"The Varsity basketball team would like to thank the Timothy community for all the love and support this season. This year was full of many amazing team accomplishments along with one of the most difficult moments a team could possibly endure. This team was able to make it down state for the first time in 40 years only to see that dream not become a true reality. We were reminded that God is in control and He knows the plans for our lives. We trusted in Him prior to the decision being made not to play the games down state and trust in Him even more today.
God is good, all the time, God is good."

NACHTOBERFEST

TURNABOUT

FLAG FOOTBALL

SENIOR VS FACULTY

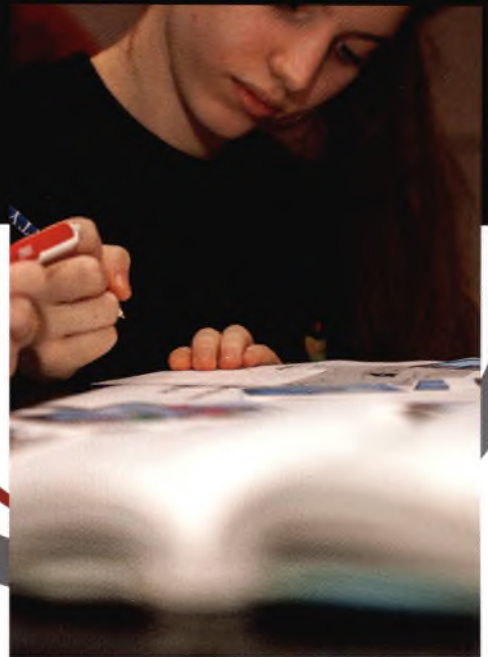

TROJAN MADNESS

Trojan madness was an exciting night of competition. The students of the Redzone committee faced-off against high school teachers and coaches. The student body also had a rigorous time competing against one another. With a "friendly" game of tug of war, the students were tested on their Trojan strength. The fun did not stop there as we had the Girls and Boys Varsity basketball teams play against their own teammates. The night was filled with fun, excitement, and the Trojan Spirit.

SPIRITUAL EMPHASIS

During spiritual emphasis week we celebrated our faith in God by focusing on prayer. Students were able to visit a room dedicated to prayer to encourage communicating with God and putting our trust in Him.

Throughout the week there was chapel everyday with special speakers, activities, and prayer time. On day one we practiced different praying positions, and on day two we heard from Read Schuchardt who talked about how technology distracts us and how we should focus on God. A group of young adults performed a skit on stage about listening to God's voice for day 3, and on day 4 Bill Shiell spoke about responding to God's call.

The last day was spent as a prayer chapel where students spread around the Chapel and prayed with groups, by themselves, or with a teacher.

WHAT IS SOCIAL DISTANCING?

THE CENTERS FOR DISEASE

CONTROL asked everyone to take intentional actions to avoid passing the coronavirus from person to person. Anyone who didn't feel well was asked to stay home. In day-to-day life, social distancing meant staying away from places people gather and staying at least six feet from other people. That meant no eating in restaurants, no movies or plays and no attending sports events. For younger kids, it meant no playgrounds, playdates or sleepovers. For adults, it meant no trips to the gym, salons or restaurants. The CDC also advised that people cancel all non-essential appointments, including surgeries or medical procedures that weren't critical.

SEVERE MEASURES

STATES WITH HIGH LEVELS of positive COVID-19 tests began issuing shelter-in-place orders. Residents were only allowed to leave their homes for essential tasks such as getting food or seeking medical help.

» HOW WE DEALT WITH THE SPREAD OF CORONAVIRUS

First steps

- Limited travel out of the country was a first step.
- Experts suggested self-quarantining for those who had recently traveled or were feeling sick.
- New cruise travel was canceled and passengers returning from foreign cruises were quarantined.

» HOW COMPANIES HELPED

- Many companies that offer online learning resources and services, started allowing teachers to use their resources at no charge.
- Adobe began making its Creative Cloud software available for students to use at no charge.
- Burger King started giving away free kids meals to help make up for children who are not being fed because they are not in school.

- U-Haul offered 30 days of free storage for college students who had to move out of their dorms with little notice.
- Many grocery stores began providing senior-only shopping hours so that older citizens could shop with less chance of being exposed to the virus.
- Big box stores, such as Walmart, adjusted store hours so employees could properly clean and sanitize the store and restock the shelves.

- Cosmetics and liquor companies both have alcohol on hand, and some opted to make hand sanitizer at their facilities.
- Companies, such as Apple and Facebook, that had extra masks left over from the California wildfires donated them to hospitals.

Next steps

- Schools closed with varying reports of trying to resume later in the spring. Students began online learning.
- People who could began working from home and managing their homebound students.
- All sports — from Little League to professional — and entertainment including Broadway and television shows with a live audience, suspended operation.
- States limited gatherings — first large gatherings, such as conferences, and then even small gatherings of 10 or more people. This effectively closed restaurants causing many to convert to take-out only.

TOILET PAPER HOARDING

AS FEARS ROSE over the idea of shelter-in-place orders and quarantine, toilet paper became scarce as consumers decided to clear shelves of TP, hand sanitizer and cleaning supplies. Retailers resorted to limiting the number of packs that could be purchased at one time. We weren't alone, according to CNN, stores in Australia hired security guards to keep the peace in the TP aisles.

TP by the numbers:

- About 90 percent of the TP sold in the U.S. is also made in the U.S.
- The average person uses about 100 rolls each year.
- Approximately 75 percent of the world's population doesn't use TP.
- They do use TP on the International Space Station.
- Normal daily production is more than 83 million rolls per day.
- In the U.S., packaged TP first became available in 1957.
- One company advertised splinter-free TP in 1935.

WHAT IS YOUR FAVORITE
HIGH SCHOOL MEMORY?

A large, stylized exclamation mark graphic is positioned on the right side of the page. It is drawn with a thick, dark purple outline and is set against a background of horizontal purple lines. The exclamation mark is tilted slightly to the right. The lines are evenly spaced and extend across the width of the page.
