Novi Community School Cat's Den Staff

## **Developmental Screening**

We are providing you the link to a great developmental screening tool on the Toddler website. Ages and Stages Developmental Screening Questionnaire is available for all children through age 5. This researched tool gives parents information about where their child is regarding many areas of development. After you answer some questions about your child, you will receive feedback with some ideas to implement to keep your child moving forward. If there are any areas of concern, you will also receive suggestions of things to do or where to go to seek additional help. Join parents nationwide who want to know how to best support their child as they grow!

We do have a refrigerator and cupboards to store food as needed. All food that will be stored in the room for the week must arrive unopened and in its original container.

## **Discipline Policy**

Children who are having difficulty for any reason will be redirected to another activity with teacher assistance. In the event that a child's behavior is likely to result in harm to the child, others or property, or seriously disrupts group interaction, the child may be separated briefly from the group. Interaction between the child and staff member will take place immediately following the separation to guide the child.

## **Biting Procedures**

Biting is a natural developmental stage that many children go through. It is usually a temporary behavior that is most common between thirteen and twenty-four months of age. The safety of the children at the center is our primary concern. The center's biting protocol addresses the actions the staff will take if a biting incident occurs.

The following steps will be taken if a biting incident occurs at our center:

- The biting will be interrupted with a firm "No...we don't bite people!"
- Children will be encouraged to use their words.
- Staff will stay calm and will not overreact.
- The bitten child will be comforted.
- Staff will remove the biter from the situation. The biter will be given something to do that is satisfying. (Frozen teethers, frozen wet cloths, etc.)

- The wound of the bitten child shall be assessed and cleansed with soap and water. If it is determined that there was a blood exposure further steps need to be taken under [Procedure for Incidents involving Blood Exposure](#). The child that bit may be sent home for the rest of the day when skin is broken. The child may return the following day.
- The parents of both children will be notified of the biting incident. Appropriate forms will be filled out (Incident Report).
- **Confidentiality of all children involved will be maintained.**
- The bitten area should continue to be observed by parents and staff for signs of infection.

## **Health Information**

### ***Accident and Safety Procedures***

### **Divorced/Separated/Guardians**

According to the Michigan Department of Child Day Care Licensing: “Until custody has been established by a court action, one parent may not limit the other from picking the child up from your (preschool program) care. It is not within your (preschool program) legal right to withhold a child from a parent; unless there has been court action which limits one parent’s right to the child.” Novi Preschool will request a copy of the Judge’s order establishing custody be on file in order to prevent a non-custodial parent access to their child.

If you request notes and information sent to both parents, please let the parent and office know so we can mail out newsletters and school information.

Novi Community Education Early Childhood Program strives to provide appropriate developmental learning opportunities for all children in accordance with the Michigan Department of Education Early Childhood Standards of Quality. will contact the local education agency (i.e. local school district) to initiate protocol for suspecting a developmental delay. All efforts will be made to continue the student in the least restrictive environment.

## **Background Screening**

All staff members have had a criminal record check through the Michigan State Police, a comprehensive background check required by licensing and an abuse and neglect check through the Michigan Department of Human Services.
