INTERDISCIPLINARY ACTIVITIES

2201 INTERDISCIPLINARY ACTIVITIES

The interdisciplinary nature of studies should be emphasized. Therefore, programs, projects and units of study are encouraged which require students to integrate communications and computation skills with other areas of study, such as social studies, the arts, and music. Further, programs which call on the various skill levels of several grades in one discipline are valuable in developing both interpersonal relationships and concern for wider issues such as environmental protection, health and safety.

N.J.A.C. 6:8-3.6(A)7

Adopted: 29 June 1998
