Application: ARP Safe Return Plan - 00-
Cycle: Amendment 1

ARP Safe Return Plan ▾

Project Period: 9/1/2021 - 8/31/2022

Safe Return Plan Updated

Safe Return Plan text and assurances must be agreed to every six months.

Date Plan Updated

Describe how the LEA will ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health, and other needs, which may include student health and food services. ([count] of 1000 maximum characters used)

The district has identified certain needs that will be funded by the CRRSA-ESSER II grant that will provide a continuation of services for students impacted by the COVID-19 pandemic. We will provide therapeutic care for identified students who have experienced isolation, trauma, depression and anxiety. This therapeutic care will include individual and family counseling to support students' academic success and mental health needs. The district is also planning to improve elementary science and STEM, English Language Arts and Visual and Performing Arts through learning academies throughout the year. An analysis of student growth will be used to determine areas in need of support to increase student success, with the goals of increased fidelity to the standards and the inclusion of performance-based learning and thematic structures that accelerate, rather than remediate, learning. Social-emotional learning will also be a key factor in student success.

Describe how the LEA sought public comment on its plan, and how it took those public comment into account in the development of its plan. ([count] of 1000 maximum characters used)

In addition to opportunities for public discussion at this and at subsequent Board of Education meetings, the plan will be posted on the school website and sent out to the local teacher's union, Carlstadt Public School families, and other individuals to give opportunities for public comment.

Describe how the LEA ensured that the plan is in an understandable and uniform format; is to the extent practicable written in a language that parents can understand or, if not practicable to provide written translations to a parent with limited English proficiency, will be orally translated for such a parent; and upon request by a parent who is an individual with a disability as defined by the ADA, will be provided in an alternative format accessible to that parent. ([count] of 1000 maximum characters used)

The School Reopening Plan is published on the district website at www.carlstadt.org, and the Safe Return to In-Person Instruction and Continuity of Services will be posted there as well, once it is Board approved. For those members of the public whose first language is not English, the website has the ability to translate text into eleven different languages. The text of the Reopening Plan is understandable and follows a clear format, making it easy for people to access the area they wish. Upon request and if necessary, an individual with a disability as defined by the Americans with Disabilities Act will be provided information in an alternative format that is accessible for that parent or guardian.

Briefly describe any guidance, professional learning, and technical assistance opportunities the LEA will make available to its schools. ([count] of 1000 maximum characters used)

The district will continue to provide learning and technical assistance opportunities throughout the course of the year through formal professional development sessions, coaching sessions, and individual assistance meetings.

Provide current link to the district's website where the plan is posted.

By checking this box and saving the page, the applicant hereby certifies that they will assure that the information contained in the Safe Return to School plans will be updated within this system every 6 months during this grant

project period.

Assurances Fully Agreed to By:
