

Insurance and Student Injuries

Whether a child is insured or not, any injury must be reported immediately to the principal's office. Registration information requires the name of the family physician who may be called in case of an emergency or when a parent cannot be reached.

Bon Homme School District does not provide basic health or accident insurance for students. The district will provide opportunities, through various private carriers, for parents to purchase health and accident insurance for their students while at school or school activities. The district may purchase an umbrella policy to supplement private insurance in case of certain catastrophic injuries. The district does not assume any liability for medical treatment of children who may be injured at school or during school activities except to the degree that any district insurance may apply.
