

Policy and Regulations System

The Superintendent is directed to establish and maintain an orderly plan for preserving and making accessible the policies adopted by the Board and the administrative rules and regulations needed to put them into effect.

The Superintendent has responsibility for carrying out, through administrative regulations, the policies established by the Board.

The policies developed by the Board and the administrative regulations developed to implement policy are designed to promote an effective and efficient school system. Consequently, it is assumed that all Board employees and students will willingly carry them out.

There are activities that are common to all departments and school levels but procedures for conducting them may vary from unit to unit. Principals and Department Heads will establish procedures for conducting activities within their individual units within the larger framework of administrative regulations and Board policies.

Accessibility is to be extended to all employees of the school system, to Board members, and to persons in the community.
