

JOB DESCRIPTION

Pleasanton Unified School District

Behavior Specialist

Purpose Statement

To provide behavior analysis, management for district students enrolled in educational programs, and to provide support and professional learning to administrators, school site staff and parents/guardians in appropriate behavior intervention techniques under the direction and supervision of the Director of Special Education.

Essential Functions

1. Provide training seminars for paraeducators and provide ongoing monitoring of paraeducators skill development.
2. Perform a variety of specialized duties in the monitoring, analysis, and service of identified students with behavioral challenges. Ensure educational programs meet the intensive and changing needs of students, and establish and maintain behavioral goals and objectives for individual students.
3. Observe and analyze student behavior in the classroom: assess classroom structure, review students goals, behavior programming, and behavior management systems.
4. Provide consultation and technical assistance to faculty, staff, and families concerning behavior management systems.
5. Conduct data-driven Functional Behavior Assessments (FBA) and create and implement detailed and concise Behavior Intervention Plans (BIP). Maintain quality control over behavior and social based goals in the students' Individual Education Programs (IEP).
6. Provide data collection and assessment relating to the development of positive behavior intervention plans
7. Provide direct individual and group-based behavior therapy and social skills facilitation.
8. Develop, implement, and conduct training for staff; prepare and deliver oral presentations; and prepare and distribute related training and informational materials.
9. Participate in the development and implementation of behavior management communication systems, methodologies, and techniques.
10. Communication between outside agencies, families and the public to exchange information, maintain quality control of services, coordinate activities, and resolve issues or concerns.
11. Monitor, evaluate, meet and regularly communicate with parents, classroom and district staff on student progress and behavior as it relates to behavioral systems.
12. Assist with implementing intervention to support students in meeting their IEP goals.
13. Prepare summary of behavior progress and attend IEP meetings, as appropriate.
14. Design forms for data collection and progress monitoring.

Other Functions

Attend workshops/conferences to remain current with relevant research and strategies.
Follow professional guidelines/ethics/ongoing training pertaining to the Behavior Analyst Certification Board.
Perform related duties as assigned.
