officials;

¹⁵ 155.17(c)(2)(h) Fire and emergency drills. Each school district and board of cooperative educational services shall, at least once every school year, and where possible in cooperation with local county emergency preparedness plan officials, conduct one test of its emergency response procedures under each of its building-level emergency response plans, including sheltering, lock-down, or early dismissal, at a time not to occur more than 15 minutes earlier than the normal dismissal time.

Each Building-level Emergency Response Team and representatives of the District administration engage in tabletop exercises facilitated by the district’s emergency management consultant. Emergency response agencies are encouraged to participate in these exercises. The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills.

STAFF DEVELOPMENT TRAINING:

All general staff will receive training on District-wide procedures as well as specific procedures contained within their respective building-level emergency response plan. This training shall occur prior to September 15th of each school year or within 30 days of joining the district. This training will be conducted at a staff development day in August, online or a combination of both.¹⁶

The District will provide advanced training for each Building-level Emergency Response Team (BERT) and District-wide Safety Team annually. The training will include practices and procedures to educate, evaluate, update and review all Emergency management protocols and procedures the teams perform including, but not limited to Lockdown, Lockout, Evacuation, Shelter-In-Place, Hold-in-Place and Early Dismissal. The District may involve local emergency responders to participate in this training.

Additional training includes but is not limited to:

- De-escalation training

PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have greeters or monitors just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building

¹⁶ 155.17(c)(1)(xiii) policies and procedures for annual multi-hazard school safety training for staff and students, provided that the district must certify to the commissioner that all staff have undergone annual training by September 15, 2016 and each subsequent September 15th thereafter on the building-level emergency response plan which must include components on violence prevention and mental health, provided further that new employees hired after the start of the school year shall receive such training within 30 days of hire or as part of the district’s existing new hire training program, whichever is sooner;

traffic flow. The building principals are responsible for supervision of the greeters and other staff.

3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in via entry into the electronic visitor management system utilized at each school in the District and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.

VITAL EDUCATIONAL INFORMATION¹⁷

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR¹⁸

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A "plain language" summary of the District's Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A "plain language" summary of the District's Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District's schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists,

¹⁷ 155.17(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

¹⁸ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, persons in parental relations to students of the school district or board, students and other persons deemed appropriate to receive such information;

school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students may be involved in this process.

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.
7. Each of the District's school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <https://www.pelhamschools.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.

²⁰ 155.17(c)(1)(xv) the identification of appropriate responses to emergencies, including protocols for responding to bomb threats, hostage-takings, intrusions and kidnappings;

RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE²¹

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, or other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct. Chronic offenders may require a behavior plan or contract, close monitoring, and/or police involvement.

²¹ 155.17(c)(1)(i) policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel, including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which for the purposes of this subdivision shall include suicide;

RESPONSES TO ACTS OF VIOLENCE²²

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.
6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.
7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact via 911 with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.²³
10. The district has a zero-tolerance policy for acts of school violence.

²² 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors and visitors to the school, including consideration of zero-tolerance policies for school violence;

²³ 155.17(c)(1)(iv) policies and procedures for contacting the appropriate law enforcement officials in the event of a violent incident;

STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and served as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

PROTOCOLS

1. In the event of a state-ordered reduction of the District's in-person workforce, the following is a list of **essential** employees.

2. In the event of a state ordered reduction of the District's in-person workforce the District will provide the opportunity for all non-essential employees the capability to telecommute including, but not limited to, facilitating or requesting the procurement, distribution, downloading and installation of any needed devices or technology, including software, data, office laptops or phones, and the transferring of office phone lines to work or personal cell phones as practicable or applicable to the workplace. Pelham UFSD Staff will be guided on this as per the Building Level Emergency Plans.

3. To the extent possible the District will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. Staff and students typically walk or drive via personal vehicle to campus. In an effort to reduce overcrowding on public transportation:

- Class schedules, if scheduled to be on site, may use schedules such as split “in person/virtual” daily cohort and/or morning and afternoon cohort depending on whichever scenario best serves the District.
 - Staff will arrive on campus prior to students at staggered times/work shift or/and staggered assigned days of work
 - If no students are in school staff will continue to have their work shift or assigned days of work staggered.
 - Most employees will be permitted to work remotely.
 - Visitors will not be permitted on campus.
4. A quantity of personal protective equipment (PPE), sufficient to provide to all essential employees, will be procured, stored, and managed as follows:
- Facilities will maintain inventory of PPE as recommended by the NYS Education Department guidelines, and continually restock the same as needed.
 - Storage of personal protective equipment will be on campus and comply with the manufacturer’s storage recommendations for each item.
 - The equipment will be stored and readily available to any person in need of it
5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, and in order to prevent the spread or contraction of such disease in the workplace the District has a set protocol to be followed for the exposure as well as the disinfecting of the affected work area(s). The District’s Building Level Emergency Plan contains an Infectious Disease section which details:
- The disinfecting of any area known or suspected to be infected with the communicable disease as well as any common area surface and shared equipment such employee may have touched
 - Available leave options, for the affected employee(s), in the event of an employee’s need to receive testing, treatment, isolation, or quarantine

Note: Such protocol does not involve any action that would violate any existing federal, state, or local law, including sick leave or health information privacy.

6. All essential employees will have their hours and work locations documented, including off-site visits, by:
- All entrances will be secured with security (monitor) staff posted.
 - All employees will use their access cards for entrance which documents their arrival on premises.
 - Payroll, attendance, and time cards/sheets will further document an employee’s presence on campus.

- in the visitor log book.
- No other visitors will be allowed on site.

Such protocol shall be designed only to aid in tracking of the disease and to identify the population of exposed employees in order to facilitate the provision of any benefits which may be available to certain employees on that basis.

7. If emergency housing is needed to further contain the spread of the communicable disease, the Pelham UFSD will lodge an essential employee at a local hotel bearing the full cost of the stay.

If there is a declared state disaster emergency involving a communicable disease that involves the Pelham UFSD, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

8. OTHER Any other requirements determined by the Department of Health such as contract tracing or testing, physical distancing, hygiene, and disinfectant, or mask-wearing.

SECTION V RECOVERY

Continuity of Operations

This district maintains continuity of operations at both the district and building level to ensure that essential functions continue during an emergency and its immediate aftermath. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of instruction. Specific continuity plans are contained within each Building-level Emergency Response Plan.

Continuity of Instruction

The district offers a suite of online instructional tools that can be used to support remote instruction and communication. The district currently uses the Google Workspace for Education suite for all communications and collaborative instructional needs supported by other third party programs that supplement the core curriculum.

District Support for Buildings

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a "debriefing", or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team's response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District's Public Information Officer will assist in sending mass communication messages to affected groups. The District's Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

Disaster Mental Health Services

The District Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. District mental health providers may be temporarily reassigned to assist in the recovery process.

APPENDIX 5 – SECTION 155.17 REGULATION COMPLIANCE REFERENCE
