

EPISODE 2

We're back with the second installment of **Happenings@MU!**

This time around, we've got Mathematics Dept. Chair, Dr. Steve Tedford, dropping it semi-low with our president on TikTok.

[This is a MUST SEE.](#)

And for good measure, we asked some MU students and faculty to tell us their favorite thing about Misericordia. [Check out what they had to say!](#)

Now you might be asking, "How are these videos related?" Well, they're not. But, they are both great examples of what's happening at MU!

Stay tuned for the next Happenings@MU coming soon.

In the meantime, be sure to follow us on [TikTok](#) for more laughs and more examples of the Misericordia experience!
