

EPISODE 3

We're back with Episode 3 of Happenings @ MU!

As you might already know, Misericordia goes above and beyond when it comes to personal attention. It's kinda our thing. You can see this both in the classroom and even at our events!

For instance, at our Open House, we give our guests every opportunity to connect with us and ask questions. We intentionally keep our tour groups small and offer faculty sessions where professors will speak with you one-on-one about their programs. You will actually have opportunities to mingle with other students and faculty at lunch!

[Check out this video](#) from our recent Admitted Student Day event. You'll see how easy it is to make connections and have fun. And this is just one of the great things happening at MU!
