Getting Started

On September 1st, explore the school and/or begin your application process. Please create an account with Ravenna. From Ravenna, you will be able to view and register for all the admission events. We look forward to meeting you!

To explore or apply, visit: www.sfday.org/admission 

We have created a range of opportunities from optional, recommended, and required events, for you to get to know our school. Here are events you may consider joining in order to familiarize yourself with SF Day and help us to get to know your family as well.

1. Virtual | Admission Office Hours: September and October (Optional)
2. Virtual | Intellect + Imagination Events (Required)
3. In-Person | Open House (Recommended)
4. In-Person | Windows & Mirrors Reception (Optional)
5. Virtual | Discounted Tuition Information Session (Optional)
6. Virtual | Community Connections (Optional)
7. Virtual | Parent/Guardian Meeting (Required after application submission)

We are available by phone, email, and Zoom to support your journey.

When we can open our building to visitors, SF Day is accessible by safe bike routes on Masonic Ave. as well as driving, and Muni bus lines 43 Masonic, 5 Fulton, and 31 Balboa stop close to San Francisco Day School.

For Ravenna HUB questions, parents/guardians may visit the Ravenna/Guardian Help Center. You must be logged in to the HUB to access: <https://www.ravenna-hub.com/help-center/>

Families of younger applicants who are not eligible to come through this season are welcome to contact the admission office at: admission@sfday.org or 415-568-3611.

San Francisco Day School

Welcome from our Interim Head of School, Peter McCormack

San Francisco Day School is a wonderful place for children to spend their childhood. The children, families, and teachers that make up this community are united in support of our students' learning and personal growth. Informed by neuroscience and anchored in the extensive experience of our faculty, our program is designed to nurture the inquisitiveness of all our students and guide them in the discovery of their talents and interests.

Our academic program equips students with the foundational skills that will enable them to pursue a lifetime of learning. Our extensive curricular offerings in the arts, athletics, outdoor education, social-emotional learning and service learning allow them to develop the fullest range of their potential.

At SF Day, we know, understand, and are committed to the learning and self-realization of every child. Our partnership with families is the essential ingredient that enables this marvelous process to unfold. We appreciate your interest and look forward to getting to know you and your child.

With Warm Regards,

Peter McCormack

Peter McCormack

We Are A Community.

Every day at SF Day, we take the time and care to know, value, and cherish each child as an individual learner with unique gifts and talents. Every student is challenged in learning that engages both heart and mind. Every adult models what it means to participate in a community of passionate learners who support each other throughout our interconnected educational journeys.

One Size Does Not Fit All.

All students grow, mature, and develop at different rates. We use a Universal Design for Learning framework to create thoughtful and intentional curriculum that enables our students to access and express their learning in a multitude of ways.

Co-Education Matters.

The world in which our children collaborate, explore, and learn is not made of a single gender. We celebrate gender diversity with an educational program in which all learners are served for who they are.

Diversity & Inclusion Enriches All of Us.

At SF Day, we recognize that there is no true 'finish line' when it comes to advancing diversity and inclusion in our community. We aspire to create a learning environment that is representative of a global community. Preparing students for our ever-changing world requires learning from and among a diverse and inclusive community gifted with a wide range of perspectives and backgrounds. Programs such as affinity groups and SEED all contribute greater insight through ongoing dialogue and support.
