

**Adult Education**

The Bon Homme School Board recognizes that education is a life-long process and that it has an educational responsibility to the entire community. Accordingly, adult education courses may be provided to meet the needs of adults and out-of-school individuals for basic education, general and academic education, occupational education, and development of special interests in various arts, crafts, and recreation.

The adult education program will be administered by the building principal with the approval of the Superintendent. Tuition charges, fees assessed, etc. will be determined by the instructor and principal in charge with the approval of the Bon Homme School Board.

Adult vocational classes are offered whenever feasible. Classroom facilities may be used without charge for approved adult classes.
