

OLDHAM COUNTY BOARD OF EDUCATION POLICY

ALCOHOL & DRUG EDUCATION

4010

The Board recognizes that the youth of Oldham County must be made aware of the problems that may result in the periodic, habitual, and chronic use of alcohol and drugs; and it is the intent of the Board to ensure that its youth receive instruction about the harmful effects of alcohol, tobacco and drugs. As part of its District Curriculum Framework (see Policy 4064), each student must demonstrate knowledge and understanding of the health and emotional dangers associated with the use of drugs, tobacco and alcohol.

The Board expects each school to provide instruction in alcohol and drug education in any appropriate areas of study.

This instruction should include facts and information about the known harmful effects of drug/alcohol/tobacco usage.
